No. 3201A.

FROM A. MARR, ESQ., I.C.S.,

Secretary to the Board of Revenue, Bengal,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

REVENUE DEPARTMENT.

Dated Calcutta, the 28th November 1913.

SIR,

I AM directed to submit the report on the Land Revenue Administration of the Presidency of Bengal for the year 1912-13.

2. The report and its appendices deal with the Presidency as constituted on 1st April 191.. By Act II of 1913 which came into force on the 23rd April 1913, it was enacted that the Board of Revenue, Bengal, should ordinarily consist of one Member only. As only one Member had been provisionally in charge of the whole Board for some time before that, and it was found impossible for him to carry on all the work that had been done by two Members in the past, some of the departments which had previously been under the administration of the Board were, so far as non-statutory functions were concerned, brought under the direct control of Government from the 1st August 1912. As in the previous year, the present report deals with the twelve months ending on the 30th June 1913. Under the Government of Bengal, General Department, Resolution No. 517, dated the 21st January 1913, the paragraph regarding the classified statement of merits of officers, and the statement itself which have hitherto found a place in this report, have been omitted, and a paragraph has been assigned to the subject of "the relations between landlords and tenants" under the heading "Working of the Bengal Tenancy Act."

3. The reports of the Commissioners of Divisions were due to the Board on the 30th September this year, and were all practically received by the due date.

SECTION I.

GENERAL CONDITIONS OF THE YEAR.

Material condition of the people.

4. The material condition of the people, specially of the cultivating and labouring classes, was, on the whole, satisfactory. The outturn of the principal crops in most places was good, while, at the same time, high prices ruled throughout the year much to the benefit of the cultivators. Labourers also fared well as the demand for labour, both skilled and unskilled, was good, and the rise that has taken place in their wages compensated for the dearness of food-grains. The people of the middle classes depending on small fixed incomes, however, are suffering greatly from the continued rise in the prices of food-grains and other necessaries of life. The Commissioner of the Rajshahi Division observes that in his Division the chronic indebtedness of the cultivators, which is mainly due to want of thrift and reckless expenses on social ceremonies and litigation, did not allow them to make much appreciable improvement in their condition. Most of the cultivators in the Chittagong division also are reported to be involved in debt at high rates of interest. The co-operative movement appears, however, to serve as an effective means of combating this evil, and it is encouraging that the number of Co-operative Credit Societies is gradually increasing.

Considerable distress was felt in certain portions of the Sadar subdivision of the Birbhum district by the floods of June 1913, but this was largely mitigated by the grant of Rs. 5,000 from the Ram Lal Mukherjee's Fund for the relief of the sufferers. This grant was supplemented by contributions raised within and outside the district. A special grant of Rs. 10,000 was also made by Government for distribution in agricultural loans to the cultivators. Since the close of the year very disastrous floods have occurred in the other districts of the Burdwan Division, but these need not be noticed in this report. In the Dacca Division, the tenants of the Government estates were generally prosperous, but those in the Bakarganj and Faridpur districts suffered along with their neighbours in private estates from damage to crops. In Barisal the heavy rains of June 1912, followed by cyclonic weather and the appearance of insect pests, caused some damage to the standing crops, but the situation was met by the distribution of agricultural loans. The Gumti embankment in Tippera was breached in June 1912: this caused some distress to the people of the locality and a sum of Rs. 29,641 was distributed in agricultural loans to afford relief. In the year under report there was renewed distress among the people of the Chittagong Hill Tracts. Before they could recover fully from the effects of the scarcity of the preceding year, their crops were damaged by an insect pest and to some extent by rats. The whole district was more or less seriously affected, and the scarcity was greater than in the year before. Accordingly, further collection of the agricultural loans issued in the preceding year was suspended after a sum of only Rs. 33,126 had been repaid, and a grant of Rs. 1,20,000 was sanctioned for distribution in loans to enable the people to hold out until the next harvest.

Economic developments.

5. In Burdwan, the coal industry in the Asansol subdivision appears to have recovered from the depression of the previous years. Messrs. Burn & Co's. Pottery, Tiles and Lime Works, the Bengal Paper Mills, the Bengal Iron & Steel Works and the Bansra Tanning Extract Company have progressed during the year. *Tasar* weaving continues to be a profitable industry in the Katwa and Sadar subdivisions, and a brisk trade is reported to be carried on. Trade in connection with other industries in the Katwa and Kalna subdivisions shows signs of development owing to the opening of the Hooghly-Katwa Railway. In Bankura, several industries, such as the manufacture of silk, *tasar* cloth, brass and bell-metal wares, cutlery, perfumed tobacco, country cigarettes, conch shells, gold and silver ornaments, continued to prosper and woollen blankets are also largely manufactured and exported to other districts. The Weaving School, opened the year before last, has been made a permanent institution and has met with some success. More, however, is expected of it when it becomes more practical in its teaching and gets more into touch with the actual requirements of the weaving classes. In Birbhum, the silk industry is declining. The silk factory of Gunutia, once the centre of silk spinning and weaving industries, which gave employment to a large number of men, has ceased to exist. The lac manufacture of Illambazar is now practically a thing of the past, while cotton weaving and the manufacture of sugar have almost disappeared owing to the import of machine-made cloth and cheap sugar. The people once employed in these industries are obliged to take to field work. In Midnapore, the large Bengal-Nagpur Railway workshop at Kharagpur, which gives employment to some thousands of people, mostly, however, up-countrymen, is the only important industrial undertaking in the district. In Hooghly, the Chinsura Agricultural and Industrial Exhibition continued to afford ample facilities to the people for the improvement of the various local industries of the district. The jute, cotton, paper, oil and flour mills on the bank of the river Hooghly and in the suburbs of Calcutta and Howrah continued to flourish and to give employment to a large number of men.

In the 24-Parganas, the Muhammadans of some villages in the Baraset and Basirhat subdivisions produce embroidery known as *chikan* which is not only sold in Calcutta but is also exported to Europe and Australia. Magrahat in the Diamond Harbour subdivision is a big centre of trade in rice, paddy, straw, etc., and labourers there earn good wages. In Nadia, the Mohini Cotton Mills at Kushtia continued to prosper. Weavers who produce ordinary handloom-woven cloths prospered, but the weavers of Santipur who make fine cloths did not do

well. In Murshidabad, the silk industry is declining and the Collector reports that some of the principal European factories manufacturing silk filatures were closed during the year. The decline of this important industry is attributed to competition from Japan, where the industry is controlled by the State. The bell-metal and other industries in the district were, however, prosperous. In Jessore, the demand for country-made sugar declined during the year and the trade in that article was less prosperous than before. The demand for country-made cloth, however, was good, and the improvement in the condition of the weaving classes was steadily maintained. In Khulna, the export of *hilsa* and *bhekti* fish to Calcutta and of dried fish to Chittagong and other places is declining owing, it is said, to the gradual diminution in the supply of fish in the rivers. Industrial exhibitions were held during the year at Baraset in the 24-Parganas, Ranaghat and Meherpur in Nadia, at all the subdivisional head-quarters in Jessore and at the district head-quarters in Khulna.

Rice, jute, cotton, tea and betelnuts are the principal products of the Chittagong Division. The Shalimar Works of Messrs. Turner, Morrison and Company at Ghoshaildanga are being successfully run as an iron workshop. At Cox's Bazar, a weaving school for Mugh women, who make *lungis* for sale in Burma, was opened at Government expense.

In the Rajshahi Division, trade was brisk during the year. The tea industry in Darjeeling and Jalpaiguri was very prosperous. The exports of rice and jute continued to be large. In Malda, the trade in mangoes is reported to be becoming more and more attractive, and a start has been made to preserve them by scientific processes for export to foreign countries.

The co-operative movement is being appreciated in all the parts of the Presidency, and the number of Co-operative Societies is steadily increasing in all the districts.

Emigration and immigration.

6. Coolies for the tea gardens in Assam were recruited during the year from the districts of Birbhum, Bankura and Midnapore and from the subdivision of Asansol in Burdwan, and there was the usual temporary immigration of Santals and other aboriginal tribes into Burdwan and Hooghly from the three first named districts during the seasons for transplanting and harvesting the winter paddy. Some of them also obtained employment in coal mines and mills. A large number of immigrants came into Hooghly and Howrah from various parts of India and found employment in mills, brickfields and other large industries. Some Muhammadans from Arambagh migrated as far as Rangoon and the Straits Settlements in quest of fortune.

A large number of people from up-country came to Dacca and Faridpur to find employment in the Jute Mills of Narainganj and in the handling of goods at Goalundo and Durgapur. The menial work in all the big towns of the Dacca Division is done mostly by men from Bihar. They are also employed in earth-digging and jungle-cutting.

An interesting feature of the year was the migration of some Santals from Malda to the Nepal Terai, where lands were offered to them by the Nepal Government on favourable terms. In Rajshahi, the construction of the Eastern Bengal State Railway broad gauge line brought an influx of coolies from Chota Nagpur and other places.

The movement of population between the Chittagong Hill Tracts and Hill Tippera, reported last year, continued; the net result was a loss of 16 families in the Chittagong Hill Tracts in the year under report

SECTION II.

Collection of Land Revenue.

Statistics of estates on the roll and their demands, collections, remissions and balances.

Appendix I.

7. The number of estates paying land revenue was 96,671 as against 96,431 in the previous year: of these 91,458 were in class I (Permanently-settled estates), 3,001 in class II (Temporarily-settled estates) and 2,212 in class III (Estates managed direct by Government). The increase of 240 estates on the roll was mainly due to partitions

of estates in class I and to the creation of new estates by resumptions and settlements.

8. The current demands, Rs. 2,71,04,157, showed an increase of Rs. 1,52,965, as compared with those of the previous year. This increase was due, as usual, mostly to new settlements, resettlements, and progressive increase of demands, and to the inclusion in land revenue, for the first time, of the receipts from the protected forest in the Bakarganj Sundarbans. The collections, both current and arrear, showed better results than in the previous year, the total collections, Rs. 2,71,13,280, being 96·29 per cent. of the total and 100·03 per cent. of the current demands. The bulk of the remissions, Rs. 46,470, was allowed in estates held direct by Government mostly on account of such causes as death, desertion or poverty of the raiyats, diluvion and non-settlement of holdings. The total outstanding balance amounted to Rs. 9,97,097, being 3·5 per cent. of the total demands: of this Rs. 9,60,461 is reported to be in process of recovery and the remainder doubtful or irrecoverable. The estates in class III were responsible for the major portion of the balance.

Permanently-settled estates.

Appendix IA.

9. As regards permanently-settled estates the current demands amounted to Rs. 2,16,24,919 and the collections exceeded 99 per cent. of the demands in all districts except Hooghly (98·81), Midnapore (98·32), Jessore (98·66) and Bakarganj (97·54). The deficiency in Hooghly was slight and the falling off in the other three districts is attributed to short payments made by two estates under the management of the Court of Wards, namely the Mukharji Wards estate in Jessore and the estate of Raja Sir Sourindra Mohan Tagore of Calcutta. These short payments were due to the bad financial condition of these two estates. The land revenue, being secure as a first charge on the estates, was withheld for a short time in order that more pressing debts might be paid. Adjustment was made in succeeding *kists*.

Temporarily-settled estates.

Appendix IB.

10. The three sub-classes of temporarily-settled estates are (1) private estates settled with the proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers. The total collections, Rs. 15,07,001, from these estates represented 88·38 per cent. of the total and 98·44 per cent. of the current demands. The prescribed standards of current collections were attained in all districts except Bakarganj, where, out of the total outstanding balance of Rs. 1,14,312, no less than Rs. 81,423 had to be kept in revenue deposit pending disposal of a civil suit.

Estates held direct by Government.

Appendix IC.

11. The estates held direct by Government include two classes, viz.—(1) those belonging to private proprietors but managed by Government and (2) those owned by Government as proprietor. The total collections, Rs. 39,84,607, showed an improvement, being 84·64 per cent. of the total and 100·91 per cent. of the current demands, as against 83·17 and 97·72 respectively in the previous year. In twelve districts the collections fell below the prescribed standards. The balances were heaviest in Midnapore (Rs. 1,73,474) and Chittagong (Rs. 1,96,683). In the former the greater part of the balance was due from the two estates of Majnamutha and Jalamutha under the management of the Khas Tahsil office at Contai. A number of the tenants in these estates withheld payment of rent as fixed in the recent settlement and instituted civil suits. Some of these have been decided against Government and are now pending in the Appellate Court. The short collections in Chittagong are attributed to the fact that the Government estates there consist of a very large number of scattered holdings and also to the fact that more than half the annual current demand falls due in the May and June *kists* at the very end of what now constitutes the Revenue year. The demands for these *kists* are generally realized after the harvesting of the *aus* crop later on in the year and so there is a heavy balance at the end of June.

Miscellaneous land revenue.

Appendix II.

12. The details of collections of miscellaneous land revenue are given in Appendix II. The total collections aggregated to Rs. 7,67,620 as against Rs. 3,30,248 in the previous year. The increase is accounted for by heavy recoveries of survey and settlement charges in the district of Faridpur, where the receipts rose from Rs. 15,438 in 1911-12 to Rs. 4,49,807 in the year

under report. Of the amount, Rs. 1,63,958, shown under "Other receipts", the largest item was Rs. 57,325 realized from the Burdwan Estate on account of *pulbandi* contribution.

13. Appendix III shows in detail the changes in the land revenue demand of temporarily-settled estates and estates under direct management during the year. There was a net increase of 31,167·53 acres in the area of land settled and of Rs. 1,28,259 in revenue.

Changes in land revenue demand of temporarily-settled estates and estates under direct management.

Appendix III

14. The number of petty estates the land revenue of which was redeemed during the year was 268. Of these, 184 were permanently-settled holdings in the Government estates of Calcutta and its suburbs redeemed under orders of Government, while 71 were estates redeemed under section 11 of the old Partition Act VIII (B.C.) of 1876 in the district of Dacca. The total revenue of all the estates amounted to Rs. 392 and the aggregate price realized was Rs. 11,478.

Redemption of land revenue.

Appendix IV.

15. The number of special money-orders and the amount of land revenue and cesses remitted thereby during the year were 320,340 and Rs. 17,26,260, as against 303,526 and Rs. 17,40,026 respectively, in the preceding year. The amount of remittances exceeded a lakh of rupees in each of the districts of Midnapore, Dacca, Mymensingh, Faridpur and Chittagong. The average value of an order was Rs. 5·4. The land revenue and road-cess tauzis are now amalgamated in the whole of the Presidency, except in the district of Nadia, and a proposal to issue for Bengal a combined money-order form for land revenue and cesses is only awaiting the reorganization of postal circles between the provinces of Bengal and Bihar and Orissa.

Remittance of land revenue and cesses by special money-orders.

Appendix V.

16. Particulars of the proceedings under the Revenue Sale Law are given in Appendix VI. The number of defaults and the number of sales during the year were respectively 9,895 and 920 against 10,546 and 878 during the preceding year. The number of defaults shows a decrease, while the proportion borne by the price received to the Government revenue of the properties sold has risen slightly. These properties realized 5·8 times the revenue on them as against 5·1 times the revenue in 1911-12.

Coercive measures.
Operation of the Sale Laws.

Appendix VI.

17. The figures in the margin give the number of defaults and sales and the proportion of sales to defaults in the districts in which defaults were most numerous. The enormous number of petty estates in Chittagong differentiates the results of the operation of the Sale Law there from those in other parts of the province. The very large size of the districts of Midnapore and Mymensingh explains the large number of defaults in them.

District.	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong ...	4,293	388	9·0
Midnapore ...	1,092	65	5·9
Mymensingh ...	884	59	6·6
Hooghly ...	528	57	10·7
Bakarganj ...	463	18	3·8

18. Eighty-nine tenures and holdings under the direct management of Government were sold under the provisions of Act XI of 1859. Of these, 26 were purchased on behalf of Government for one rupee each.

One hundred and twenty-one appeals were preferred to the Commissioners against sales during the year. In ten cases the sales were annulled under section 2 of Act VII (B.C.) of 1868, and in 27 cases they were annulled by Government under section 26 of Act XI of 1859.

19. The provisions of the Sale Law were applied with due moderation throughout the province. The rule that the sales on account of one *kist* should be held before the next *kist* day was generally followed, except in the district of Chittagong, where the arrangement of the *kist* dates makes it impossible to observe the rule strictly.

20. Detailed statistics showing the working of the Certificate procedure for the recovery of public demands are given in Appendix VII. During the year the total number of certificates filed (exclusive of those for cesses, which have been separately noticed in the Section on Cesses) was 69,677,

Certificate procedure.

Appendix VII.

as against 43,556 in the previous year. The increase occurred under all the heads but chiefly in the number of those filed "to realize arrears of rent due to Government, clause (*g*), section 7(*1*)" and of "all other certificates made under section 7(*1*)." Under the former head the increase, 5,463, was marked in Midnapore, and under the latter it was specially noticeable in the district of Faridpur, where it rose from 1,914 in 1911-12 to 18,370. In Midnapore, the increase is reported to be mainly due to the enhancement of rent at the recent settlement, in consequence of which a large proportion of tenants did not pay their rents voluntarily, and also to the filing of a large number of certificates by the Khasmahal Department for realization of *peshkash* demands of the Jallamutha and Majnamutha estates. In Faridpur, it is ascribed to the issue of a large number of certificates by the Settlement Officer for the realization of Survey and Settlement costs. It is reported by the Commissioner that the Director of Land Records is looking into the matter with a view to stopping the mechanical issue of certificates, such as appears to have been resorted to in this case.

21. The percentage of the total number of certificates disposed of to the total number for disposal declined from 68·4 in 1911-12 to 60·2. The number of cases pending at the close of the year was 35,003, of which 6,886 were pending for more than six months. The number of long pending cases is still very high in certain districts, Midnapore, Howrah and Nadia being conspicuous among them. In Midnapore, most of the long pending cases belong to Contai subdivision. The Collector explains that a large number of cases were instituted in September 1912, and that as the permanent establishment could not cope with the work, temporary clerks had to be entertained in the latter part of the year. The table below shows the stages at which the demands were satisfied in the various divisions:—

Division.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	Number of debtors imprisoned.	
					Number released on payment of debt before expiration of imprisonment.	Number released without full payment of debt.
Burdwan ...	5,232	6,360	231	196	10	3
Presidency ...	1,471	3,984	179	180	5	6
Dacca ...	6,762	5,931	335	31	2	...
Chittagong ...	4,109	10,067	498	266	...	1
Rajshahi ...	877	1,859	241	125	...	2

In the majority of cases disposed of, payments were made on the mere issue of notices and on attachment of property. Actual sales had to be resorted to in a small percentage only.

Realization of Government demands by imprisonment.

22. Twenty-nine persons were committed to Civil Jails during the year in the enforcement of certificates, of whom 24 were imprisoned for non-payment of Government demands and 5 for non-payment of Court of Wards and District Board dues.

Separate accounts of land revenue payments opened for shares under Acts XI of 1859 and VII (B.C.) of 1876.

Appendix VIII.

23. There were 1,451 separate accounts opened and 229 closed during the year, making at the close of the year a total of 56,017 accounts paying a revenue demand of Rs. 66,80,968, Rs. 57,25,167 being for shares in joint estates held in common tenancy (section 10, Act XI of 1859), Rs. 3,27,827 for shares representing specific portions of lands in estates (section 11, Act XI of 1859), and Rs. 6,27,974 for shares consisting of undivided interests in specific lands [section 70, Act VII (B.C.) of 1876].

24. Statistics of the registration of tenures for protection against annulment, in case of the sale of the parent estate for arrears of revenue under Act XI of 1859, are given in Appendix IX. Thirty tenures were registered during the year, bringing the total number protected at the end of the year up to 5,171. There was no case of registration of tenures in any of the districts of the Burdwan and Rajshahi Divisions during the year. In Bankura, one application for common registration under section 41 of the Act granted during the preceding year was cancelled by the Commissioner, as it transpired subsequently that the application had been entertained by the Collector out of time.

Registration of tenures under Act XI of 1859.

Appendix IX.

SECTION III.

Other Revenue Work.

25. The total number of estates under direct management, including estates of private individuals managed by Government, was 2,212 with a current demand of Rs. 39,48,416. The percentage of cost of management on the current demand was 6·93. The condition of the tenants was satisfactory. Good crops are reported to have been obtained in practically all the districts.

Estates under direct management.

26. There was no material change in the system of management. In the district of Midnapore, extra establishment was required to look after a large number of civil suits, arising for the most part out of the recent settlement proceedings in the Majnamutha and Jalamutha estates, which were pending in the different courts and to cope with the rush of mutation work in the Contai khas mahals. In Murshidabad, the post of a "halsana" was abolished owing to decrease of work in consequence of the grant of a *jagir* to the widow of the late Khan Bahadur Shams-ul Alam. Babu Mallinath Ray, Sub-Deputy Collector, who was put on special duty to enquire into the history of the canal surplus lands and *khas khamar* lands in the 24-Parganas and to report on the policy to be adopted for their settlement, has completed his inquiry. His report on the subject and the recommendations made by the Collector and the Commissioner are now under the consideration of the Board. The revision of the khas mahal establishment in all the districts of the Chittagong Division is kept pending until the general question of increasing the percentage of the grant for the management and improvement of Government estates, which is under consideration, is decided. In the district of Malda, the khas mahal estate, Sherghar Panchanandpur, has been temporarily settled with the proprietor, as a result of which the posts of the Manager on Rs. 60 and a peon on Rs. 6 a month have been abolished. The withdrawal of this estate from khas management has necessitated a rearrangement of all the estates in the district as well as of the managing agency. A scheme submitted by the Commissioner for the purpose is now under the consideration of the Board.

Estates under direct management.

Agency and mode of management.

27. Appendix X shows the expenditure under the heads of—

(1) Management.
(2) Miscellaneous improvements, including agricultural improvements and experiments.
(3) Sanitary improvements.

Grant for the management of Government estates and for agricultural, sanitary and miscellaneous improvements in them.

Appendix X.

Out of the total expenditure of Rs. 1,10,551 under the heads of Miscellaneous and Sanitary improvements, Rs. 9,254 was spent on tanks and wells, Rs. 57,429 on drainage, irrigation and embankments, Rs. 2,477 on roads and bridges, and the remainder on tree-planting and other miscellaneous objects. The largest unspent balance out of the total grant of Rs. 1,14,478 sanctioned by the Board for works of improvement was in the 24-Parganas, where there was a saving of Rs. 4,075. This was due to the fact that a number of bills could not be cashed owing to the unexpected closing of the treasury on the

31st March 1913 in memory of the late Sir Edward Baker. In the district of Midnapore, the grant for works of improvement was exceeded by Rs. 559. The excess expenditure will be met from the grant for 1913-14.

Colonisation in the Bakarganj Sundarbans.

28. The year under report is the sixth since the inception of the scheme of colonisation in the Bakarganj Sundarbans. There were 715 new colonists settled on 54,586 bighas of land as against 317 colonists on 8,398 bighas in the previous year. This increase is said to be due to the fact that the favourable conditions for settlers in the Sundarbans and the very good crops got last year in the cleared portion have attracted a large number of poor cultivators from other parts of the district. The Colonisation officer deserves credit for these results, which indicate confidence on the part of the settlers in the revenue administration of the tract.

The table below shows the new assessment of the cleared area in two estates during the year under report:—

Name of estate.	Number of setters.	Area assessed in acres.	Initial revenue.	Ultimate revenue.
			Rs. A.	Rs. A.
Latachapli ...	28	239·42	101 14	717 0
Bara Bogi ...	13	191·07	144 8	722 8

A large area of which the rent-free period has just expired has been surveyed during the year under report. This area will be taken up for assessment this year.

The following statement shows the expenditure on the scheme during the year:—

	Rs.
Establishment, including Forest establishment ...	16,353
Contingencies	1,323
Agricultural improvements	23,426
Sanitary improvements	1,289
Miscellaneous improvements	4,128
Total ...	46,519

A sum of Rs. 4,989 was advanced to the colonists as loans, and Rs. 3,478 was recovered from old settlers.

Reclamation is progressing well, and if no unforeseen circumstances, such as cyclones, etc., happen to prevent it, a large area is expected to come under cultivation shortly.

The general health of the people in the Sundarbans is reported to have been good, except for a small outbreak of cholera in Kalamegha and Nilganj. The mortality caused by the epidemic was, however, slight.

Forests in the Sundarbans.

A sum of Rs. 32,130 against Rs. 25,060 in the preceding year was realized by the sale of forest produce. The cost of the Forest establishment amounted to Rs. 2,976.

An area of about 3,000 acres was added to the colonisation area by the relinquishment of a portion of estate No. 6307, Chota Bogi, by its lessee.

Roads and Communications.

29. The expenditure on roads and communications in Government estates amounted to Rs. 1,64,124 against the Government 1½ per cent. grant of Rs. 57,986 for this purpose. The excess expenditure was met from District Board Funds. In the districts of 24-Parganas, Nadia, Jessore and Burdwan, however, the full amounts allotted to them were not spent during the year. Out of the total expenditure of Rs. 66,084 incurred in the Government estates in the Duars in Jalpaiguri, a sum of Rs. 58,839 was spent from the District Board Fund, of which Rs. 37,563 was spent on original works.

Education.

30. The total expenditure on education in Government Estates during the year was Rs. 59,796 against a Government grant of Rs. 45,380. The excess expenditure was met from local grants. The total number of Government estate schools and

pupils in the whole Presidency was respectively 2,262 and 74,485 against 2,293 and 74,304 in the previous year. The decrease in the number of schools occurred chiefly in Mymensingh, Bakarganj, Jalpaiguri, Darjeeling and Rangpur. It was very marked in Jalpaiguri, where the number fell from 151 to 82. This is attributed to the transfer of 69 schools from the 1 per cent. grant to the District Fund. For the same reason, the number of pupils in Jalpaiguri fell from 4,118 to 2,309. The increase in the number of pupils in the district of Midnapore was considerable, namely, 30,987 against 28,617 in the preceding year. There was also a satisfactory increase in the number of pupils attending the schools in Government estates in Bogra, Pabna, Darjeeling, Chittagong and Tippera.

Inspections of accounts.

31. The inspections of accounts of Government estates were generally adequate. The following were the only instances of irregularities brought to light:—

A sum of Rs. 348-9-3 was embezzled by the late Sadar Tahsildar of Hooghly, who subsequently committed suicide. Of this amount a sum of Rs. 96, viz., Rs. 5 from his pay and Rs. 91 from his security deposit, is being realized and for the balance a certificate has been filed against the sureties.

The Collector of Dacca, during his inspection of the Munshiganj Subdivisional Office, was struck with the large arrears in the estates under the Padma Circle. He directed the Subdivisional Officer to put a Sub-Deputy Collector in charge of the khas mahals and to have the accounts thoroughly examined. The result was the discovery of an embezzlement by the Tahsildar of that circle. The total amount embezzled has been reported to be Rs. 2,446, but this is subject to a further explanation called for from the Subdivisional Officer. The Tahsildar has been convicted under section 408, Indian Penal Code, and sentenced to one month's rigorous imprisonment. The Board is awaiting a detailed report on the matter from the Commissioner.

Improvements made in resumed Sundarbans estates.

32. The number of Sundarbans estates resumed by Government in the 24-Parganas, including the Saugor Island grants, was 17, of which 8 are fit for cultivation and have been kept under khas management. In view of the proposed settlement of these estates under new rules which are under the consideration of Government, nothing was done for their improvement during the year. In Khulna, a sum of Rs. 3,597 was spent on repairs to embankments and for the construction of section I of the embankments in the Chandkhali estate.

Of the 20 resumed estates in the Bakarganj portion of the Sundarbans, the whole of five and portions of two have been declared as "protected forest" under section 28 of Act VII of 1878. The rest are under colonisation. In the estates in which colonisation has commenced, Rs. 2,00,430 has been spent since 1907 up to the end of the year under report on agricultural, sanitary and miscellaneous improvements.

Waste lands.

33. As in the previous year, the existing rules for the grant of waste land leases to large capitalists in the 24-Parganas and Khulna portions of the Sundarbans continued to be under suspension, whilst the revised rules framed by the Board of Revenue were still under the consideration of Government, under whose orders the question of the effect of reclamation by means of embanking has been referred to Mr. Addams Williams, Superintending Engineer. The number of leases granted in the 24-Parganas Sundarbans under the former rules and the rules of 1853 was 188 and 93, respectively. The revenue payable in respect of them during the year under report was Rs. 73,001 and Rs. 79,459, which will rise eventually to Rs. 2,35,111 and Rs. 80,033, respectively. No new leases were granted during the year in Saugor Island, the consequence being that the number of such leases remained the same as in the previous year, namely, six, with an annual revenue demand of Rs. 956 rising eventually to Rs. 11,931.

In Jalpaiguri *parwanas* for possession were issued in respect of 29 waste land jotes. The regular leases under the Arable Waste Land Lease Rules will be issued in the course of the current settlement.

34. Appendix XI gives the particulars of the sale of proprietary rights in Government estates. 101 estates, covering an area of 883 acres in the Burdwan, Presidency and Dacca Divisions, were sold during the year for Rs. 20,940 subject to a total revenue of Rs. 3,237. In addition to these, three plots of railway "A" class land with a total area of a quarter of an acre were sold revenue-free in the district of Murshidabad for Rs. 105.

Sale of Government estates.

Appendix XI.

35. In Darjeeling an area of ·81 acre of land with a land revenue of Rs. 511 was alienated during the year for school purposes and for a septic installation, and in Murshidabad ·0072 acre of land was granted rent-free for the construction of a new Collegiate School at Berhampore.

Alienation and assignment of land revenue.

Appendix XII.

36. The following is a brief account of the irrigation and drainage projects in the province other than those in charge of the Public Works Department and those maintained from the Government Estates Improvement grant. As in the previous year, no important projects were undertaken in the Dacca, Rajshahi and Chittagong Divisions.

Irrigation and drainage.

Burdwan Division.—The districts in this Division in which drainage and and irrigation are of importance are Midnapore, Hooghly and Howrah. In Midnapore most of the work is in charge of the Public Works Department or of the Khas Mahal Department. No drainage or irrigation projects were undertaken during the year by any zamindar in the district. The Collector of Midnapore observes that, in view of the floods which have occurred since the close of the year under review, it is essential that the drainage of the Contai and Tamluk Subdivisions should be enquired into as a whole by an expert with a view to preventing so disastrous a flood in future. The drainage problem affecting the private zamindaris in the district has assumed a very difficult aspect in consequence of the decision of the Civil Courts in the Protapkhali khal case, which has made the applicability of the Embankment Act doubtful in cases where contractual liability, based on a *kabuliyat* of the Decennial Settlement, is urged against it. The matter is being inquired into under the orders of Government. No drainage or irrigation scheme was carried out during the year in the Hooghly and Howrah districts, but recoveries continued to be effected of advances made for the Howrah and Rajapur drainage works. The subjoined table shows the progress made in this respect during the year under report:—

Scheme.	Original demand.	Revised demand.	Balance as accepted by Accountant General, Bengal, after adjustment of accounts.	Amount realized up to the end of 1912-13	Amount remaining to be realized.	Amount to be refunded.	Amount actually refunded.	Balance remaining to be refunded.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Howrah	6,44,099	5,35,776	22,299	20,019	2,280	8,133	Nil	8,133
Rajapur	17,07,424	14,97,349	2,75,702	2,51,723	23,979	16,592	Nil	16,592

At the beginning of the year eight estates were under the management of Government under section 39 of the Drainage Act for the realization of drainage dues in connection with these works. Three of these were released during the year after realization of the charges in full.

Presidency Division.—The Magra Hât Drainage Scheme in the 24-Parganas for the drainage of the Magra Hât, Kaorapukur, Surjipur and Habka basins is divided into three sections, with an aggregate area of 290 square miles. Two locks have been constructed at Diamond Harbour and Uttarbhag for the passage of small boats from the Hooghly and Piali rivers, and Government has contributed five lakhs of rupees for the scheme, besides remitting the percentage charges for establishment and the capitalized cost of maintenance. The work has been finished in two of the sections (Dhosa and Surjipur), and in the Magra Hât section it is nearing completion. In the Nawi-Sunti Drainage Scheme, which has been taken up under the Sanitary Drainage Act, a contour survey of the area has been sanctioned by Government. In Nadia the scheme for the drainage of the Choruikol Bil has been kept in abeyance.

The channel cut by the people interested has proved effective, and there is a proposal to deepen it during the next dry season. In Murshidabad the work in connection with the drainage of the Berhampore Municipality is in progress. In Jessore a scheme for the construction of a sluice gate at Kapalia on the River Atharobanki has been sanctioned, but work has not yet commenced.

Embankments.

37. Works of importance in connection with embankments were carried out only in the Burdwan, Presidency and Chittagong Divisions.

Burdwan Division.—There were no high floods in the Damodar and the Ajai rivers in Burdwan, and no serious damage was done either to the embankments on these rivers or to the crops. Since the close of the year under report, however, disastrous floods have occurred in this Division, but their effects do not fall to be dealt with in the present report. The extension of the retired embankment at Tarwana in the 13th mile of the Damodar left embankment in Burdwan as well as the construction of a ring-bund at Dadpur in the 35th mile were completed and a new retired line in the 42nd mile was in progress during the year. A proposal has been sanctioned for constructing a ring-bund at Dhapdhara in the 44th mile of the Damodar embankment, and the work is expected to be commenced in the next season. As a consequence of the high floods in the Ajai river in June 1911, some damage was done to the Schedule D embankments on its right bank, and a proposal made by the Public Works Department for raising the low portions of the embankments is now under the consideration of the Collector.

The numerous private embankments in Birbhum are in a deplorable condition owing to the neglect of the landlords. Many of them had been seriously damaged by the floods of 1911, and the unprecedented floods of the current year have rendered their condition still worse, the result being that many fertile tracts of land have been changed into sandy wastes. The people on all sides clamour for efficient embankments, but the zamindars, who are responsible for their maintenance, are quite indifferent. Under the orders of Government the Public Works Department is now inquiring into this matter. A map shewing the zamindari embankments which might be made the subject-matter of investigation has been prepared by the Collector, and, under the orders of Government in the Public Works Department, the District Engineer has been deputed to mark the high and ordinary flood levels of the rivers and khals, as a preliminary step towards the survey of these embankments in January next.

In Hooghly the remodelling of the Madaria Khal zamindari embankment has been completed. The appeal preferred by the Maharaja of Burdwan denying his liability to contribute to the cost of remodelling the Champa Khal embankment in Howrah has been rejected, and steps are being taken for the realization of the cost.

In Midnapore, besides the large mileage of Government embankments, 20 embankments are at present maintained by Government at the cost of the zamindars. Of these, 19 are maintained under the "Contract" system on an annual payment of Rs. 50,757, and one under the "Law" system on a demand of Rs. 2,284 payable in five instalments. Out of 50 prosecutions under the Embankment Act for raising bunds, etc., within the prohibited area, 49 were disposed of during the year, with the result that 50 persons were convicted and 23 acquitted.

Presidency Division.—In the district of the 24-Parganas, where the most important embankments of the Division lie, there are two small *takavi* embankments, of a total length of 9 miles, maintained by Government at the cost of the zamindars interested, besides 206 miles of Schedule D embankments. These were all in good order. In Murshidabad the embankments maintained by the zamindars were not properly looked after. There were some breaches in the Rajyadharpur embankment and, as the zamindars failed to repair them, action was taken under section 25 of the Embankment Act, the necessary repairs being undertaken by the Public Works Department. The question of declaring the embankments in Parganas Fatehsing and Rukunpur public embankments and of resuming the *pulbandi* allowance granted to the proprietors has been dropped under the orders of Government.

Chittagong Division.—A sum of Rs. 12,203 was spent by Government on the repair of embankments in the district of Chittagong, the greater portion being for the embankment protecting the island of Kutubdia. The Gumti embankments in the district of Tippera, maintained by the zamindars, are a cause of great anxiety almost every year during flood time. A scheme is now before Government which is designed to remove all danger.

Land registration.

Appendix XIII.

38. The applications under the Bengal Land Registration Act, VII of 1876, for registration of succession to proprietary interests in land by purchase, inheritance, gift or otherwise, numbered 46,179, of which 33,109 were granted before the close of the year. The number of old interests removed and new interests recorded were 34,873 and 42,965, respectively. At the close of the year the total number of recorded interests in the Presidency was 929,361 as against 930,640 at the beginning. Except in the Dacca Division, the number of cases remaining undisposed of at the end of the year was greater than that at the close of the preceding year. The increase is again most marked in the district of Hooghly, which also showed by far the largest number of cases pending more than six months. The Commissioner reports that most of these cases have been disposed of since the close of the year.

The expenditure on account of Land Registration work amounted to Rs. 16,582 as against Rs. 31,561 in the preceding year. The marked decrease is due to the exclusion of the figures for permanent establishment. The fees and fines realized amounted to Rs. 18,810 as against Rs. 17,338 in 1911-12. No case of fraudulent registration was brought to light in any district of the Presidency during the year under review. In most of the districts the registers are reported to be generally in good condition. The number of applications for revision presented to the Board under section 85 was 7, of which 5 were rejected and 1 granted, while 1 is pending.

Partitions.

Appendix XIV.

39. Appendix XIV shows the number of Partition cases instituted and completed during the year.

The year opened with 171 cases, and 107 were instituted during the year, making a total of 278 for disposal. The number of cases actually disposed of was 44 as against 56 in the preceding year. Of these 18 cases were struck off for various reasons. Two hundred and thirty-four cases were left undisposed of at the close of the year, of which 60 have been pending for over two years.

40. As in the previous year, there was no whole-time Partition officer except in Khulna, but Government has been recently moved to sanction a whole-time officer for the district of Rajshahi for a period of two years for carrying out the partition of Estate Jahangirpur, which was brought under partition during the year under review. That estate comprises 812 villages and covers an area of 100 square miles in the districts of Rajshahi, Dinajpur, Bogra and Malda.

In the districts of Dacca, Mymensingh and Jessore, where there are Partition Funds, the incidence of cost per acre was Re. 1-11-0½, As. 9-8 and Re. 1-4, against Re. 1-0-0½, Re. 1-1-3 and As. 12-4 respectively in the preceding year. The increase in cost in Dacca is reported to be due to the fact that one case was disposed of which had gone on for 32 years, and its cost alone amounted to Rs. 7,247 out of the total cost of Rs. 8,922. The increase in Jessore has not been explained.

41. It will be some time before any definite proposals for the amendment of the Estates Partition Act can be submitted to Government. A report in connection with the projected amendment was called for in January last from the Commissioner of the Dacca Division and the Director of Land Records as to how the system of carrying out partitions through the agency of the Settlement Department is working in the Dacca Division. An elaborate report on the subject, dealing particularly with the points in which difficulties are experienced in working under the provisions of the existing law, has been recently received from the above-mentioned officers, and is now under the consideration of the Board.

Land acquisition.

Appendix XV.

42. Proceedings for the acquisition, on behalf of Government and local bodies and Companies, of land covering an area of 3,302 acres were confirmed during the year at a total cost of Rs. 24,31,015, as compared with an area of 4,021 acres at a cost of Rs. 1,34,62,898 during the preceding year. Detailed particulars of each district are given in Appendix XV. The abatements of annual revenue allowed on account of lands acquired for Government purposes, including State Railways and Subsidised Companies' Railways provided with land free of cost, amounted to Rs. 1,138, and a sum of Rs. 21,162 was paid to Government on account of the capitalized value of the Government revenue, amounting to Rs. 847, abated for lands taken up for local bodies and Companies, including Railway Companies entrusted with the working of State lines.

Of the total expenditure incurred, Rs. 14,13,004 was for acquisition of lands for Government, including State Railways, and Rs. 10,18,011 for all other purposes, viz., for the needs of District Boards, Municipalities and Railway and other Companies.

The average cost per acre of the lands for which acquisition proceedings were confirmed during the year was Rs. 736 against Rs. 3,348 in the preceding year. This marked decrease in the average cost is chiefly due to the fact that, in contrast to the previous year, when lands costing over a crore were acquired for the Calcutta Port Commissioners, the proceedings for the acquisition of very few costly projects in the town of Calcutta and its suburbs in the 24-Parganas were confirmed during the year.

Loans under the Land Improvement Loans Act.

Appendix XVI.

43. The amount of loans under the Land Improvement Loans Act outstanding at the commencement of the year was Rs. 2,89,678 and loans amounting to Rs. 27,213 were advanced during the year under report. Of the total outstanding principal, Rs. 3,16,891, Rs. 1,59,987 was repayable during the year. Out of this Rs. 1,08,347 was realized during the year, including a sum of Rs. 1,079 collected in advance, while Rs. 2,367 was remitted. The balance outstanding at the close of the year was Rs. 2,06,177, of which Rs. 49,725 was overdue. Of Rs. 26,147 due on account of interest, current and arrear, the collections during the year amounted to Rs. 18,510, of which Rs. 64 was paid in advance. Rupees 554 was remitted. A balance of Rs. 7,147, which includes a sum of Rs. 32 suspended, was left unrealized at the close of the year.

Financial results.

Appendix XVII.

44. The financial results of the working of the Act are shown in Appendix XVII. The interest payable to the Imperial Government for the year in respect of all advances made under this Act was Rs. 10,886. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 18,510. The balance of interest in the hands of the Provincial Government was therefore Rs. 7,624. The amount of principal remitted during the year was Rs. 2,367: this has to be borne by the Provincial Government as well as the special expenses connected with the working of the Act, which amounted to Rs. 391. Thus a net profit of Rs. 4,866 accrued to the Provincial Government.

Loans under the Agriculturists' Loans Act.

Appendix XVIII.

45. The amount advanced during the year under the Agriculturists' Loans Act was Rs. 64,699. The outstanding balance of the previous year was Rs. 3,78,454, making the aggregate amount outstanding Rs. 4,43,153, of which Rs. 3,38,568 was recoverable within the year. The total collections amounted to Rs. 2,32,283, of which Rs. 552 were advance, Rs. 39 excess payments, and Rs. 518 was remitted. The balance recoverable in future years is Rs. 2,10,391 (including Rs. 244 under suspension) of which Rs. 1,06,487 was overdue at the end of the year. The amounts overdue in Nadia and Tippera are heavy. Of Rs. 39,095 due on account of interest Rs. 27,840 was collected (including Rs. 32 advance collections, and Rs. 25 excess payments) and Rs. 73 was remitted, leaving a balance of Rs. 11,214, which includes Rs. 48 under "suspension."

46. The financial results of the working of the Act are shown in Appendix XIX. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 15,418. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 27,840. The amount of principal remitted during the year was Rs. 518 and the expenses connected with the working of the Act during the year amounted to Rs. 594. Thus it will be seen that the net profit to the Provincial Government during the year was Rs. 11,310.

Financial results.

Appendix XIX.

47. The number of rent-suits tried by the Revenue Courts in the district of Darjeeling, which is the only district in which Act X of 1859 is in force, fell to 107 from 170 in the preceding year, when a large number of cases was instituted by the proprietors of the Reeling Estate. Including 26 cases pending from the preceding year, there were 133 cases for disposal, of which 99 cases were disposed of, leaving 34 pending, all of which were of recent dates. There was only one occasion on which settlement records were consulted before decree was passed. Damages were allowed to the plaintiff in one case only, as in the previous year. There was no application for aid in distraint or in the sale of distrained property. There were two notices of enhancement against one in the preceding year. No notice of relinquishment was issued during the year.

Rent-suits (under Act X of 1859) in Revenue Courts.

Appendices XX to XXIII.

SECTION IV—RENT.

Working of the Bengal Tenancy Act.

48. The Bengal Tenancy Act is in force throughout the Presidency, except in the district of Darjeeling, the Chittagong Hill Tracts and the town of Calcutta, and continued to work smoothly on the whole. Although its main provisions are now fairly well known both to landlords and tenants, the importance of various sections of the Act has not yet been realized by the public, as is indicated by the absence of objections to the price lists of staple food-crops, and of applications for commutation of rent or for registration of improvements in certain districts.

Bengal Tenancy Act.

49. The relations between landlords and tenants in Birbhum continued to be strained, and the disputes of the *chakdars* and *mandals* in Midnapore, who have been shown as tenure-holders in the record-of-rights but who claim the status of occupancy-raiyats, which would have the effect of relegating the tenants under them to the position of under-raiyats or even of mere labourers, are still pending on appeal in the Civil Courts. Some trouble arose between the *jotdars* and *bargadars* in Pabna, and also between some landlords and tenants in the districts of Dinajpur, Malda and Tippera, but it has now been got over. There was also some misunderstanding between landlords and tenants in the 24-Parganas, Nadia, Murshidabad and Khulna districts. The Collector of Rajshahi reports that the tenants are becoming more and more conscious of their rights under the Bengal Tenancy Act, and there is a growing tendency on their part to resist the illegal demands of the landlords, particularly in view of the commencement of settlement operations in the district. The Commissioner of the Dacca Division remarks that the record-of-rights is throwing light among those who sit in darkness and is becoming more and more the "peoples' charter." The Board concurs in the view that the Tenancy Act has greatly strengthened the position of the raiyats in Bengal.

Relations between landlords and tenants.

50. The provisions of the Bengal Tenancy Act as regards the issue of rent receipts are not properly observed by all landlords. Out of 81 cases of failure to grant them under section 58 of the Act, only 23 ended in conviction of the defaulting landlords. Of the others 34 were struck off, one was amicably settled and 23 remained pending at the close of the year. The number

Issue of rent receipts.

of cases in respect of which proceedings are taken by the Collectors is not, however, a true index of the extent to which the law in this respect is violated, for there are indications that many such cases of infringement of the law do not come to their notice at all.

Working of the Bengal Tenancy Act under revenue officers.

Appendix XXIV.

51. There was an increase in the number of voluntary transfers in the Burdwan, Presidency and Dacca Divisions and a decrease in the Rajshahi and Chittagong Divisions. The increase is attributed to the high price of food grains, improvement in registration and increased familarity with the record-of-rights.

Receipts and payments of landlords' fees.

Appendix XXV.

52. A general improvement in the payment of landlords' fees took place in most of the districts and is ascribed to the revised procedure for service of notices by registered post and the transmission of fees by postal money-orders.

Remittance of rent by special money-orders.

Appendix XXVI.

53. The system of payment of rent by money-order remained in force throughout the Presidency, except in the district of Darjeeling and in the Chittagong Hill Tracts. In the previous year there had been a considerable decrease in the total number of rent money-orders, but an increase on the amount remitted. This year there has been a further, though smaller, decrease in the number of rent money-orders issued, which fell from 62,053 to 60,525, and also a decrease in the aggregate amount remitted, which fell from Rs. 9,98,833 to Rs. 9,92,776. The decrease occurred chiefly in the districts of Burdwan and Midnapore, where the number declined from 2,487 and 7,846 to 301 and 4,237, respectively. The Commissioner has not offered any explanation of this marked decrease, but it may point to more amicable relations between landlord and tenant. There was a further increase in the year under report in the percentage of cases in which money-orders were refused by landlords, which rose to 25·1 from 21·8 in 1911-12. The percentage was highest (49·2) in Mymensingh and lowest (1·9) in Jalpaiguri. In the Chittagong Division the increase in the percentage of refusals is attributed to enmity between certain landlords and their tenants, to disagreement between the landlords' and tenants' accounts, and also to the fact that landlords refuse money-orders on the ground that if they accept them they will be bound to register the names of the new tenants. There was a large increase in the percentage of refusals in Faridpur, Noakhali, Rangpur, Pabna and Malda. The Collector of Faridpur states that the landlords of his district have instituted several thousands of cases under section 105 of the Bengal Tenancy Act with a view to obtain enhancement of rent and that the increase in the number of money-orders refused seems to have been the result of an apprehension on the part of the landlords that the acceptance of rent on the existing basis will prejudice their claims to enhancement. The explanation is probably correct, but the apprehension appears to be groundless, as there is nothing on the rent money-order form which would prejudice a landlord in a case under section 105 of the Bengal Tenancy Act. The Commissioner of the Rajshahi Division has offered no explanation of the large increase in the number of money-orders refused in the district of Rangpur, and especially in the district of Pabna. This increase may be partly due to the increase of the number of money-orders issued in both districts. The Commissioner remarks that in both these districts the system is reported to be resorted to in cases in which relations between landlords and tenants are strained.

Zamindari *abwabs*.

54. As in the past, the practice of levying *abwabs* or illegal cesses over and above the rent is still prevalent more or less throughout the Presidency. In Dacca, Faridpur and Malda and probably in most other districts, the illegal exaction from the tenants of Road and Public Works cesses at more than the legal rate of half an anna in the rupee still continues.

The Collector of Mymensingh gives the same list as he did last year of illegal cesses levied in that district. The Collector of Malda reports that the following *abwabs* are generally realised by the landlords in his district:—

(*i*) An extra road cess called "*bahir pathkar*" at the rate of half-anna per rupee of rent paid.

(*ii*) Half-anna as price of each "*dakhila*" or rent receipt granted.

(*iii*) One anna from each tenant as "*basa kharcha*" or cost of living.

(*iv*) One to two annas from each tenant as "*peadgan*" or cost of peons.

(*v*) One anna from each tenant as "*mandali*" or "*morla*" fee for the mandal or headman.

(*vi*) "*Tahri*" or fee of one anna per rupee of rent realized by the *gomasta*.

It is reported that the tenants submit to these illegal exactions without much demur, partly because they consider them to be customary and partly because they want to avoid friction with their landlords and harassment in other ways. A tendency amongst the tenants is, however, growing up to some extent to resist these demands. Complaints were made against zamindars by their tenants about illegal realizations in two cases in Rajshahi, in two cases in Murshidabad and in one case in Nadia. Of the two cases in Rajshahi, the tahsildar is one of them who was found to be in fault and was dismissed by the zamindar, and in the other case the charges were not proved on local enquiry but the manager of the estate was warned. The Commissioner of the Dacca Division is of opinion that the preparation of the record-of-rights is having a good effect in restricting the levy of *abwabs*, and that in particular it has a tendency to reduce the road cess to the legal sum.

SECTION V.

Road and Public Works Cesses.

Road and Public Works cesses.

55. The following subsidiary paragraphs give an account of the working of the Bengal Cess Act, IX of 1880 :—

Rate of cesses, land revenue demand and gross rental.

(*i*) Excluding the Chittagong Hill Tracts, where the Act is not in force, the Road and Public Works cesses continued to be levied at the maximum rate of one anna in the rupee on the annual value of lands and annual net profits of mines and other immoveable properties. The current demand of land revenue for the cess-paying districts is Rs. 2,70,88,077, and the annual valuation or gross rental on which the cesses are based amounts to Rs. 11,25,27,244. The percentage of the revenue to the gross rental is 24·07.

Demands, collections, balances and remissions.

Appendix XXVII.

(*ii*) The current account of both the cesses has been shown in detail in Appendix XXVII. The sub-joined table exhibits in abstract form the accounts for the last two years :—

Year.	Demand.			Collections.	Percentage of total collections on current demand.	Balance.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arrear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
Year ending 30th June 1912.	62,17,666	9,78,756	71,96,422	63,08,656	101·4	9,03,661	12·5	89,802
Year ending 30th June 1913.	61,35,658	8,32,484	69,68,142	62,25,621	101·4	7,53,655	10·8	1,29,540

Owing to a decrease in the current demand in some districts, which more than counterbalanced the increases in others, the resultant demand as a whole is less than that of the previous year by Rs. 82,008. The most important decreases were in Burdwan (Rs. 83,870), Bakarganj (Rs. 19,665) and Tippera

(Rs. 12,440). In Burdwan the decrease was due chiefly to the revision of the assessment of coal mines under section 72 of the Act and partly to the transfer of estates to other districts; in Bakarganj to the reduction of the demand caused by the revocation of the last revaluation; and in Tippera to the change of *kist* dates for payment of cesses in respect of Chakla Roshnabad estates. Although following the decrease in the current demand there was decrease of Rs. 83,035 in collections, it is satisfactory to note that in comparison with the last year the provincial percentage (101·4) was as high as before, and that the percentage of balance outstanding at the close of the year fell from 12·5 to 10·8.

The largest remissions were granted in Burdwan (Rs. 99,232) and Tippera (Rs. 16,353). In the former district this was due chiefly to the coal business continuing to be dull till the middle of the year, and in the latter to the change of instalments and the inclusion of 2,514 rent-free lands with the parent estates during the current revaluation of the district.

(*iii*) The table in the margin shows the districts in which the collections attained the prescribed standard of 100 per cent. or more on the current demand. Of the remaining districts, the percentage was nearly up to the standard in Jalpaiguri (99·9), Dinajpur (99·4) and Mymensingh (99·2). But in Faridpur (97·03), Noakhali (97·02) and the 24-Parganas (95·9) the percentages fell below 98. The Collector of Faridpur has been unable to assign any reason for the falling off. From Noakhali and the 24-Parganas it is reported that cess-payers are apt to take advantage of the 15 days' grace allowed by law and make payment immediately after the close of the year, although within the grace period. It is stated that if these payments, viz., Rs. 32,630 in Noakhali and Rs. 15,202 in the 24-Parganas, were taken into consideration, the percentage of both these districts would rise to 112·2 and 100·2, respectively. This contention is, however, illusive, for, if the practice attributed to the cess-payers is habitual, somewhat similar payments were probably paid at the beginning of the year on account of the preceding year which would go to swell the collections of the year under report.

Percentage of collections in districts.

1.	Bakarganj	107·0	11.	Malda	101·2
2.	Tippera	106·9	12.	Burdwan	101·05
3.	Chittagong	105·9	13.	Birbhhm	100·6
4.	Hooghly	105·7	14.	Bogra	100·6
5.	Jessore	105·2	15.	Darjeeling	100·6
6.	Dacca	102·9	16.	Nadia	100·5
7.	Bankura	101·6	17.	Midnapore	100·1
8.	Murshidabad	101·5	18.	Rajshahi	100·1
9.	Rangpur	101·5	19.	Khulna	100·03
10.	Pabna	101.3			

(*iv*) As in the previous year, no arrears of cess demand became barred by limitation in any district.

Sums barred by limitation.

(*v*) The number of certificates filed for the recovery of cess arrears was 54,191, as against 54,477 in the previous year. There was a marked increase in the number of institutions in Chittagong (2,702) and in Tippera (700), due partly to the realization of accumulated petty arrears to avoid their being barred by limitation and also partly to the recovery of the arrears relating to rent-free lands included in the parent estates during the present revaluation in the latter district. There was also a large increase in Nadia (1,675) which is attributed to vigorous steps taken during the year for the realization of arrears. On the other hand, a noticeable decrease in the number of institutions occurred in Midnapore (2,564), which is stated to be due to the amalgamation of Cess Tauzi accounts in respect of revenue-paying estates with the Land Revenue Tauzi accounts. Including 14,938 certificates pending from the previous year, the total number of certificates for disposal in the Presidency amounted to 69,129. Of these, 53,340 were disposed of, leaving 15,789 pending as against 14,938 at the close of the preceding year. The number of cases pending for over six months was 1,100.

Working of the certificate procedure.

Appendix XXVIII.

(*vi*) The objections against certificates filed and disposed of numbered 2,769 and 2,669, as against 2,945 and 2,882, respectively, in the previous year. In 217 cases, as against 242 of the previous year, the certificates were cancelled on various grounds, such as death and desertion of judgment-debtors, lands found to be within a

Objections against certificates.

municipality or to have diluviated, disappearance of actual holders, double assessments, non-registration of names, etc.

(*vii*) Arrears were recovered in 12,673 cases on the mere issue of preliminary notices under the Certificate Act. Notices for the attachment of defaulters' moveable and immoveable properties induced payment in 24,390 cases. In 863 cases only was recourse had to actual sales before the demands were satisfied.

Stages of procedure at which demands were satisfied.

(*viii*) Appendix XXIX gives detailed information regarding valuations and revaluations. During the year valuations or revaluations, partial or complete, were confined to 16 out of the 25 districts to which the Act is applicable. As the work of revaluation in the districts of Midnapore, Faridpur and Jalpaiguri is being carried on by the Settlement Department simultaneously with the general settlement in these proceedings, the progress of the operations connected therewith have not been shown in the Appendix. During the year a special inquiry was held into the recent revaluation of the Bakarganj district. The work was found to have been done so badly that the whole revaluation proceedings were set aside by the Board, and Babu Radha Krishna Goswami, Deputy Collector, was appointed to check and revise the proceedings. He joined the district on the 11th April 1913 and the work is now going on. The outstanding features of the year's work were the completion of the general revaluation in Bogra and the initiation of fresh proceedings in Khulna and Dinajpur. Revaluations on a large scale are still in progress in the 24-Parganas, Nadia, Jessore and Tippera.

Valuation and revaluation.

Appendix XXIX.

(*ix*) Appendices XXX and XXXI give particulars of the number and amount of the separate accounts opened and remaining open in respect of revenue-paying and revenue-free estates under sections 44 and 46 of the Bengal Cess Act, IX of 1880. During the year 1,491 separate accounts were opened with a cess demand of Rs. 86,404 in respect of revenue-paying estates, the total number of such accounts at the close of the year being 51,763 with a cess demand of Rs. 11,27,065. In regard to revenue-free estates, 18 accounts aggregating Rs. 1,455 were opened, and the total accounts remaining open at the close of year stood at 624 with a demand of Rs. 20,915.

Separate accounts for revenue-paying and revenue-free estates.

Appendices XXX and XXXI.

(*x*) The number of revenue-paying and revenue-free estates assessed to cesses rose during the year to 146,685 and 30,999, respectively. This was due to the usual causes, such as the opening of separate accounts, new assessments and partitions. The decrease in the number of rent-free lands is due to their amalgamation with the estates or tenures to which they respectively belong. The increase in the number of recorded share-holders of estates was caused mainly by the mutation of names of new proprietors owing to succession or transfer. Similarly there was an increase in the number of tenures assessed to cesses and a corresponding increase in their share-holders owing to the creation of new tenures and the addition of new interests by mutations.

Estates, tenures and share-holders.

Appendix XXXII.

(*xi*) Appendix XXXIII compares the gross rental of each district with that at the first valuation under the Bengal Cess Act, X of 1871. It will be noticed that the gross rental shows an increase of Rs. 3,70,64,813 over the initial valuation. As compared with the rental of the previous year, however, there has been a decrease of Rs. 9,43,150. Burdwan is mainly responsible for this, which is reported to be chiefly due to the decrease in the assessment of coal mines owing to the decline in the coal trade, and partly also to the transfer ef estates to other districts. The revocation of the last revaluation in Bakarganj also contributed to the decrease.

Gross rental.

Appendix XXXIII.

(*xii*) During the year the proposal to augment the resources of District Boards by surrendering to them the Local Government's share in the proceeds of the Public Works cess was sanctioned, and the necessary amendments of the Cess Act for giving effect to this are now under the consideration of Government.

Legislation.

SECTION VI.

MISCELLANEOUS.

Processes.

56. Appendix XXXIV shows the number and cost of service of all processes, revenue and criminal, served through the Revenue Nazarat.

Appendix XXXIV.

The total number of processes served rose to 935,724 from 906,767 in the preceding year. The process fees realized aggregated Rs. 3,62,048 against Rs. 3,53,365 in the preceding year, and the total cost of service, including the pay of the supervising establishment debitable to land revenue, was Rs. 2,19,462 against Rs. 2,15,111 in the previous year. In only two districts—Khulna and Jalpaiguri—did the cost of the process-serving establishment exceed the receipts from fees. In Bakarganj and Rajshahi the cost of service was nearly as great as the amount of fees realized. The system of fines for bad and rewards for good work continued to work well and led to an increase in the percentage of personal service and in promptness in the return of processes.

57. The system of serving processes by daffadars through the presidents of village *panchayats* was in force in the districts of Dacca, Tippera and Hooghly throughout the year, and was extended during the year to the Sadar and Kalna subdivisions of the Burdwan district and to the Sadar subdivision of the Birbhum district. Its further extension to selected subdivisions in the Presidency Division has also been sanctioned. It is reported that the result of the experiment is encouraging.

Records.

58. The total amount sanctioned by the Eastern and the Western Bengal Governments during 1912-1913 for the maintenance of record-rooms in the Presidency of Bengal was Rs. 24,578. This amount was carefully allotted according to the requirements of district record-rooms, Commissioners' record-rooms and the Board's record-rooms.

The records in the offices of Commissioners, Collectors and Subdivisional Officers are reported to be on the whole in a satisfactory condition, and the classification and periodical destruction of B and C papers were duly carried out. Regular inspections by the gazetted officers in charge of record-rooms and by District Officers and Commissioners were made of most of the district and subdivisional record-rooms. Mr. R. J. Watson, Controller of Office Systems, Bengal, inspected the record-rooms of the Calcutta, Jessore and Khulna Collectorates. The inspection of the record-rooms of the Rajshahi, Dacca and Chittagong Divisions by Babu Barada Kanta Ganguli, Inspector of Offices and Record-rooms of Eastern Bengal and Assam, brought to light several defects. It was found in the course of these inspections that the record-rooms were congested with papers unnecessarily marked for permanent preservation, as by proper classification they could have been destroyed. After considering the defects pointed out in the reports of the Inspector, several rules on the subject have been inserted in the Bengal Records Manual, 1911, which has been extended to the Eastern Bengal districts. In consequence of the introduction of this Manual in the Eastern Bengal districts a thorough overhauling of the record-rooms of some of those districts, involving somewhat heavy expenditure, became necessary. Funds are being gradually allotted for the purpose.

The quinquennial revision of the English correspondence and vernacular records is in progress and is expected to be completed in 1915. The amalgamation of revenue and criminal records and of the Copying Departments is being gradually effected in several districts.

The directions contained in Government of India order No. 213, dated the 28th January 1905, regarding the storage, preservation and destruction of old records in bound volumes and monthly bundles are now under consideration of the Government of Bengal.

Libraries.

59. All the district libraries, except that of Darjeeling, and all the subdivisional libraries, are reported to be generally in a satisfactory condition. The revision of the catalogues of the district and subdivisional libraries under the new rules is in

progress. Want of accommodation for the proper arrangement of the library books is reported by some subdivisional officers.

Controller of Office Systems, Bengal.

60. The retention of the temporary appointment of Controller of Office Systems was sanctioned by the Secretary of State in 1908 for a period of 5 years, *i.e.*, up to 31st December 1912. The appointment was further extended from time to time, and recently it has been extended until orders of the Secretary of State are passed on the proposal made by the High Court for the creation of the post of Inspector of Judicial Offices. During the year under report Mr. Watson, Controller of Office Systems, was employed chiefly under the High Court; he worked directly under Government for a very small portion of the year. While working directly under Government, Mr. Watson inspected the record-rooms of the Calcutta, Jessore and Khulna Collectorates. Under the High Court he worked at the Calcutta Small Cause Court in connection with its reorganization. Mr. Watson at the same time kept in close touch with the work of the Probationers' Training School at Alipore until it was abolished under the orders of Government.

Treasure Trove Act, VI of 1878.

61. During the year under review there were seven cases under the Treasure Trove Act. None of these were of numismatic interest. It may be mentioned, however, that in the district of Dacca some images and other articles of antiquarian interest were found in a tank at Rampal in Munshiganj subdivision and have been deposited in the Dacca Museum. No formal action under the Treasure Trove Act was taken in connection with these articles.

Personnel— Of the Board.

62. The office of Member of the Board of Revenue, Bengal, was held by the Hon'ble Mr. D. J. Macpherson, C.I.E., from the 1st July to the 4th November 1912 and from the 9th April to the 4th May 1913. Mr. E. W. Collin acted as Member from the 5th November 1912 to the 8th April 1913, and Mr. C. J. Stevenson-Moore, C.V.O., from the 5th May 1913 to the end of the year.

Of Commissioners.

63. The following Commissioners held office during the year:—

Burdwan Division.—Mr. A. G. Hallifax was in charge throughout the year.

Presidency Division.—The Hon'ble Mr. J. G. Cumming, C.I.E., was in charge from the 1st July 1912 to the forenoon of the 3rd May 1913, when the Hon'ble Mr. J. Lang assumed acting charge and held it till the end of the year.

Dacca Division.—Mr. N. Bonham-Carter was in acting charge from 1st July to 20th November 1912, and the Hon'ble Mr. N. D. Beatson-Bell, C.I.E., from 21st November 1912 to the end of the year.

Chittagong Division.—Mr. E. Geake was in charge from the 1st July 1912 to the 15th April 1913, and Mr. C. A. Radice acted from the 16th April to the close of the year.

Rajshahi Division.—Mr. F. J. Monahan was in charge from the 1st July till the 12th November 1912, and Mr. F. C. French acted for the rest of the year.

Tours and inspections with special reference to district and subdivisional offices, treasuries and sub-treasuries.

Of the Member of the Board.

64. Mr. E. W. Collin, as Member of this Board, visited the Nayabasan Wards Estate in Midnapore in December 1912, and inquired into certain matters in connection with the management of the estate. He also visited the Kasimbazar Estate (Murshidabad portion) on the 27th January 1913. In the beginning of March 1913 he went to Jaydebpur to visit the Bhawal Estate, and also paid a visit on the 29th March to the Rishra Government Estate, in the district of Hooghly, in connection with the proposals made by Messrs. Birkmyre Brothers of Calcutta for taking settlement of the estate.

Of Commissioners.

65. The Commissioners of Divisions made their usual tours and inspected a fair proportion of their districts, subdivisional offices, treasuries and local institutions. Mr. Hallifax, Commissioner of the Burdwan Division, was on tour for 114 days, and visited all the district offices except Birbhum and inspected various public

institutions and the district treasuries at Burdwan, Bankura and Midnapore. In the Presidency Division, the Hon'ble Mr. J. G. Cumming, C.I.E., spent 94 days on tour during the first ten months of the year and inspected most of the district offices and treasuries. During the following two months his successor, the Hon'ble Mr. J. Lang, paid a visit to various local institutions and went to Kalia in Jessore, the scene of the Namasudra-Muhammadan riots. Mr. Bonham-Carter and the Hon'ble Mr. Beatson-Bell, as Commissioners of the Dacca Division, spent 17 and 71 days, respectively, on tour, the latter visiting all the districts in the Division. In the Chittagong Division, Mr. E. Geake was out on tour for 78 days and Mr. Radice for 19. Mr. Geake visited all the districts and subdivisions and made prolonged tours in the interior of the Chittagong Hill Tracts. In the Rajshahi Division, Mr. Monahan was on tour for 47 days and Mr. French for 90 days, both visiting the head-quarters of several districts and subdivisions. In November 1912, Mr. French went to Balurghat to enquire into a *Bakr-id* dispute between the Hindus and Muhammadans, in which he succeeded in arriving at an amicable settlement.

Since April 1913 the duty of inspecting treasuries is being gradually transferred from the superior revenue authorities to the gazetted staff of the Accounts Department.

Of District and Subdivisional Officers.

66. The District Officers also made useful tours of inspection and attended to all important matters connected with the administration of their respective districts. Owing mainly to change of *personnel*, the number of days spent on tour by the Collectors of Nadia and Bakarganj was comparatively short. The subdivisional offices at Barrackpore, Lalbagh and Jhenida, and the sub-treasuries at Munshiganj, Manikganj and Narayanganj, were not inspected by the Collectors.

The tours and inspections of Subdivisional Officers were on the whole adequate and satisfactory.

I have the honour to be,

SIR,

Your most obedient servant,

A. MARR,

Secretary.

APPENDICES.

REVENUE DEPARTMENT.

LAND REVENUE.

CALCUTTA, THE 10TH JANUARY 1914.

RESOLUTION—No. 229.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year 1912-13.

THE Hon'ble Sir Duncan Macpherson, KT., C.I.E., held charge of the office of Member of the Board from the 1st July to the 4th November 1912, and from the 9th April to the 4th May 1913. Mr. E. W. Collin acted as Member from the 5th November 1912 to the 8th April 1913, and Mr. C. J. Stevenson-Moore, C.V.O., from the 5th May 1913 to the end of the year. In accordance with the Secretary of State's decision that, owing to the establishment of an Executive Council, the Board of Revenue in Bengal should consist of one Member only, the Bengal Board of Revenue Act, which was passed during the year, repealed the old laws of 1822 and 1850 relating to the Board, and legalised the new arrangement. A considerable portion of the Board's non-statutory functions has been transferred to Government.

2. *Land Revenue demands, collections, balances and remissions.*—The number of estates paying land revenue in this Presidency is 96,671, of which 91,458 are permanently settled and 3,001 temporarily settled, while 2,212 are managed direct by Government. The current demand of the year was Rs. 2,71,04,157, or Rs. 1,52,965 in excess of that of the previous year. The percentage of total collections on the total demand was 96·29, and on the current demand 100·03, the results being slightly better than in the previous year.

3. *Road and Public Works cesses.*—The current cess demand shows a decrease of Rs. 82,008, due chiefly to the revision of the assessment of coal mines in Burdwan, where the coal trade was dull during the first half of the year. The percentage of total collections on the current demand was satisfactory, being 101·4 as in the previous year. The general district average was good, 19 districts showing percentages of 100 or over.

During the year valuations or revaluations, partial or complete, were made in 16 out of the 25 districts to which the Act applies. A general revaluation was completed in Bogra, and fresh proceedings were initiated in Khulna and Dinajpur. The work is being carried on by the Settlement Department in Midnapore, Faridpur and Jalpaiguri. In consequence of complaints regarding the conduct of the revaluation in Bakarganj, a special enquiry was held, and the whole proceedings were set aside by the Board. A Deputy Collector has been appointed to check and revise the work.

In view of the decision to augment the resources of District Boards by surrendering to them the entire proceeds of the Public Works cess, legislation to amend the Cess Act will be necessary. The matter is now under the consideration of Government.

4. *Money-orders.*—The amount of land revenue and cesses remitted by money-order exceeded 17 lakhs, the average value of each remittance being Rs. 5-4. The system, which is a great convenience to small revenue-payers, is steadily extending. Further facilities will shortly be available, owing to

the introduction of a combined money-order form for land revenue and cesses, which it is proposed to issue as soon as the reorganization of postal circles between the provinces of Bengal and Bihar and Orissa has been effected.

The system of payment of rent by money-order is in force throughout the Presidency, except in Darjeeling and the Chittagong Hill Tracts. There was a small decrease this year in the total number of rent money-orders issued and in the sum remitted, which, however, amounted to nearly 10 lakhs. There was a considerable increase in the percentage of cases in which money-orders were refused by landlords. The increase was most marked in the Rajshahi Division, and in Pabna more than three-quarters of the money-orders issued were refused. Some explanation of this remarkable figure might well have been furnished, and the statistics should be carefully watched by district officers, as a large number of refusals is an almost certain indication of the existence of disputes between landlord and tenant. It is reported that in some cases landlords refuse money-orders on the ground that acceptance will involve the recognition of transfers and prejudice their claims to enhancement of rent. There appears to be no ground for these apprehensions, but Government is considering the question of revising the money-order form, with a view to removing any reasonable objections which may exist on the part of landlords to the present form.

5. *Coercive measures.*—The revenue sale law was, as usual, administered with leniency and moderation. Although nearly 10,000 estates defaulted and were liable to sale, only 920 were actually sold. The number of certificates filed, including those on cess accounts, was 123,868 as against 98,003 in the previous year. The increase was most marked in Faridpur, where it is ascribed to the issue of a large number of certificates by the settlement officer for the realization of survey and settlement costs. As a rule, the Settlement Department has been able to realize the greater part of these costs without resort to coercive measures, and the Director of Land Records, who is enquiring into the matter, will be asked to report why a different course was required in Faridpur. There was an unsatisfactory decrease in the number of certificate cases disposed of, and the number of long pending cases is very high in some districts. This matter should receive the special attention of Commissioners during their inspections. In the great majority of cases, payments were made on the issue of notices or on attachment of property, and it was necessary to resort to actual sale in only 2,347 cases, or 2·2 per cent. of the 106,447 cases disposed of during the year.

6. *Condition of the raiyats in Government estates and expenditure on improvements and education.*—The year was on the whole a prosperous one, and the condition of the tenants was satisfactory. The total number of estates under direct management was 2,212, with a current demand of Rs. 39,48,416. The expenditure on miscellaneous and sanitary improvements amounted to Rs. 1,10,551, of which more than half was devoted to drainage, irrigation and embankments. Rupees 59,796 was spent on education. There are now 2,262 schools, attended by nearly 75,000 pupils in the Government estates of the Presidency. The expenditure on roads and communications in Government estates was Rs. 1,64,124, of which Rs. 58,000 was paid out of the Government 1½ per cent. grant, the balance being met from local funds.

7. *Advances.*—As in the previous year, the demand for advances under the Land Improvement and Agriculturists' Loans Acts was small. It is satisfactory to note that considerable progress has been made with the realization of arrears, the amount overdue having been reduced from 2½ lakhs to a little over 1½ lakhs during the year.

8. *Drainage, irrigation and embankments.*—These operations are mainly confined to the Burdwan and Presidency Divisions. In the 24-Parganas, two sections of Magra Hât Drainage Scheme have been finished, and the third is approaching completion. The Nawi Sunti Drainage Scheme has been taken up under the Sanitary Drainage Act.

There were fortunately no heavy floods during the year, but considerable damage was caused in Birbhum owing to the neglected state of the private embankments. It is reported that many fertile tracts of land have been converted into sandy wastes, but that the zamindars, who are responsible for the maintenance of the embankments, are quite indifferent in the matter.

Special investigations are now being conducted by the Public Works Department. Since the close of the year, disastrous floods have occurred in the Burdwan Division, causing considerable distress and damage.

9. *Partitions.*—One hundred and seven cases were instituted during the year, and 44 were disposed of, leaving 234 cases pending, including 171 cases which were pending at the end of the preceding year. Proposals for simplifying the procedure and expediting work under the Partition Act are under the consideration of the Board, but the subject is beset with difficulties, and it is reported that it will be some time before an amending Bill can be framed.

10. *Sundarbuns.*—The rules for the grant of waste land leases in the 24-Parganas and Khulna portions of the Sundarbans continued to be held in abeyance, pending an investigation by the Public Works Department of the question of the effect of reclamation by embankments on the drainage of the tract. Excellent progress was made with the colonization of the Bakarganj Sundarbans, where 715 new colonists were settled on 54.586 bighas of land during the year. The Governor in Council agrees with the Board that the colonization officer deserves credit for these results, which indicate confidence on the part of the settlers in the revenue administration of the area.

11. *Working of the Tenancy Act.*—The reports regarding the working of the Tenancy Act contain little that is novel. Except in a few districts no serious agrarian disputes came to notice, but the levy of *abwab* and illegal cesses, and the failure to grant proper rent receipts, are still deplorably common. The Commissioner of the Dacca Division, in which the preparation of the record-of-rights is now approaching completion, remarks that the record is throwing light among those who sit in darkness and is becoming more and more the "people's charter." Apart from the record-of rights, the functions of revenue officers under the Act are limited, but it is satisfactory to note the general improvement in the payment of landlords' fees due to the revised procedure prescribed by the amendments made in the Act a few years ago.

12. *Weather, crops, etc.*—The outturn of the principal crops was satisfactory in most parts of the province, and prices still ruled high, much to the benefit of the cultivators. The demand for all classes of labour was good, and the high wages paid compensated for the dearness of food-grains. Floods in June 1913 caused some distress in Birbhum, where a grant of Rs. 5,000 was made for the relief of the sufferers from Ram Lal Mukharji's Fund. A special grant of Rs. 10,000 was also made by Government for distribution in agricultural loans to the cultivators. There was renewed distress in the Chittagong Hill Tracts where the crops were damaged by an insect pest and to some extent by rats, before the people had time to recover from the scarcity of the previous year. In order to relieve the situation, the recovery of the agricultural loans issued in the previous year was suspended, and a further grant of Rs. 1,20,000 was made for distribution in loans to the people.

13. The thanks of Government are due to the Board for their capable and efficient administration of the Land Revenue Department during the year. The Governor in Council desires to take this opportunity of referring to the retirement of the Hon'ble Sir Duncan James Macpherson, KT., C.I.E., who, during his service of thirty-five years, has taken a leading part in various capacities in the revenue administration, to which his long experience and untiring industry have been invaluable. His Excellency in Council is assured that Sir Duncan Macpherson will carry with him on his retirement the good wishes of all the revenue officers of this Presidency and their hearty congratulations on the honour which has been bestowed upon him at the close of his long career in India.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Government of Bengal.

No. 230.

COPY forwarded to the Secretary to the Board of Revenue, Bengal, for the information of the Board.

No. 231.

COPY, with a copy of the Report, forwarded to the Director of Land Records, Bengal, for information and necessary action with reference to paragraph 5 of the Resolution.

By order of the Governor in Council,

J. N. MITRA,

Under-Secretary to the Govt. of Bengal.

CALCUTTA,

No. 2134 Misc.

FROM J. A. L. SWAN, ESQ., I.C.S.,

Secretary to the Board of Revenue, Bengal,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

REVENUE DEPARTMENT.

Dated Calcutta, the 8th August 1916.

SIR,

I AM directed to submit the report on the Land Revenue Administration of the Presidency of Bengal for the year ending 31st March 1916.

SECTION I.

General conditions of the year.

Material condition of the people.

2. In the Burdwan Division the rainfall was very deficient and badly distributed. The places which suffered most were Central and West Burdwan, the whole of Bankura and the north and west of Midnapore. The failure of crops was most serious in the district of Bankura, where, although famine was not actually declared till the beginning of the current year, famine conditions prevailed during the latter part of the year under report. Adequate measures were taken in that district to relieve distress by opening relief works, giving gratuitous relief and advancing loans under the Loans Acts. It is reported that the high prices of food grains to a certain extent compensated the agriculturists for the diminution in the outturn, but pressed heavily on the landless middle classes depending upon fixed incomes. Demand for both skilled and unskilled labour was steady in consequence of railway construction in the districts of Burdwan, Birbhum, Bankura and Hooghly and the landless labourers were thus able to tide over the difficulty. The public health was on the whole good, except in Burdwan and Birbhum where malaria was prevalent.

The material condition of the people was on the whole not satisfactory in any of the districts of the Presidency Division except Jessore. This was due mainly to the poor outturn of crops. In some places the high price of jute helped the cultivators to tide over their difficulties. The continuance of the European war raised the price of every commodity, but this did not affect the labouring classes because the wages rose in proportion to the rise of prices. As in the Burdwan Division, the stress of prices was keenly felt by middle class people with limited incomes. The public health was on the whole fairly good in the 24-Parganas, Murshidabad and Khulna.

The material condition of the people of the Dacca Division, especially of the cultivating classes and agricultural labourers, was better during the year under report than during the previous year. The condition of the middle classes was affected by the high prices of sugar, salt and all imported goods. The outturn of both rice and jute which are the principal crops was good. The price of the latter ruled better than in the previous year, but is still below the normal. In Dacca there were constant requests for agricultural loans owing

to the scarcity of money and the high interest charged by money-lenders, and in the Narainganj subdivision a sum of Rs. 41,300 was distributed in loans. In the Kisoreganj subdivision of Mymensingh the distress caused by floods was met by loans amounting to Rs. 95,000; while in Bakarganj, where the people suffered from the consequence of the previous year's depression in the jute market and the partial failure of the winter crop, a sum of Rs. 33,067 was distributed as agricultural loans to help the tenants. The general health of the people in the Division was, on the whole, good except in certain parts of the Dacca, Mymensingh and Faridpur districts.

Except in the district of Chittagong itself the material condition of the people of that Division was unsatisfactory. The short outturn of winter rice during the previous year injuriously affected the people of the district of Noakhali and of the Sadar and Chandpur subdivisions of the Tippera district. In the Sadar subdivision of the latter district a serious flood in June breached the northern embankment of the Gumti river. The flood water spread over large tracts and completely destroyed the *aus* crop and caused serious damage to the jute crop, which was nearly ready for the sickle. The excessive rain in October again flooded the area, which had been transplanted by the raiyats under great difficulties, and destroyed the *aman* crop also beyond redemption. Very heavy rains in the hills on both sides of the Surma Valley overflooded a large area in the Brahmanbaria subdivision. The total area affected was 461 square miles, with a population of 370,000. A sum of Rs. 9,59,148 was advanced as agricultural loans, besides a sum of Rs. 91,479 paid by Government as gratuitous relief. Gratuitous relief amounting to Rs. 10,780 was also given from private funds. Relief operations were opened on a fairly extensive scale. The District Board spent Rs. 93,435 on test works, construction of roads and excavation of tanks. The Sarail Ward's estate spent Rs. 39,429 on gratuitous relief and Rs. 21,341 on improvement works as a relief to the distressed people. It is reported that the general distress of the raiyats affected almost every other class of people, the poorer landholders and the middle class gentry suffering the most. In the Feni subdivision of the Noakhali district floods also caused damage to crops covering an area of 20 square miles. A sum of Rs. 80,000 was advanced as agricultural loans in the district and Rs. 13,000 was spent by the District Board on test relief works. In the Chittagong Hill Tracts excessive rain late in the season caused some damage to the crops. The health of the people was generally good.

The staple crops in the Rajshahi Division are rice, jute and tobacco. The area under rice increased and that under jute contracted as the result of the drop in the price of jute consequent on the war. The outturn of rice was generally good, and, though jute did not thrive so well, the price rose appreciably, to the advantage of those big cultivators who had held large stocks till the depression in the market passed away. The condition of the people was on the whole good, but, as in other Divisions, the high prices of food and other necessaries told severely on the lower middle classes and others with small fixed incomes. Public health was generally good except in the district of Bogra and the trans-Brahmaputra portion of the Rangpur district.

Economic development.

3. The coal mining industry in the district of Burdwan was affected by the war, but in the latter part of the year the coal market recovered owing to the demand for coal in Western India. In the Serampore subdivision of the Hooghly district the nine jute mills employed on war work made great profits and gave remunerative employment to a large number of labourers. The jute and cotton mills in the Howrah district also did well. In the Bankura district the manufacture of silk, *tasar*, cotton cloths, brass and bell metal wares suffered considerably owing to the scarcity that prevailed in the district. The bell metal industries of Kharar in the Midnapore district have been dull owing to the difficulty in obtaining raw materials and other causes consequent on the European war. Rice mills in that district worked both by steam and oil engines are increasing in number and are reported to be profitable. The two cotton mills and the two cloth printing and dyeing works in the Serampore subdivision of the Hooghly district are thriving and the handlooms in Serampore and many

other places continued to turn out cotton cloths. In the Sadar subdivision of the 24-Parganas there are jute and yarn mills, a shipping yard of the India General Steam Navigation Company, rice and bone mills, tanneries and petroleum depôts, while the Barrackpore subdivision is noted for its jute and paper mills and the Government rifle and ammunition factories. All these mills and factories are in a flourishing condition. In the Nadia district weaving is carried on by a large number of Muhammadans in the Ranaghat, Kushtia, Meherpur and Chuadanga subdivisions, who manufacture *dhotis*, *saris*, bed-sheets, wraps, coating, twill sheeting, etc., which find a ready market. The Mohini Cotton Mills, Limited, of Kushtia is doing much useful work and is training many artisans. In the Meherpur subdivision, leather goods such as saddles and shoes, and bell metal utensils of good quality are manufactured. In Chuadanga, the manufacture of sugar from date palm *gur* was carried on on a large scale and found a good market. A leather tanning factory, worked by steam with up to date machinery, was opened at Berhampore by a limited company, of which the Maharaja of Cossimbazar is the Chairman. The quality of the leather goods turned out is reported to be very good. In Khulna the only manufactures worth mentioning are date palm *gur*, cocoanut oil, cotton cloth and pottery consisting of tiles, glazed earthenware dolls and images. In the district of Dacca the principal articles of trade are Dacca cloth and embroidery work. The iron factory at Dacca is doing a brisk business. Date sugar is extensively manufactured in the Manikganj subdivision. In Faridpur *gur* was prepared from date juice and sugarcane. The three oil mills at Jhalakati, Nalchiti and Bhola in the Bakarganj district continued to work. In Chittagong, the Shalimar works of Messrs. Turner, Morrison & Co., the ginning factory of Messrs. Jamal Brothers and the Burma Oil Company were fully employed. The weaving school at Cox's Bazar was placed on a permanent footing during the year as it has become popular with the local Maghs. Jute baling is the most important industry in the district of Tippera. There is a large export trade in fish from Ashuganj in the Brahmanbaria subdivision. The export of poultry and eggs was a lucrative business in the district of Noakhali. In the Rajshahi Division there is very little organised industry except in the case of tea, which is confined to the districts of Darjeeling and Jalpaiguri. During the year the tea industry was in a very flourishing condition. The condition of the silk industry in Malda, Rajshahi and Bogra was unsatisfactory. At Pabna the oil and *surki* mills continued to thrive, but the hosiery companies were hampered by insufficiency in the supply of cotton and woollen thread.

Emigration and immigration.

4. During the year there was no permanent interdistrict emigration and immigration in the districts of Burdwan, Birbhum and Hooghly. Owing to the scarcity in Bankura and the unfavourable crop conditions in parts of Midnapore, the migration from Midnapore was much greater than usual, and in Bankura 4,436 emigrants to the Assam tea gardens were registered against 171 in the previous year. There was temporary emigration of aboriginal tribes such as Santals from the districts of Birbhum, Bankura and Midnapore in quest of work, and a small number of Muhammadans from Hooghly went to Burma, the Straits Settlements and other parts of India. There is also no permanent interdistrict emigration or immigration in the Presidency Division. During the harvest season there was the usual movement of labourers from one district to another in quest of employment. A large number of men from other provinces were employed in brickfields, mills and railways in the 24-Parganas. In the Dacca Division too emigration hardly exists in the proper sense of the term. The diluvion of some of the chars on the east bank of the Jamuna in the district of Mymensingh, has compelled some of their inhabitants to emigrate to Rangpur, Dhubri and other places in quest of land for cultivation. There was the usual influx of up-country labourers to the firms in Naraingani and other places in the Division. Temporary immigration of landless labourers from the districts of Dacca, Faridpur, Noakhali and Tippera for the rice harvest continued in Bakarganj. During the year 994 families migrated from the Chittagong Hill Tracts to Hill Tippera and the Lushai Hills, attracted by the reports of excellent ground for *Jhum* cultivation.

It is reported that a large number of them have since returned. Some migrations from Cox's Bazar to Arracan and the Chittagong Hill Tracts and from the Feni subdivision to Hill Tippera were also reported. There was the usual movement of agricultural labourers from Chittagong and Noakhali to Burma for employment in rice fields and mills. There was the usual seasonal migration of labour from Pabna to Assam and the Sundarbans. The supply of labour for the tea gardens in the Duars of Jalpaiguri and in the Darjeeling Terai is ordinarily derived from Chota Nagpur, the Santal Parganas and the Central Provinces, while the gardens in the hill portions of the district of Darjeeling get their labourers from Nepal, Bhutan and Sikkim. The Deputy Commissioner of Darjeeling reports that during the year a considerable number of Gurkhalis were recruited by the Military Department for military purposes and the supply of *dandiwallas* was insufficient last season owing to several hundreds having been recruited as *dhuli-bearers* for the front. Migrations of Santals to Dinajpur and up-country coolies to Rangpur are reported. In the latter district many *Bhatia* Muhammadans abandoned their holdings in the *chars* and migrated towards Assam.

SECTION II.

Collection of Land Revenue.

Statistics of estates on the tauzi roll and their demand, collections, remissions and balances.

Appendix I.

5. The total number of estates paying land revenue was 97,472, as against 97,011 in the previous year. Of these, 91,850 were in class I (permanently-settled estates), 3,348 in class II (temporarily-settled estates) and 2,274 in class III (estates held direct by Government). The net increase of 461 estates was due mainly to partitions of estates in class I and to the creation of new estates by resumptions and settlements.

6. The total current demand of the year amounted to Rs. 2,76,02,163, showing an increase of Rs. 2,34,632, as compared with the demand of the previous year. The increase was due mostly to new settlements, resettlements and progressive increase of demands in temporarily-settled and Government estates. The current demand, together with the arrear of Rs. 20,42,329, brought the total realizable demand of the year to Rs. 2,96,44,492, out of which the collections amounted to Rs. 2,78,14,846, being 93·82 per cent. of the total and 100·97 per cent. of the current demand, as against 93·04 and 97·75 per cent., respectively, in the previous year. Though the collections improved in comparison with the previous year, they suffered owing to floods and to the depression of trade consequent on the European war. As noticed in the previous year's report, a sum of over two lakhs of rupees could not be credited in payment of land revenue in Bakarganj pending the disposal of a civil suit against Government, and a further sum of Rs. 1,12,466, though collected within the year, could not be credited to the accounts of the year. The total remissions granted amounted to Rs. 73,727, and the major portion of this was allowed, as usual, in estates held direct by Government, for such causes as poverty of the raiyats, loss of crops, diluvion of land, non-settlement of holdings and errors in accounts. The total balance remaining unrealized at the close of the year amounted to Rs. 17,55,919, being 5·92 per cent. of the total demand, against the corresponding figures of Rs. 19,65,236 and 6·8 per cent., respectively, in the previous year. Nearly the whole of this balance is reported to be in process of recovery.

Permanently-settled estates.

Appendix IA.

7. The total demand of the permanently-settled estates amounted to Rs. 2,17,79,794 (Rs. 2,15,79,972 current and Rs. 1,99,822 arrear), of which Rs. 2,15,85,884 or 99·10 per cent. was collected. The current collections reached 99 per cent. of the current demand in all districts except Bakarganj (94·71) and Chittagong (97·94). The low percentage in Bakarganj was chiefly due, as in previous years, to short payments made in

respect of the Estate of the late Raja Sir Sourindra Mohan Tagore, under the management of the Court of Wards, on account of its bad financial condition ; while the slight deficiency in Chittagong is attributed to the fact that the agriculturists of the district depend to a considerable extent on their earnings in Burma for the payment of their rent and that these, in the year under report, were much below normal.

Temporarily-settled estates.

Appendix IB.

8. Temporarily-settled estates comprise three sub-classes—(1) private estates settled with proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers. The total collections from all these three classes of estates amounted to Rs. 17,08,422, representing 100·48 per cent. of the current demand of Rs. 17,00,097, against 95·13 per cent. in the previous year, and Rs. 3,56,231 remained unrealized at the close of the year. The current collections fell short of the prescribed standards in three districts only. In the 24-Parganas the decrease in the percentage (90·17) is attributed to the default of several Sundarbans grants, while in Tippera (85·81) the falling off is stated to be due to the scarcity prevailing in the district. In Bakarganj (83·53) a considerable amount could not be credited to land revenue owing to the pendency of a civil suit against Government.

Estates held direct by Government.

Appendix IC.

9. The estates held direct by Government comprise two sub-classes—(1) estates belonging to private proprietors but managed by Government, and (2) those owned by Government as proprietor. The total demand of these estates amounted to Rs. 57,98,477 (current Rs. 43,22,094 and arrear Rs. 14,76,383), of which Rs. 45,20,540 (current Rs. 34,58,173 and arrear Rs. 10,62,367) or 77·96 per cent. was collected, Rs. 71,861 remitted and Rs. 12,06,076 left unrealized at the close of the year. Both arrear and current collections showed better results, being 71·95 and 80·01 per cent. of the demands, against 57·24 and 74·43 per cent., respectively, in the preceding year. In Midnapore although the total collections represented 122·4 per cent. of the current demand during the year, the balance outstanding amounted to Rs. 4,07,469. It is reported that as the tenants who suffered from the floods of 1913 had bad harvests in the two following years, they could not recover their financial condition so as to be able to pay up the whole of the current and arrear demands of the year.

Miscellaneous land revenue.

Appendix II.

10. Appendix II shows the details of collections, remissions, and balances of miscellaneous land revenue. The total collections amounted to Rs. 21,44,234, against Rs. 15,24,187 in the previous year. There was marked increase in the receipts under the two heads "Sale of Government lands" and "Recovery of survey and settlement charges." Under the former head the amount of Rs. 2,22,403 shown against the 24-Parganas represents mostly the value of some plots of land sold to the Calcutta Improvement Trust for the purposes of their several schemes ; while the heavy recoveries of survey and settlement charges in the districts of Dacca, Mymensingh and Faridpur account for the increase under the latter. The collections under "Other receipts" included Rs. 57,430 on account of *Pulbandi* contribution realized from the Burdwan Estate.

Changes in land-revenue demand of temporarily-settled estates and estates under direct management.

Appendix III.

11. The changes in the land-revenue demand of temporarily-settled estates and estates under direct management during the year are shown in detail in Appendix III. There was a net increase of 33,400·20 acres in the area of land settled and of Rs. 2,39,049 in revenue.

Redemption of land revenue.

Appendix IV.

12. The total number of petty estates and holdings, the land revenue of which was redeemed during the year, was 241, against 325 in the preceding year. These were mostly permanently-settled holdings in the Government estates of Calcutta and its suburbs. The land revenue redeemed amounted to Rs. 441 and the total price realized was Rs. 12,164, the corresponding figures of the previous year being Rs. 666

and Rs. 18,571, respectively. There was no case of redemption under section 11 of the old Partition Act of 1876.

Remittance of land revenue and cesses by special money-orders.

Appendix V.

13. The number of special money-orders issued during the year for remittance of land revenue and cesses decreased from 297,491 to 246,782, while the amount covered by these money-orders increased from Rs. 18,04,024 to Rs. 19,79,391. The fall in the number of orders, which was shared by almost all the districts, is attributed to the introduction of a combined form of money-order for remittance of both land revenue and cesses. The increase in the amount was contributed mostly by the districts of the 24-Parganas, Midnapore, and Rangpur, but no particular reason has been assigned for this. It will be seen from Appendix V, that the remittances exceeded a lakh of rupees in Midnapore, 24-Parganas, Dacca, Mymensingh, Faridpur and Chittagong and were more than Rs. 50,000 in ten other districts. The average value of an order increased to Rs. 8·02 from Rs. 6·06 in the preceding year.

Coercive measures. Operation of the Sale Laws.

Appendix VI.

14. Appendix VI gives the particulars of the proceedings under the Revenue Sale Law. The number of defaults and the number of sales during the year were 12,498 and 1,087, respectively, as against 13,717 and 861 during the preceding year. The price realised by sale was 2·9 times the Government revenue against 5·7 times in 1914-15. Indebtedness of proprietors, wilful defaults owing to unprofitableness and diluvion and dissensions and collusion on the part of co-sharers are reported to be the reasons which led to the sale of estates or shares in most of the districts.

District.	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong ...	5,295	451	8·5
Midnapore ...	1,618	49	3·0
Mymensingh ...	794	75	9·4
24-Parganas ...	709	107	15·0
Hooghly ...	644	69	10·7
Bakarganj ...	605	26	4·3

15. The figures in the margin give the number of defaults and sales and the proportion of sales to defaults in the districts in which defaults were most numerous. The enormous number of petty estates in Chittagong accounts for the large number of defaults and sales in that district.

16. One hundred and seventy tenures and holdings under the direct management of Government were sold under the provisions of Act XI of 1859. Of these, 26 were purchased on behalf of Government for Re. 1 each. One hundred and forty-one appeals were filed before the Commissioners against sales. In 32 cases sales were annulled by the Commissioner under section 2 of Bengal Act VII of 1868 and in 24 cases by the Board under section 26 of Act XI of 1859, as amended by the Decentralization Act, 1914.

17. Out of 12,498 defaults, exemptions from sale were granted in 10,789 cases under section 18 of the Act. Recourse to actual sale was necessary in only 1,087 or 8·7 per cent. of the cases as against 6·3 in the previous year. In spite of the increase in the number of sales the statistics on the whole indicate that the stringency of the Sale Law was tempered by moderation throughout the Presidency.

Certificate procedure.

Appendix VII.

18. The total number of certificates (exclusive of those for cesses which have been dealt with in section V) filed during the year was 45,825, as against 54,975 (revised figures) of the previous year. The decrease was shared by many districts and was due to various local causes. The percentage of certificate cases disposed of to the total number for disposal fell from 68·1 (revised figures) to 57·6. The number of cases pending at the close of the year was 30,272, of which 4,507 were pending for more than six months, as against 11,746 (revised figures) of the previous year. The number of old cases is high in Faridpur (1,328) and Tippera (1,357). Special reasons such as the inclusion of 1,172 cases left by the Settlement Office, which was abolished on the 29th February 1916, contributed to swell the number in the district of Faridpur, while in Tippera execution was stayed in 1,157 cases on account of distress. The Board has asked the Commissioners to see that particular attention is paid to the early disposal of the old cases.

The table below shows the stages at which demands were satisfied :—

Division.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	Number of debtors imprisoned.	
					Number released on payment of debt before expiration of imprisonment.	Number released without full payment of debt.
Burdwan ...	2,495	7,114	478	324	1	...
Presidency	730	3,088	173	297	1	5
Dacca ...	1,463	5,257	211	39	1	...
Chittagong	3,476	8,388	718	514	...	2
Rajshahi ...	682	1,037	264	48	1	3

As in previous years, in the majority of cases payments were made on the mere issue of notices or on attachment of property and recourse to actual sale was necessary only in 1,844 cases out of 41,169 cases disposed of during the year.

Realization of Government and other demands by imprisonment.

19. Of the 14 persons committed to civil jails during the year in the enforcement of certificates, 7 were imprisoned for non-payment of Government demands and the rest for withholding sums due to District Boards and Court of Wards, etc.

Separate accounts of land revenue payments opened for shares under Act XI of 1859 and Bengal Act VII of 1876.

20. There were 1,103 separate accounts opened and 300 closed during the year, as against 1,003 and 409, respectively, in the previous year. There remained open at the close of the year 58,220 accounts paying a revenue demand of Rs. 68,30,656. Of these 44,372 accounts with a demand of Rs. 58,40,067 were for shares in joint estates held in common tenancy (section 10 of Act XI of 1859), 5,160 accounts with a demand of Rs. 3,50,072 for shares representing specific portions of lands in estates (section 11 of Act XI of 1859), and 8,688 with a demand of Rs. 6,40,517 for shares consisting of undivided interests in specific lands (section 70 of the Land Registration Act VII of 1876).

Appendix VIII.

Registration of tenures under Act XI of 1859.

21. During the year, 10 tenures were registered for protection against an auction purchaser in the event of the sale of the parent estate for arrears of revenue under Act XI of 1859, bringing the total number protected at the close of the year up to 5,217. There was no case of registration of tenures in any district of the Burdwan, Presidency and Rajshahi Divisions.

Appendix IX.

SECTION III.

Other Revenue Work.

Estates under direct management.

22. During the year under report there were altogether 2,272 estates under direct management, including those of private individuals managed by Government, and the total current demand payable by these estates amounted to Rs. 41,88,602. The percentage of cost of management on the current demand was 6·96.

23. The condition of the tenants in the khas mahals was on the whole fairly satisfactory. But the tenants in the Contai Khas Mahals in Midnapore have not yet recovered from the effects of the flood of 1913. In Birbhum and in some parts of Bankura and Nadia the raiyats had a bad harvest. The excessive and early rainfall affected the harvesting of the crops on low-lying-*char* lands in the districts of Dacca and Mymensingh and damaged the crops in Pabna. There were excellent jute and sugarcane crops in the northern portion of Bakarganj and the outturn of winter rice was also good in that district. In Tippera the tenants suffered from the fall in prices of jute followed by a sudden and continuous flood resulting in a partial failure of winter rice. Agricultural loans were granted to the tenants, where crops were destroyed by the flood, and the realisation of rents was suspended, where necessary.

Condition of tenants.

No case of desertion of holdings was reported during the year, except in the Painabad estate in the district of the 24-Parganas, where the raiyats abandoned their lands owing to the salt-water inundation due to the breach of the embankment in 1913-14. The construction of an embankment round the estate has been undertaken.

24. No material change was introduced in the system of management. The post of the tahsildar of the Agarmulda estate in the Contai Khas Mahals in Midnapore, who was paid by commission, was abolished, and a clerk on Rs. 30 appointed instead as a temporary measure. The system of direct payment of the rents of this estate into the sub-treasury at Contai is reported to have worked well. In the Contai Khas Mahals extra establishment had to be entertained, as in the previous year, to deal with a large amount of mutation work and to look after the civil suits brought against Government by the *chakdars* for the amendment of entries in the record-of-rights relating to their status and rents. The scheme for the re-organization of the khas mahal establishment of Dacca has been kept in abeyance owing to the present financial stringency, but three new tahsildars have been appointed as a temporary measure. The khas mahal establishment of the Subdivisional office at Siliguri in the district of Darjeeling was revised during the year and the Sub-Deputy Collector of Siliguri was placed in charge of those khas mahals. The future policy to be adopted for the assessment of the canal surplus and khas khamar lands in the 24-Parganas has not yet been settled by Government.

Agency and mode of management.

25. Out of the grant for the management and improvement of Government estates, Rs. 2,91,607 was expended on account of management, Rs. 68,887 for miscellaneous improvements including agricultural improvements and experiments, and Rs. 9,115 for sanitary improvements. The total expenditure on improvements included Rs. 7,916 spent on tanks and wells, Rs. 43,258 on drainage, irrigation and embankments, Rs. 1,059 on roads and bridges and the remainder (Rs. 25,769) on planting trees and other miscellaneous works. The allotments made for works of improvement were fully utilized in almost all districts.

Grant for the management and improvement of Government estates.

Appendix X

26. A total sum of Rs. 3,07,305 was expended on roads and communications in Government estates, the Government grant of one and a half per cent. on collections from these estates allotted for the purpose amounting to Rs. 69,559, and the balance being met from District Boards and other local funds. The corresponding figures of the previous year were Rs. 2,16,630 and Rs. 70,500, respectively. The total expenditure on original works amounted to Rs. 1,17,578, of which a sum of Rs. 1,05,483 was spent in the Government estates in the Duars of Jalpaiguri by the District Board.

Roads and communications.

27. The total number of schools in Government estates and of pupils in them increased from 2,214 and 73,327 in 1914-15 to 2,293 and 76,570, respectively, during the year under report. The increase both in the number of schools and of pupils was marked in the districts of the Dacca Division, where the former rose from 540 to 607 and the latter from 17,067 to 19,007. The total sum spent on education in Government estates aggregated Rs. 65,851, while the

Education.

Government grant of 1 per cent. on collections from these estates amounted to Rs. 46,373, the excess expenditure being met from local grants.

Inspection of accounts.

28. The accounts of Government estates were duly inspected and there were no serious irregularities in any of the districts except Midnapore, where the following cases were brought to light :—

One case of defalcation of Rs. 12 only, was detected in the Kukrahati circle and the tahsildar was criminally prosecuted, convicted and sentenced to six months' rigorous imprisonment. The tahsildar of the side lands of the portion of the Jagannath Road lying within the district of Midnapore (the property of the Public Works Department under the management of the Khas Mahal Department), embezzled about Rs. 700. The result of the criminal proceedings drawn up against him is awaited. The tahsildar of Bhagawanpur in the Contai Khas Mahals, who was prosecuted in the preceding year for embezzlement of Rs. 268-8-3, was convicted and sentenced to six months' imprisonment.

Colonization in the Bakarganj Sundarbans.

29. The year under report is the ninth year of the colonization scheme. The term of previous sanction for the retention of the Colonisation Department having expired the continuance of the department for a further term of five years has been sanctioned. The Colonisation Officer spent 292 days on tour during the year His Excellency the Governor made a tour in the Sundarbans in January and the Hon'ble Mr. F. J. Monahan inspected the Colonisation work in February. The Collector inspected the work four times in different parts of the Sundarbans. During the year under report 416 new colonists settled on 24,070 bighas of land against 535 colonists on 31,560 bighas of land in the preceding year.

30. The following table shows the result during the year under report of the assessment of settlers whose rent-free period or the terms of whose previous settlement has expired or is about to expire :—

NAME OF ESTATE.	No. of settlers.	Area assessed in acres.	Initial revenue.	Ultimate revenue.
			Rs. A. P.	Rs. A. P.
Chota Nishanbaria ...	206	3,320·00	2,324 2 6	10,752 13 6
Abad ,, ...	27	345·51	1,214 12 0	1,214 12 0
Bara Baliatoli ...	14	210·53	79 10 0	796 1 0
Chota ,, ...	70	1,619·74	1,229 15 0	6,149 4 0
Latachapli ...	97	1,667·58	736 10 0	5,388 4 0
Dhulashar ...	34	351·51	541 4 0	1,353 3 0

A large area in Bara Bogi, Latachapli, Kalamegha and Dhulashar was surveyed during the year and papers are being prepared for assessment. The following statement shows the expenditure on the scheme during the year :—

	Rs. A. P.
Establishment including allowance	14,155 2 8
Contingencies	3,689 15 8
Agricultural improvements	42,095 12 0
Sanitary improvements	4,281 5 0
Miscellaneous improvements	4,164 14 5
Total ...	68,387 1 9

A sum of Rs. 21,782 was advanced to the colonists as loans and Rs. 43,113 was realized during the year. Suspension of instalments or remission was not granted in any case.

A sum of Rs. 24,044 against Rs. 30,625 of the preceding year was realized as royalty on forest produce. The decrease was due to gradual

reclamation of forest as well as to the fact that a large area in the Kalamegha estate was kept reserved. The cost of the Forest establishment amounted to Rs. 2,927.

31. The rural Co-operative Credit Societies established in the colonization area have been working satisfactorily. Five new societies were registered during the year. A sum of Rs. 21,900 was advanced to 16 societies and Rs. 20,035 was repaid by those societies out of the amounts advanced during the year as well as in the preceding year. An inspecting clerk was entertained to supervise the working of these societies and to keep their accounts.

The colonisation area is badly in need of roads. The District Board has constructed a new road connecting Khepupara with the nearest steamer station at Amtali. The experimental post office established at Patharghata has been working well and has been made permanent.

The climate of the Sundarbans is reported to be steadily improving. There was no epidemic of cholera or cattle disease in this area during the year under report.

Improvements made in resumed Sundarbans estates.

32. There are 17 resumed Sundarbans estates, including the Saugor Island grants, in the 24-Parganas, eight of which are under khas management. Some estates, viz., the Saugor Island lots, Mansadwip, 2nd portion, and Shikarpur, 2nd portion, have been selected for an experiment in raiyatwari settlement on the lines of the Bakarganj Colonization scheme. These estates have been notified for Survey and Settlement under the Bengal Tenancy Act, and a Special Sub-Deputy Collector has been placed in charge of the operation. A sum of Rs. 800 was spent during the year on the maintenance of embankments in Shikarpur, 2nd portion. In Khulna a sum of Rs. 600 was spent on the repair of embankments in the Chandkhali and Mamudabad resumed estates. In the Bakarganj portion of the Sundarbans there are 20 resumed estates, out of which five entire estates and portions of two have been declared as "Protected forest" and the rest require improvements. In the estates in which colonization is in progress, Rs. 3,49,140 has been spent since 1907 up to the close of the year under report, on agricultural, sanitary and miscellaneous improvements. Most of this money was spent on agricultural improvements, *i.e.*, for the construction of dams and embankments in order to protect the land from saline water. These embankments also serve the purpose of roads in this tract. Three tanks were excavated during the year under report for the supply of good drinking water. Two-thirds of the total cost was borne by the District Board and one-third by Government.

Waste lands.

33. The rules for the grant of waste land leases to large capitalists in the 24-Parganas and Khulna portions of the Sundarbans continue to be under suspension. On the suggestion of the Hon'ble Mr. C. J. Stevenson-Moore, who visited the Sundarbans with a view to determine the best method of reclaiming the waste lands, raiyatwari settlement is being made in the resumed lot Mansadwip, 2nd portion, in the Saugor Island, by an officer deputed for the purpose, and the reclamation of the lot Shikarpur, 2nd portion, in that island has been undertaken with a view to making the lot fit for raiyatwari settlement. It is proposed to take up other lots for such settlement later on.

The number of leases granted under the Large Capitalists' Rules of 1879 and the rules of 1853 remained the same as before, viz, 183 and 93 in the 24-Parganas and 22 and 38 in the Khulna Sundarbans, respectively. The revenue payable in respect of them during the year was Rs. 1,02,641, Rs. 79,501, Rs. 11,686 and Rs. 54,076, which will eventually rise to Rs. 2,35,111, Rs. 80,053, Rs. 22,206 and Rs. 55,769, respectively. The number of leases in Saugor Island was 6 as in the previous year, and the revenue demand during the year under report was Rs. 2,863. which will eventually rise to Rs. 11,931.

As in the previous year *parwanas* for possession were issued in Jalpaiguri in respect of 32 waste land jotes settled during the year. Leases in proper form will be issued when the form for arable waste land leases which is under consideration is finally approved.

34. Only two petty estates, with an area of less than an acre, in the district of the 24-Parganas, were sold during the year under report for Rs. 1,487, subject to an annual revenue of Rs. 8. In addition to the above, 6 plots of Railway B class land in the 24-Parganas, covering an area of 7·25 acres, were sold at a total price of Rs. 2,371, and a 2-annas share of an estate in Nadia, which escheated to Government, was sold for Rs. 1,150, subject to the payment of Rs. 55 as revenue.

Sale of Government estates.

Appendix XI.

35. In Malda a piece of land, measuring ·025 acre, with an estimated yearly rental of Re. 1, was granted rent-free for the construction of the local Muktears' Bar-Library building.

Alienation and assignment of land revenue.

Appendix XII.

36. The following is a brief account of the irrigation and drainage projects in the Province other than those in charge of the Public Works Department and those maintained from the Government Estates Improvement grant. No important projects were undertaken in the Dacca, Chittagong and Rajshahi Divisions.

Irrigation and drainage.

Burdwan Division.—No new drainage or irrigation projects were undertaken in the division during the year. On account of scarcity in the district of Bankura no fresh contribution was made during the year by the raiyats towards the scheme for repairing and maintaining the old irrigation channel, known as "Subhankari Danra" in that district, but considerable progress was made in clearing the silt and making embankments out of funds supplied by Government for irrigation projects. The construction of various *bandhs* and channels was also undertaken from similar funds and several landholders were given advances from Land Improvement Loans for making irrigation *bandhs*.

In Midnapore most of the drainage works are in charge of the Public Works Department or of the Khas Mahal Department. The report called for by the Board in connection with the scheme put forward by the Superintending Engineer, South-Western Circle, to improve the drainage system of the Contai subdivision has been submitted by the Collector and is under the consideration of the Commissioner. The final report of the Collector in connection with the enquiry instituted under the orders of Government to find out the private zamindari estates for which Government undertook the liability for the upkeep of the *khals* at the time of the Decennial Settlement is still under the consideration of the Commissioner.

For financial considerations the scheme for the drainage of the Amta basin in the district of Howrah has been postponed for the present. It has been decided that this work will be dealt with under the Embankment Act and not under the Drainage Act. Recoveries on account of advances made for the Howrah and Rajapur drainage schemes amounted to Rs. 500 and Rs. 2,439 respectively leaving a balance of Rs. 709 due for the former and of Rs. 17,990 due for the latter.

The five estates which were under the management of Government under section 39 of the Drainage Act for the realization of drainage dues have not been released as their dues have not been paid off in full.

Presidency Division.—No new drainage or irrigation project of importance was taken up during the year. Certain petty works in connection with the Magrahat Drainage scheme were carried out at a total cost of Rs. 5,534. The total amount of tolls realised from the Magrahat channels during the year was Rs. 21,957 and the miscellaneous receipts amounted to Rs. 297.

37. *Burduan Division.*—There were no high floods in the Damodar and Ajai rivers and no damage was done to the embankments. Special arrangements were made to protect the embankments from floods and their general condition was good. The work of constructing retired embankments at Jhanpur, Khaspur and Sarangpur on the left bank of the Damodar was completed and a retired embankment on the Damodar right bank opposite the 48th mile of the left embankment No. 32 was constructed during the year. The work of raising the first 38 miles of the Damodar left embankment as well as the raising works for the 39th to the 61st mile of the same embankment were completed. The retired lines of embankments at Jamdah, Dangapara and Satkahonia on the banks of the Ajai river were also completed.

Embankments.

The proposal to raise the low portions of the embankments on the right bank of the Ajai and the general scheme for remedial measures with a view to lessening the damage by floods in the districts of Burdwan, Hooghly, Howrah and Midnapore are still under the consideration of Government.

The Collector's proposals for the maintenance and repairs of the zamindari embankments in the district of Birbhum under the Embankment Act are also under consideration.

The work in connection with the remodelling of the sluices at Dilakash, Gabtola, Penro and the construction of a pipe sluice at Manikara appertaining to the Madaria khal left embankment in the district of Hooghly was in progress.

Besides the large mileage of Government embankments in the district of Midnapore, 19 embankments are maintained by Government at the cost of the zamindars under the "Contract system" and one under the "Law system." In 18 of the former the contract is for 15 years from 1904-05 on an annual payment of Rs. 49,763-3. The contract for the Jokee embankment for 15 years at an annual payment of Rs. 994 expired on the 31st March 1916, and Government has sanctioned the renewal of the contract for another 15 years at an annual rate of Rs. 594 from the 1st April 1916. The account under the "Law system" was closed on realization of the demand of Rs. 855-14-5. There were 17 prosecutions under the Embankment Act for raising *bandhs*, etc., within the prohibited area, of which 16 were disposed of, resulting in the conviction of 10 persons and the acquittal of 7. One case was pending at the close of the year.

Presidency Division.—The most important embankments of the division lie in the 24-Parganas, where there are 206 miles of schedule D embankments the greater portion of which is maintained by Government. A proposal to abandon a certain length of the embankments on the banks of the Surjipur khal in consequence of the construction of an embankment on the right bank of the Peali river in connection with the Magra Hat Drainage scheme is under the consideration of Government. The construction of the retired embankments at Bansra, Baliagachi and Monsapukur was completed during the year and a new retired line was constructed at Sreenagar.

In Murshidabad no serious neglect on the part of zamindars to maintain the subsidised embankments was brought to notice.

Chittagong Division.—In the Chittagong district the Government embankments were maintained at a total cost of Rs. 12,600, of which a sum of Rs. 9,500 was spent on the repairs of the embankment round the island of Kutubdia. The Gumti embankments in the district of Tippera which are maintained by the zamindars and repaired under the supervision of the District Engineer gave trouble during the year. In the heavy rains of May and June, 1915, the embankment on the right bank of the river gave way in several places and flooded an area of about 50 square miles, practically destroying all standing crops. In spite of strenuous efforts this embankment was again breached in the heavy rains of October 1915, and the crops were again destroyed by the floods. A conference was held at Comilla at the close of the year to consider schemes for improvement of the embankments, and Government have arrived at the conclusion that storage reservoirs or escapes should be provided and that the embankments, and in particular the right embankment, should be maintained as efficiently as possible.

Land Registration.

Appendix XIII.

38. The number of applications for registration of succession to proprietary interests in land by purchase, inheritance, gift or otherwise was 35,176, of which 33,445 were granted before the close of the year. The number of old interests removed and new interests recorded were 35,573 and 42,947, respectively. The total number of recorded interests at the close of the year was 951,581 as against 944,207 at its beginning. The number of undisposed of cases at the end of the year was 10,744, of which 141 only, as against 246 of the previous year, were pending for more than six months. The largest number of long pending cases is in Hooghly (83). Mymensingh (19) and Chittagong (29). In Hooghly all the cases except one have now been disposed of, while in Mymensingh it is reported that

the cases are contested. In Chittagong 6 cases have been disposed of since the close of the year.

The expenditure incurred on account of Land Registration work in the Presidency (excluding the pay of the permanent establishment) amounted to Rs. 5,083 as against Rs. 6,445 of the preceding year. The fees and fines aggregated Rs. 13,220. No case of fraudulent registration came to notice in any of the districts. The registers are reported to be generally in good condition. During the year a Sub-Deputy Collector was employed during recess in the district of Mymensingh in connection with the scheme for incorporating in the Collectorate registers the changes of ownership ascertained in the course of the Settlement Operations. The work of correction in the districts of Dacca and Faridpur was allowed to stand over till the current year for want of funds. The proposal to employ a whole-time officer with a special staff for the work in each of the districts has received the approval of Government. In Malda the rewriting of the combined Registers A and D and Mauzawar Register C has not yet been completed owing to the difficulties experienced in tracing out some mauzas shown in the jurisdiction list. It is reported that a whole-time clerk has been deputed to do the work under the supervision of the officer in charge of the record-room. The number of applications for revision presented to the Board under section 85 was 13, of which 1 was allowed, 2 were remanded with directions to refer the cases to the Civil Court and the rest were rejected.

Partitions of estates.

Appendix XIV.

39. Appendix XIV shows the institutions and disposals of partition cases. There were 275 cases pending at the close of the preceding year and 46 cases were instituted during the year under report. Out of the total of 321 cases for disposal, 48 cases, including 13 struck off for various reasons, were disposed of and 273 cases remained pending at the end of the year. Of these, 170 cases have been pending for more than two years, mostly in the districts of Mymensingh (40), Faridpur (32), Dacca (30), Tippera (17) and Bakarganj (12).

40. Special Officers were employed exclusively on partition work in the districts of Khulna, Mymensingh, Rajshahi and Dinajpur.

41. Jessore, Dacca and Mymensingh are the only districts in the Presidency in which there are Estates Partition Funds. The accounts of these Funds are audited periodically by the Examiner of Local Accounts. The incidence of cost per acre of area partitioned in Dacca was 6 annas, against 5 annas 9 pies in the previous year. In the other two districts no partition was completed during the year.

Land Acquisition.

Appendix XV.

42. Proceedings for the acquisition, on behalf of Government and local bodies and companies, of land covering an area of 2,560 acres were confirmed during the year at a total cost of Rs. 28,16,078, as compared with an area of 5,386 acres at a cost of Rs. 50,32,659 during the preceding year. Detailed particulars of each district are given in Appendix XV. The abatements of annual revenue allowed on account of lands acquired for Government purposes, including State Railways and subsidized Companies' Railways provided with land free of cost, amounted to Rs. 757, and a sum of Rs. 13,680 was paid to Government on account of the capitalized value of the Government revenue, amounting to Rs. 555 abated for lands taken up for local bodies and companies, including certain Railway Companies entrusted with the working of State lines.

Of the total expenditure incurred a sum of Rs. 19,4),264 was for acquisition of lands for Government, including State Railways and Companies' Railways provided with land free of cost, and Rs. 8,75,814 for all other purposes, viz., for District Boards, Municipalities, Calcutta Improvement Trust and Railway and other Companies.

The average cost per acre of the lands for which acquisition proceedings were confirmed during the year was Rs. 1,100 against Rs. 934 in the preceding year. The increase in the average cost is chiefly due to the fact that the proceedings for the acquisition of more expensive land in the town of Calcutta and in the districts of Hooghly, Nadia, Chittagong and Tippera were confirmed during the year.

Loans under the Land Improvement Loans Act.

Appendix XVI.

43. The amount of loans under the Land Improvement Loans Act outstanding at the beginning of the year was Rs. 1,02,549, and loans amounting to Rs. 1,65,762 were advanced during the year under report. Out of the sum advanced during the year Rs. 1,54,129 was advanced in Bankura district, in which scarcity prevailed during half of the year. Of Rs. 2,68,311, the total outstanding principal, Rs. 46,665 was repayable during the year. Out of this Rs. 40,504 was realized including Rs. 1,759 collected in advance, while Rs. 559 was remitted. The balance outstanding at the close of the year was Rs. 2,27,248 (including Rs. 460 under suspension), of which Rs. 6,951 was overdue. Of Rs. 8,492 due on account of interest, current and arrear, the collections during the year amounted to Rs. 7,191, of which Rs. 151 was paid in advance and excess, while Rs. 385 was remitted and a balance of Rs. 917 (excluding Rs. 150 under suspension) was left unrealized at the close of the year.

Financial results.

Appendix XVII.

44. The financial results of the working of the Act are shown in Appendix XVII. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 9,449. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 7,067. The amount of principal remitted during the year was Rs. 559 ; this has to be borne by the Provincial Government as well as the special expenses connected with the working of the Act, which amounted to Rs. 3,932. Thus there was a net loss of Rs. 6,873 to the Provincial Government during the year against a net profit of Rs. 3,681 of last year.

Loans under the Agriculturists' Loans Act.

Appendix XVIII.

45. The amount advanced during the year under the Agriculturists' Loans Act was Rs. 15,78,340. The largest sums were issued in the districts of Bankura (Rs. 2,78,982), Tippera (Rs. 9,59,148) and Mymensingh (Rs. 1,19,323). In Bankura there was scarcity during half of the year, in Tippera there was widespread distress on account of floods and in Mymensingh local distress on account of flood. The outstanding balance of the previous year was Rs. 5,21,927, making the aggregate amount outstanding Rs. 21,00,267, of which Rs 4,78,112 was recoverable within the year. The total collections amounted to Rs. 2,50,961 including Rs. 5,524 paid in advance and excess and Rs. 586 was remitted. The balance recoverable in future years is Rs. 18,48,974 (including Rs. 4,310 under suspension), of which Rs. 2,27,779 was overdue at the end of the year. The amounts overdue in the districts of Midnapore, Bankura, Dacca, Bakarganj and Tippera are heavy. Of Rs. 58,597 due on account of interest, current and arrear, Rs. 28,566 was collected (including Rs. 277 paid in advance and excess), Rs. 245 was remitted and Rs. 481 suspended, leaving a balance of Rs. 29,582 overdue at the end of the year.

Financial results.

Appendix XIX.

46. The financial results of the working of the Act are shown in Appendix XIX. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 73,349. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 28,566. The amount of principal remitted during the year was Rs. 586 and the expenses connected with the working of the Act during the year amounted to Rs. 9,283. Thus there was a net loss of Rs. 54,652 to the Provincial Government during the year against Rs. 10,030 of last year.

Rent suits (under Act X of 1859) in Revenue Courts.

Appendices XX to XXIII.

47. The number of rent suits instituted in the Revenue Courts in the district of Darjeeling, which is the only district in which Act X of 1859 is in force, was the same as in the preceding year, viz., 107. Including 32 cases pending from the previous year, there were 139 cases for disposal, of which 105 cases were disposed of against 115 of the previous year, leaving 34 pending at the close of the year, none of which were of long standing. Damages were allowed to the plaintiffs in 23 cases against 15 in the preceding year. There was no application for aid in

distraint or in the sale of distrained property, and there were no notices of enhancement or relinquishment during the year. The rent suit registers were inspected by the Deputy Commissioner and no serious irregularities were found.

SECTION IV—RENT.

Working of the Bengal Tenancy Act.

Bengal Tenancy Act.

48. The Bengal Tenancy Act is in force throughout the Presidency except the district of Darjeeling, the Chittagong Hill Tracts and the town of Calcutta.

Relations between landlords and tenants.

49. There was no dispute of outstanding importance between landlords and tenants, but ill-feeling generally attributed to the attempts of landlords to levy illegal exactions has prevailed in portions of several districts, while disputes between rival landlords in Faridpur district over alluvial accretions have led to oppression of their respective tenants.

Issue of rent receipts.

50. Out of 26 cases in which proceedings were taken for failure to grant rent receipts as provided in the Bengal Tenancy Act 24 ended in the imposition of fines and 2 were dismissed.

Working of the Bengal Tenancy Act.

Appendix XXIV.

51. There was a total increase in the number of voluntary transfers which is attributed to the failure of crops, low price of jute and financial difficulties in certain districts.

The Bill to amend the law relating to the transferability of all occupancy holdings is still under consideration. The Bill providing for restrictions on alienation of land by persons belonging to aboriginal tribes has made further progress than the Bill relating to occupancy holdings generally : the Collector of Bankura has again commented on the manner in which the aborigines who brought under cultivation the undeveloped part of the district are being ousted by new comers.

Receipts and payments of landlords' fees.

Appendix XXV.

52. There was a general increase in the payment of landlords' fees as compared with the previous year. The increase was most marked in the Burdwan and Presidency Divisions.

Remittance of rent by special money-orders.

Appendix XXVI.

53. The system of payment of rent by money-order continued in force throughout the Presidency, except in the district of Darjeeling and the Chittagong Hill Tracts. During the year the total number of money-orders issued shows an increase from 61,081 to 62,697, and the aggregate amount remitted from Rs. 10,08,175 to Rs. 10,73,615. There was a decrease from 11,334 to 10,615 in the total number of money-orders refused with a corresponding decrease in the percentage of refusals, which in 1915-16 was 16·9 as against 18·5 in the previous year. The figures vary a good deal from year to year and it is difficult to offer any satisfactory explanation of the fluctuations.

Zamindari *abwabs*.

54. Illegal cesses or *abwabs* known as "*dasturi*," "*tahari*," "*jotedari*," "*gramkharcha*," "*magan*," "*parbani*," "*nazar*," "*shahebnazar*," and "*bhiksha*," are levied in some form or other in addition to stipulated rent throughout the Presidency. Road and Public Works Cesses at more than the usual rate continue to be exacted in the districts of Faridpur and Bakarganj. Tenants as a rule submit to these exactions without much demur, in order to avoid friction with their landlords, and no suit under section 75 of the Bengal Tenancy Act was brought to resist these demands. In some of the districts the settlement and revaluation operations are said to have a good effect in restricting these demands.

SECTION V.

Road and Public Works Cesses.

Road and Public Works Cesses.

55. The following is an account of the working of the Bengal Cess Act IX of 1880 during the year.

Rate of cesses, land revenue demand and gross rental.

56. Except in the Chittagong Hill Tracts where the Act is not in force, the Road and Public Works Cesses continued to be levied at the maximum rate of one anna in the rupee on the annual value of lands and annual net profits of mines and other immovable properties. The current demand of land revenue for the cess-paying districts is Rs. 2,75,86,463 and the annual valuation or gross rental on which the cesses are based amounts to Rs. 12,07,84,485. The land revenue thus works out at 22·8 per cent. of the rental.

Demands, collections, balances and remissions.

Appendix XXVII.

57. The accounts of both the cesses have been shown in detail in Appendix XXVII. The subjoined table shows in abstract form the accounts for the last two years :—

Year.	Demand.			Collections.	Percentage of total collections on current demand.	Balance.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arrear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
Year ending 31st March 1915 ...	64,45,337	7,38,468	71,83,805	62,49,346	96·9	9,31,620	12·9	35,394
Year ending 31st March 1916 ...	66,58,825	9,31,804	75,90,629	67,01,964	100·6	10,18,339	13·4	21,012

As compared with the previous year, there was an increase of Rs. 2,13,488 in the current demand. The increase which was due to valuations and revaluations and to the annual revision of assessment of mines was most prominent in the districts of Jalpaiguri (52,844), Burdwan (52,769), Faridpur (25,006), Dacca (24,589), Dinajpur (23,260) and Bakarganj (10,462). It is satisfactory that taking the Presidency as a whole, the percentage of collections rose from 96·9 to 100·6. The total outstanding balance of the year was Rs. 10,18,339 or 13·4 per cent. of the total demand against Rs. 9,31,620 or 12·9 per cent. in the previous year. The remissions decreased from Rs. 35,394 to Rs. 21,012.

58. As will be seen from the percentages noted on the margin, the collections in 14 out of 25 districts in the Presidency attained the standard of 100 per cent. or more on the current demand. Of the remaining districts the standard was nearly reached in Jalpaiguri (99·7), Nadia (99·5), Khulna (99·3), Noakhali (99·2), Chittagong (98·3), Burdwan (97·6) and Dinajpur (97·6). In Bankura (93·0) and Tippera (91·6) the decline was due to the distress prevailing in those districts. No explanation has been offered for the comparatively short percentages in Dacca (94·1) and Bakarganj (96·3).

Percentage of collections in districts.

(1) Midnapore ...	109·3
(2) Hooghly ...	105·7
(3) Faridpur ...	105·7

(13) Malda ...	100·5
(14) Darjeeling ...	100·2

Sums barred by limitation.

59. During the year no arrears of cess demand became barred by limitation in any of the districts of the Presidency except in Khulna where an insignificant amount (less than two rupees) became time barred.

60. The number of certificates filed for the realization of cess arrears was *50,814*, as against *40,669* in the previous year. There was a noticeable increase in the number of institutions in the 24-Parganas (2,899), Faridpur (1,162) and Chittagong (4,060). The increase in the 24-Parganas was due to the realization of arrears in regard to the rent-free lands which were formerly under direct collection but have recently been amalgamated with their parent estates. In Faridpur, it was owing to the defaults caused by the depression in the jute market and the ignorance of the proprietors as to the demands fixed by the recent revaluation. In Chittagong, a large number of certificates was filed for petty arrears with a view to avoid limitation. Including 13,225 certificates pending from the previous year, the total number of certificates for disposal came to 64,039. Of these 49,262 or 76·9 per cent. were disposed of leaving 14,777, as against 13,204 at the end of the preceding year. The number of cases pending over six months was 1,059. As mentioned in paragraph 18 of this report the Board has urged the Commissioners to see that the old cases are disposed of as early as possible.

Working of the certificate procedure.

Appendix XXVIII.

61. The total number of objections filed and disposed of was slightly lower than in the previous year being 2,687 and 2,584, as against 2,804 and 2,690, respectively. In 70 cases, compared with 434 cases of the preceding year, the certificates were cancelled on such grounds as double assessment, death or desertion of certificate-debtors, non-registration of names, payment of dues before the issue of certificates, etc.

Objections against certificates.

62. The mere issue of preliminary notices was sufficient to secure payments in 11,478 cases, while notices for the attachment of property, movable or immovable, induced payment in 26,636 cases. Sales actually took place in 2,110 cases as against 687 of the previous year. The increase was most marked in Hooghly and was chiefly due to the difficulty in recovering cesses from the owners of rent-free lands.

Stages of procedure at which demands were satisfied.

63. Detailed information regarding valuation and revaluation operations which are not conducted by the agency of the Settlement Department are shown in Appendix XXIX. Revaluation operations under the control of the Settlement Department were in progress in the districts of Dacca, Noakhali (except pargana Nij Sundip) and Rajshahi and completed in Faridpur and Jalpaiguri. During the year revaluations on an extensive scale under the ordinary procedure were brought to a close in the district of Khulna. The revision proceedings in Bakarganj are in progress. The annual assessment of coal mines in the Asansol subdivision of the Burdwan district resulted in an increase of more than 5½ lakhs in the valuation.

Valuations and revaluations.

Appendix XXIX.

64. Appendices XXX and XXXI exhibit the statistics relating to the opening of separate accounts under the Cess Act. During the year 958 separate accounts were opened with a cess revenue of Rs. 58,182 in regard to revenue-paying estates, the total number of such accounts at the end of the year being 47,520, with an aggregate cess demand of Rs. 11,70,449. As to revenue-free estates, 18 accounts with a cess revenue of Rs. 934 were opened, the total number of such accounts remaining open at the close of the year being 654 with a demand of Rs. 22,285.

Separate accounts for revenue-paying and revenue-free estates.

Appendices XXX and XXXI.

65. The number of revenue-paying and revenue-free estates assessed to cesses shows an apparent decrease from 1,48,209 and 31,137 to 102,272 and 30,378, respectively, owing mainly to instructions issued by the Board in December last to show in the appendix the actual number of estates as defined in section 4 of the Cess Act, 1880, and not the number of separate accounts opened for cess. Owing to amalgamation there was a decrease in the number of rent-free lands kept under direct collection. The increase in the number of tenures was due to the discovery of their existence in the course of revaluation proceedings.

Estates, tenures and shareholders.

Appendix XXXII.

The statistics of recorded share-holders and tenures have been excluded from the appendix as unnecessary

Gross rental.

Appendix XXXIII.

66. The gross rental of the Presidency was 12 crores against 11½ crores of the previous year and 7½ crores at the time of the initial valuation under the old Road Cess Act of 1871.

Miscellaneous.

67. Pending orders on the recommendations of the Bengal District Administration Committee it has been decided that the question of the amendment of the Cess Act in regard to the surrender of the Public Works Cess to District Boards should be deferred for the present and taken up simultaneously with any amendment of the Local Self-Government Act which may be rendered necessary if some of the recommendations of the District Administration Committee are adopted. The provisions of the Cess Bill which related to the delegation of powers have been included in the Bengal Decentralization Act, 1915.

SECTION VI.

Miscellaneous.

Processes.

Appendix XXXIV.

68. Appendix XXXIV shows the number and cost of service of all processes, revenue and criminal, served through the Revenue Nazarat. The total number of processes served was 8,89,359 against 8,95,993 in the preceding year. The process fees realized amounted to Rs. 3,48,629 against Rs. 3,55,320 in the preceding year and the total cost of service, including the pay of the supervising establishment debitable to land revenue, was Rs. 2,36,022 against Rs. 2,39,756 in the previous year. In the districts of Nadia, Jessore, Khulna, Bogra, and Pabna the cost of process-serving establishment exceeded the receipts from fees. The system of fines and rewards for bad and good work is reported to have generally worked well.

69. The system of serving processes by *dafadars* through President Panchayats was in force in the districts of Hooghly, Dacca and Tippera, in the Sadar and Kalna subdivisions of the district of Burdwan, in the Sadar subdivision of the district of Birbhum, in the Sadar, Barasat and Barrackpore subdivisions of the district of the 24-Parganas, in the Ranaghat, Chuadanga and Meherpur subdivisions of the district of Nadia, in the Lalbagh subdivision of the district of Murshidabad, in the Magura subdivision of the district of Jessore and in the Bagerhat and Satkhira subdivisions of the district of Khulna and also in Kotwali and Gangchara thanas in the district of Rangpur during the year. The system is reported to have worked satisfactorily in all these places except in the Sadar and Barasat subdivisions of the district of the 24-Parganas and in the Magura subdivision of the district of Jessore.

In Midnapore one process-serving peon was dismissed for delay in crediting amounts realized by him under warrants and another was prosecuted for the same offence under section 409, Indian Penal Code, with the result that he was convicted and sentenced to 10 months' rigorous imprisonment. The peon of the Contai subdivisional office, who was under trial for misappropriation, as reported last year, was acquitted by the trying Magistrate. At Madaripur in the district of Faridpur one process-server was dismissed and another was suspended for three months for misconduct, and in Malda one peon was dismissed for taking an illegal gratification.

Records.

70. The total amount sanctioned by Government during the year 1915-16 for the maintenance of record-rooms in the Presidency in efficient order was Rs. 25,000. This amount was allotted according to the requirements of district and Commissioners' record-rooms and the Board's record-room.

The reports of Commissioners show that the rules laid down in the Records Manual are generally observed.

The provision of accommodation for the record-of-rights in the districts of Bakarganj, Faridpur and Dacca has been engaging the attention of Government and of the local officers: in Bakarganj the settlement records are still kept in a building separate from the remainder of the Collectorate records. Want of funds delays the schemes for new record-rooms in Faridpur and Dacca, and, until additional accommodation can be provided, the records will continue to be kept apart in the hired buildings used by the Settlement Department.

Libraries.

71. The libraries in all the districts and in all the subdivisions are reported to be generally in good condition. The revision of the catalogues of books was completed during the year in some district and subdivisional libraries, while it is in progress in others. In some districts difficulty is experienced for want of accommodation.

Treasure Trove Act, VI of 1878.

72. There were two cases in Khulna under the Treasure Trove Act, one in thana Sarankhola and the other in thana Kaliganj. In Sarankhola 104 old silver coins bearing Persian inscriptions were found buried underground and were acquired under the Act. In Kaliganj 131 old silver coins were found and sent to Government for examination. The case which was reported last year relating to 285 silver coins of the time of Shah Alam found in Rajshahi, was disposed of during the year under report. The coins were forfeited and sent to the Calcutta Museum.

Personnel—

Of the Board.

73. The office of the Member of the Board of Revenue, Bengal, was held by the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., from 1st April to 9th July 1915 and by the Hon'ble Mr. F. J. Monahan for the rest of the year.

Of Commissioners.

74. The following Commissioners held office during the year :—

Burdwan Division.—Mr. D. H. Lees was in charge throughout the year.

Presidency Division.—The Hon'ble Mr. F. J. Monahan held charge till 9th July 1915 and the Hon'ble Mr. J. Lang for the remaining period of the year.

Dacca Division.—Mr. F. C. French was in charge of the Division from 1st April to 24th October 1915 and again from 14th November 1915 to 31st March 1916. Mr. S. G. Hart was in charge from 25th October to 13th November 1915.

Chittagong Division.—Mr. J. Lang was in charge from 1st April to 30th June 1915, when he left on transfer, making over charge to Mr. A. H. Clayton, who held office till 29th December 1915. Then he was relieved by Mr. E. Geake, who held charge till the end of the year.

Rajshahi Division.—Mr. N. Bonham-Carter was in charge from 1st April to 23rd May 1915 and Mr. H. F. Samman held charge during the remainder of the year.

Tours and inspections.

Of the Member of the Board.

75. In April 1915 the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., went to Chinsura and inspected the Burdwan Commissioner's office and paid a visit to the Rishra Basti. In the following month, on his way to Darjeeling, he halted at Jalpaiguri and inspected the Deputy Commissioner's office there on the 13th. He visited Kalimpong on the 24th and 25th June 1915 to discuss matters connected with the scheme for its development as a hill station. The Hon'ble Mr. F. J. Monahan left on the evening of the 24th July for Dacca, where he enquired into various matters in connection with the management of wards' estates, returning to headquarters on the 29th. From the 24th to the 29th October he toured in the Kalimpong Government Estate, halting at Kalimpong and Pedong, inspected the Manager's office, and made enquiries with regard to the proposed development of Kalimpong station and the establishment of a subdivision there. He then proceeded to Jalpaiguri where he inspected the Deputy Commissioner's office enquiring specially about the introduction of the new settlement of the Western Duars, and the proposal for the entertainment of a Land Records staff. In December, he went to Chittagong, where he

inspected certain departments of the Commissioner's office, thence to Comilla, Brahmanbaria and Sarail. At Comilla he inspected the Collector's office, and at Sarail he inspected the office of the Manager of the ward's estate and discussed with the Commissioner and the Collector the questions of reducing the cost of management and of expenditure from the funds of the estate on the relief of distress caused by the floods. The Hon'ble Member again left Calcutta on the 20th January 1916 on an inspection tour and visited Chinsura, Burdwan, Midnapore, and Contai, returning to Calcutta on the 29th idem. He inspected portions of the Commissioner's office at Chinsura and the Collectors' offices at Chinsura, Burdwan, Midnapore, and at Contai inspected the subdivisional office, and enquired into the management of the Government Estate. His last inspection tour during the year was from the 16th to the 23rd of February in the Bakarganj district, during the course of which he visited Barisal, Patuakhali and Bhola, and the "colonization area" in the south of the district, enquiring specially into the administration of khas mahals in the district and the progress of cess revaluation.

Of Commissioners.

76. Mr. Lees, as Commissioner of the Burdwan Division, spent 143 days on tour inspecting all the district offices under his charge and all subdivisional offices except Kalna, Katwa and Rampur Hat, which were inspected late in the previous year. He spent 38 days on tour in Bankura and visited those parts where scarcity prevailed. The Hon'ble Mr. Monahan, while Commissioner of the Presidency Division during the first quarter of the year, inspected the Calcutta Collectorate and the Income Tax Office. Mr. J. Lang was on tour for 61 days in the Presidency Division and made detailed inspections of all the Collectorates and most of the subdivisional offices. During his tours, he also inspected Municipal offices, District Board works and schools, thanas, and other public institutions. The tours of the Commissioner of Dacca extended altogether to 81 days, of which Mr. Hart contributed 5 and Mr. French the rest. The latter visited the district headquarters of Dacca, Mymensingh and Faridpur and seven subdivisions and the areas in the east of the Mymensingh district which suffered from flood. The number of days spent on tour by the Commissioner of the Chittagong Division was 148, of which Mr. Lang contributed 33 days, Mr. Clayton 61 days and Mr. Geake 54 days. During these tours all the district and subdivisional offices, the Superintendent's office at Rangamati, several villages in the districts of Tippera and Noakhali affected by the flood of the Gumti river and several other places in the interior of the Chittagong district were visited. The total number of days spent on tour by the Commissioner of the Rajshahi Division was 185, of which Mr. Bonham-Carter contributed 17 and Mr. Samman the rest. All the district offices and three subdivisional offices were inspected during the year. Some Municipal Offices and many other public institutions were also inspected.

Of District and Subdivisional Officers.

77. The District fficers all made adequate and useful tours, in the course of which important enquiries were made as to the state of crops and other local conditions. They visited most parts of their respective districts, inspected local institutions and attended to all important matters connected with the administration. They inspected their own offices including district treasuries at headquarters. With a few exceptions, all the subdivisional offices and sub-treasuries were also visited by their respective District Officers.

The tours and inspections of Subdivisional Officers were on the whole adequate and satisfactory.

I have the honour to be,

SIR,

Your most obedient servant,

J. A. L. SWAN,

Secretary.

APPENDICES.

APPENDIX

APPENDIX XXIX.

[*Vide* paragraph 63 of the text.]

Statement of Valuation and Revaluation work in progress or completed during the year ending 31st March 1916.

Divisions.	Districts.	Description of area under revaluation.	Assessment before revaluation.	Progress during the year.	Total progress up to the end of the year.	Amount of work left at the close of the year.	Increase or decrease due to revaluation up to the end of the year.	Percentage of increase of assessment.	Remarks.
1	2	3	4	5	6	7	8	9	10
			Rs.				Rs.		
Burdwan ...	Midnapore ...	135 estates and 20,596 tenures. The area under revaluation is about 789 sq. miles.	36,784	20 estates and 8 tenures.	38 estates and 10 tenures.	97 estates and 20,586 tenures.	6 decrease	*Vide* column 7 ...	This partial revaluation was resumed from August 1915. The work is expected to be completed by the 31st January 1917. Babu Jiban Chandra Chatarji, Deputy Collector, was in charge from 1st August 1915 to 13th September 1915. Babu Satyesh Chandra Gupta, Sub-Deputy Collector, is in charge from 14th September 1915.
	Hooghly ...	26 rent free lands valued under section 67 of the Cess Act.	New assessment	26	26	Completed	528 increase ...	*Vide* column 4.	
		152 estates and 2,322 tenures	3,63,719 (valuation).	152 estates and 2,322 tenures.	152 estates and 2,322 tenures.	Ditto	47,472 do. ... (valuation).	13·05	
Presidency ...	Nadia ...	3 estates	New assessment	Notice under section 17 issued.	Notice under section 17 issued.	3 estates	*Vide* column 5 ...	*Vide* column 5 ...	The valuation of these three estates, which were omitted at the last revaluation, was sanctioned by Commissioner under section 37.
	Murshidabad	9 rent-free lands	New assessment	9 rent-free lands ...	9 rent-free lands ...	Completed	15 increase	*Vide* column 4.	
	Khulna ...	General revaluation of 7,769 estates and 38,204 tenures 2,340 square miles.	1,09,975 of 7,631 estates.	67 estates and 18,788 tenures.	7,769 estates and 38,204 tenures.	Ditto	22,190 increase ...	20·18	The decrease in the number of estates is reported to be due to the exclusion of certain revenue-paying estates from valuation and revenue-free estates with an annual value of less than Rs. 5. This also accounts for the decrease in area. The increase in the number of tenures is due to the extension of cultivation owing to clearance of jungles. The work commenced in April 1913, and completed on 31st January 1916. The assessment took effect from 1st April 1916. The completion report has been received. Babu Surendra Chandra Acharji, Sub-Deputy Collector, was in charge of the operations.

REVENUE DEPARTMENT.

LAND REVENUE.

DARJEELING, THE 24TH OCTOBER 1916.

RESOLUTION—No. 1827T.—R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year 1915-16.

THE Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., held charge of the office of Member of the Board of Revenue from 1st April to 9th July 1915, and the Hon'ble Mr. F. J. Monahan for the rest of the year.

2. **General conditions of the year.**—The material condition of the people was on the whole not very satisfactory. With the rise in the price of jute there was some improvement in the condition of the cultivating classes except in certain parts of the province, where distress prevailed on account of drought or floods, notably in the districts of Bankura, Tippera, Mymensingh and Noakhali. The failure of crops was most serious in the district of Bankura, where the distress was acute during the latter part of the year. The measures taken to relieve the distress in the four districts named above included the opening of relief-works and the grant of gratuitous relief and of advances under the Agriculturists' Loans Act and the Land Improvement Loans Act. The total amounts advanced under these Acts during the year were Rs. 15,78,340 and Rs. 1,65,762, respectively, of which the greater part was advanced in these four districts.

The tea industry was in a very flourishing condition during the year and the outturn of jute was fairly good, while the coal-mining industry in the district of Burdwan was adversely affected by the war in the early part of the year.

3. **Land Revenue demand and collection.**—The current demand was Rs. 2,76,02,163, the increase of Rs. 2,34,632 over the previous year being due mainly to new settlements, re-settlements and progressive increase of demands in temporarily settled and Government estates. The total collections amounted to Rs. 2,78,14,846, being 100·97 per cent. of the current demand and 93·82 per cent. of the total demand. Of the total remissions amounting to Rs. 73,727 granted during the year, the major portion was allowed in estates held direct by Government.

4. **Road and Public Works Cesses.**—The current cess demand showed an increase of Rs. 2,13,488, due to valuations and revaluations and to the annual revision of the assessment of mines. The percentage of total collections on the current demand rose from 96·9 to 100·6, and 14 districts against 3 in the previous year attained the standard of 100 per cent. on the current demand.

Valuations or revaluations, partial or complete, were made in 11 districts out of the 25 districts to which the Act applies and were completed in 7. In the districts of Dacca, Faridpur, Rajshahi, Jalpaiguri and Noakhali revaluation operations were conducted by the Settlement Department. Revaluations on an extensive scale under the ordinary procedure were completed in Khulna. The question of the modification of the special procedure for making cess revaluations simultaneously with the preparation of the record-of-rights is still under the consideration of this Government. In connection with valuations, it is reported by the Board that the approximate gross

rental of the province now stands at 12 crores of rupees. It is interesting to note that the total sum paid as land revenue and as the landlords' share of cesses is about 3 crores of rupees. It follows that the gross income of the landlords of all grades is 9 crores. Their nett income, after deducting collection expenses, may be placed at 8 crores.

5. **Revenue money-orders.**—There was a decrease in the number of special money-orders issued during the year for remittance of land revenue and cesses, due to the introduction of a combined form of money-order for remittance of both land revenue and cesses, while the amount covered by the money-orders increased from Rs. 18,04,024 to Rs. 19,79,301.

6. **Coercive measures.**—The number of estates which defaulted in the payment of land revenue and became liable to sale was 12,498, or over 1,200 less than that of the previous year. Only 1,087 estates were actually sold. The number of certificates filed, inclusive of those on account of cess, was 96,639 against 95,644 in the preceding year. There was a decrease in the number of revenue certificates which was shared by many districts and was due to various local causes, while the cess certificates showed an increase chiefly in the 24-Parganas, Faridpur and Chittagong. The number of cases pending at the close of the year shows an increase over that in the previous year. In the majority of cases payments were made on the issue of notices or on attachment of property, and it was necessary to resort to actual sale in only 3,954 cases, or 4·3 per cent. of 90,431 cases disposed of during the year.

7. **Condition of the raiyats in Government estates and expenditure on improvements and education.**—Except in the areas affected by excessive rainfall and by floods, the condition of the tenants was on the whole satisfactory. The total number of estates under direct management, including those of private individuals managed by Government, was 2,272, with a current demand of Rs. 41,88,602. A sum of Rs. 78,002 was spent on miscellaneous and sanitary improvements, more than half being devoted to drainage, irrigation and embankments. The expenditure on education amounted to Rs. 65,851. There were 2,293 schools attended by 76,570 pupils in the Government estates of the Presidency. The expenditure on roads and communications in Government estates amounted to Rs. 3,07,305, of which Rs. 69,559 were paid out of the Government 1½ per cent. grant, the balance being met from local funds.

8. **Waste lands.**—The rules for the grant of waste land leases in the 24-Parganas and Khulna portions of the Sundarbans remained in abeyance. An experiment in raiyatwari settlement is being made in the resumed lot Mansadwip 2nd portion in Saugor island; and the reclamation of lot Shikarpur 2nd portion in that island has been undertaken with the object of making the lot fit for raiyatwari settlement. In the area under colonisation in the district of Bakarganj, 416 new colonists settled on 24,070 bighas of land, against 535 colonists on 31,560 bighas in the preceding year.

9. **Drainage, irrigation and embankments.**—No new drainage or irrigation projects of importance were undertaken during the year. The scheme for improving the drainage of the Contai subdivision of the district of Midnapore is still under consideration, and that for the drainage of the Amta basin in the district of Howrah has been postponed on financial grounds. The work of raising certain portions of the Damodar left embankment was completed. The Gumti embankments in the district of Tipperah, which are maintained by the zamindars, gave way in several places and flooded an area of about 50 square miles and destroyed all standing crops. As a result of a conference held at Comilla to consider schemes for the improvement or removal of the embankments, it has been decided that, pending the construction of storage reservoirs or escapes, the embankments should be maintained in an efficient condition, and that their height should be not less than that which existed when the Assam-Bengal Railway was under construction.

10. **Partitions.**—Forty-six cases were instituted during the year and 275 were pending at the close of the preceding year. Forty-eight cases, including 13 struck off for various reasons, were disposed of, leaving 273 pending at the end of the year.

11. **Working of the Bengal Tenancy Act.**—The Bengal Tenancy Act continued on the whole to work well. The levy of abwabs or illegal cesses by the landlords and the failure to grant rent-receipts has not, however, ceased, though in some districts the settlement and revaluation operations are said to have considerably restricted illegal demands.

There was an increase in the number of rent money-orders issued and in the amount covered by them. The percentage of money-orders refused by landlords fell from 18·5 in the preceding year to 16·9 during the year under report.

The Bill to amend the law relating to the transferability of occupancy holdings is still under the consideration of this Government.

12. The thanks of Government are due to the Board for its efficient administration of the Land Revenue Department during the year.

By order of the Governor in Council,

L. BIRLEY,
Secretary to the Govt. of Bengal.

No. 8582.

COPY forwarded to the Secretary to the Board of Revenue, Bengal, for the information of the Board.

No. 2702 Misc.

FROM J. A. L. SWAN, ESQ., I.C.S.,
Secretary to the Board of Revenue, Bengal.

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,
REVENUE DEPARTMENT.

Dated Calcutta, the 3rd August 1917.

SIR,

I AM directed to submit the report on the Land Revenue Administration of the Presidency of Bengal for the year ending the 31st March 1917. The Divisional reports were submitted to the Board with commendable punctuality.

SECTION I.

General conditions of the year.

Material condition of the people.

2. In the Burdwan Division the rainfall was deficient in the beginning of the year but subsequently increased, and towards the end of the season in September and October, excessive rainfall caused floods of the Damodar, Ajay and Hinglo rivers. The circuit embankments in the Ghatal subdivision of Midnapore were breached and the standing crops over a large area were damaged. The floods in the Ajay and Hinglo caused serious loss of property and crops in parts of the Sadar and Katwa subdivisions of Burdwan and the Sadar subdivision of Birbhum. Prompt and adequate measures were taken to relieve distress by giving gratuitous relief and advancing loans. In Bankura famine conditions prevailed during the first half of the year and prices of food-grains ruled high up to the end of November. The price of rice began to fall after the harvest began, and difficulties of transport, which prevented export of grain, helped in keeping the price down. The demand for labour, both skilled and unskilled, was steady. The construction of the Ahmadpur-Katwa and the Bankura-Damodar Railways and the factories and coal mines provided employment for a large number of men in Burdwan and Birbhum. The health of the people was good.

In the Presidency Division the material condition of the people was, on the whole, fair except in the Meherpur subdivision of Nadia and in the district of Khulna. In the 24-Parganas the outturn of crops was not much below the normal and winter rice yielded a fairly good harvest. In Nadia, crops at first suffered from want of timely rainfall and later from excessive rainfall. The cyclonic storm of September did much damage to autumn rice and sugarcane. In the Meherpur subdivision the short outturn of crops was specially felt. In Murshidabad, the outturn of *bhadoi* and *kalai* crops was not good, but that of winter paddy and *rābi* crops was satisfactory. There were heavy floods in the north and east of the Jessore district and in parts of Khulna in September. Trade especially in jute suffered from the effects of the war and the prices of imported articles

ruled high, but in the case of cultivators, labourers and artisans, the effect was to some extent counterbalanced by the better prices obtained for their produce and by higher wages. The people who most felt the stress of prices were the landless middle class *bhadralog* with small limited incomes. The general health was on the whole good.

The major portion of the population in the Dacca Division depends on agriculture. The principal crops are jute and rice. The outturn and prices of both were, on the whole, normal during the year though in certain tracts the rice crop was damaged by "ufra" for which no effective remedy has yet been found. The rainfall was sufficient and generally well distributed. The material condition of the people, specially of the cultivating classes and agricultural labourers, was satisfactory. The general rise in the prices of salt, sugar, cloth and other imported articles owing to the war, affected the middle class, who depend on fixed incomes. Owing to poor outturn of the principal crops, *boro* and broadcast *aman* paddy, the condition of the people of Khaliajuri and the eastern part of Kendua in the district of Mymensingh was not satisfactory. Measures were taken to relieve the stringency by the distribution of agricultural loans. A sum of Rs. 17,204 was distributed during the year. In Bakarganj, the year under report began with the bumper winter rice crop of the previous year. The heavy flood of September 1916 and excessive rain thereafter caused considerable damage to the winter rice crop in the low-lying tract of the district, specially in Patuakhali subdivision and in some of the khas mahal estates in Pirojpur and Bhola. A sum of Rs. 19,000 was allotted to this district for distribution as agricultural loans among the tenants of the affected areas. The tenants of the two Government estates, viz., Chaora and Kukua, were the worst sufferers of all. Suspension of rent and cesses to the extent of about Rs. 21,000 in these two estates was therefore sanctioned. Trade is seriously hampered by the want of shipping and by the restriction on imports of European goods, and on exports of jute and hides. The increasin proportion of bazar goods imported from Japan is a matter to be noted. There was no epidemic and the general health of the people was on the whole good owing to the high floods during the rains.

The condition of the people of the Chittagong district was on the whole prosperous. Owing to inadequate rain at the sowing time and the drought in the rainy season the *aus* crop was very injuriously affected in the Sadar and Brahmanbaria subdivisions of the Tippera district. The *aman* crop was, however, exceedingly good, except in the Kotwali thana, where the entire crop was destroyed by the breaches in the Gumti Embankment in October 1916. Agricultural loans amounting to Rs. 10,000 were distributed to the worst sufferers. The material condition of the people of Noakhali was very good, except in about 50 square miles of the Feni subdivision which suffered from floods. Relief works were necessary from April to July 1916. Rupees 68,000 was advanced as agricultural loans and Rs. 10,000 lent by the Co-operative Banks. In the Chittagong Hill Tracts the sowing of *jhums* was delayed by insufficient rain and the scarcity of seeds, but the prospects were favourable till the end of the season. Heavy rain in the end of September and early October did considerable damage to cotton and mustard and also to the paddy crop of *jhums* that were sown late. The health of the people was generally good.

The population of the Rajshahi Division consists mainly of agriculturists, the principal crops being rice, jute, tea and tobacco. The outturn of winter rice was generally good. The material condition of the people was on the whole satisfactory, but as in the previous year the high prices of food and other necessaries told severely on the lower middle classes and others with small fixed incomes. The Collector of Pabna reports that the condition of the cultivating classes continued to be adversely affected by the disorganization of the jute trade caused by the European war. In the hill portion of the Darjeeling district the outturn of crops is reported by the Deputy Commissioner to have been below the normal and the fluctuations in the cardamom market caused some loss to the cultivators. Public health is reported to have been generally good and in some districts much better than in the previous years.

Economic development.

3. The coal mines and the factories in the Burdwan district and the mills and factories in the Hooghly and Howrah districts, had a prosperous year. The minor industries, such as silk, *tasar* and cotton weaving, brass and bell metal manufactures, in all the districts of the Burdwan Division were depressed owing to the difficulty in procuring raw materials. There has been some expansion of mulberry cultivation and silk weaving in Birbhum, owing to the rise in the price of silk caused by the war. The number of rice mills in Burdwan is increasing. The Commissioner of the Presidency Division reports that the war has affected economic progress in many complex ways. The stoppage of the supply of sugar from abroad gave an impetus to the sugar industry in the Basirhat subdivision of the 24-Parganas where some ten factories were started and all did good business. In Murshidabad there was a slightly better demand for local silk than in the preceding year. The Comb Factory at Jessore is said to promise well now that the Superintendent is in a position to make his own celluloid. A branch of the Bengal Home Industries Association has recently been started in the Jessore district. The three oil mills at Jhalakati, Nalchiti and Bhola in the Bakarganj district, continued to work, but are handicapped to some extent by the difficulty in procuring old kerosine oil tins for storage of oil. The whole outturn is consumed locally. The Commissioner of Dacca visited the Nalchiti oil mill with the Collector, and found that it was being conducted in an efficient and businesslike manner. Owing to the rise in the price of sugar, the cultivators of Bakarganj are now alive to the advantage of using date sugar and they tapped most of their trees during the last cold weather. In Faridpur, molasses were extensively prepared from date juice and sugarcane as in previous years. In Chittagong, a large brig with a carrying capacity of 22,000 maunds was built and launched during the year and has since been sent to Ceylon. A fresh motor service from Chittagong town to *Nazir's* Hât, a distance of 22 miles, has been started. The cotton ginning mill, the Shalimar works of Messrs. Turner, Morrison & Co., the tinning factory of Messrs. Jamal Brothers and the Burma Oil Company worked as usual during the year. Jute baling is the most important and prosperous industry in the district of Tippera. There is a large export trade in fish from Ashuganj in the Brahmanbaria subdivision. Export of jute and betelnuts was a lucrative business in the district of Noakhali, but the export of poultry and eggs suffered considerably owing to the difficulties in transport. The *khuiye* (betelnut leaves) industry flourished. A manual training class has been started in connection with the High English School in the Chittagong Hill Tracts and the Collegiate School at Chittagong. It is reported that in Rajshahi Division there is very little organized industry except in the case of tea, which is confined to the districts of Jalpaiguri and Darjeeling. The crop was good, and the industry did fairly well, but suffered somewhat owing to the want of facilities for export The ganja manufacture in Naogaon gave employment as usual to both skilled and unskilled labour. Owing to the high price of silk, the spinning industry in Malda flourished throughout the year. In Rajshahi there are only two small factories for reeling silk cocoons, while in Bogra the silk industry is confined to a small number of people in and round Bogra town. The nursery at the Government Sericultural Farm which supplies seed cocoons to the nurseries at Malda, Murshidabad, Birbhum and Rajshahi as well as to local rearers is reported to be doing good work. The rice husking mill at Hilli made a fair profit. The Deputy Commissioner of Darjeeling reports that in the Terai one rice and oil mill and two rice mills worked satisfactorily. The co-operative movement is doing useful work in several districts of the Division.

Emigration and immigration.

4. Except in the Chittagong Division there was no permanent inter-district emigration and immigration. The aboriginal tribes of Birbhum, Bankura and Midnapore migrated temporarily for work in the neighbouring districts and in the Sunderbans. A large number of people of the labouring classes also came from other provinces for employment in mills and brickfields in the Hooghly and Howrah districts. Emigrants for the Tea Districts Labour Supply Association were recruited from Bankura and Midnapore districts.

In the Presidency Division there was during the harvest season the usual movement of labourers from one district to another in quest of employment and a large number of men from other provinces was employed in brickfields, mills and railways. In the Dacca Division there was the usual influx of up-country labourers and also the temporary immigration of landless labourers from the districts of Dacca, Faridpur, Noakhali and Tippera for the rice harvest in Bakarganj. From the Chittagong Hill Tracts 390 families migrated to Hill Tippera, 146 to Chittagong, 132 to Arracan and 57 to the Lushai Hills. It is reported that on hearing the rumour that men were wanted for the coolie corps about 150 families fled from the Chakma circle of the Hill Tracts to Hill Tippera. On the other hand, 668 families immigrated into the district, of which 356 families came from Hill Tippera, 182 from Lushai Hills, 128 from Chittagong and 2 from Arracan. Fifty-seven families migrated from the Cox's Bazar subdivision of the Chittagong district to Arracan, while 7 families immigrated into it. A number of men from Chittagong and Noakhali have gone to Basra for work in the newly occupied territories of Mesopotamia. In Jalpaiguri and Darjeeling there was the usual influx of upcountry labourers, Nepalese and Paharias to work as coolies in the tea gardens. Upcountry coolies also came in large numbers to Rangpur, Bogra and Malda, in quest of employment during the harvest season. A large number of coolies was also employed by the Railway Department for construction work on the Santahar-Parbatipur Broad Gauge Extension and for transhipment work at Santahar.

SECTION II.

Collection of Land Revenue.

Statistics of estates on the tauzi-roll and their demand, collections, remissions and balances.

Appendix I.

5. The total number of estates paying land revenue was 97,607 against 97,472 in the previous year. Of these, 91,895 were in class I (permanently-settled estates), 3,429 in class II (temporarily-settled estates) and 2,283 in class III (estates held direct by Government). The net increase of 135 estates was due mainly to partitions of estates in class I and to the creation of new estates by resumptions and settlements.

6. The total current demand of the year amounted to Rs. 2,77,87,002, showing an increase of Rs. 1,84,839, as compared with the previous year. The increase was due mostly to new settlements, re-settlements and progressive increase of demands in temporarily-settled and Government estates. The total realizable demand of the year, including the arrear, Rs. 18,02,799, was Rs. 2,95,89,801, out of which the collections amounted to Rs. 2,77,47,134, being 93·77 per cent. of the total and 99·85 per cent. of the current demand as against 93·82 and 100·97 per cent., respectively, in the previous year. As noticed in the previous year's report a large sum (Rs. 2,75,361) could not be credited to land revenue in Bakarganj pending disposal of a civil suit against Government and a further sum of Rs. 1,38,176, though collected within the year, could not be credited in the accounts of the year. The total remissions granted amounted to Rs. 72,710 against Rs. 73,727 in the previous year. The bulk of the remissions was allowed, as usual, in estates held direct by Government, for such causes as failure of crops, diluvion of land, non-settlement of holdings and errors in accounts. The total outstanding balance amounted to Rs. 17,69,957, being 5·98 per cent. of the total demand, against the corresponding figures of Rs. 17,55,919 and 5·92 per cent., respectively, in the previous year. Almost the whole of this balance is reported to be in process of recovery.

Permanently-settled estates.

Appendix IA.

7. The total demand of the permanently-settled estates amounted to Rs. 2,17,74,732 (Rs. 2,15,78,338 current and Rs. 1,96,394 arrear), of which Rs. 2,15,52,983 or 98·98 per cent. was collected. The current collections reached 98 per cent. or more in all districts except Bakarganj (96·92). The deficiency in that district was chiefly due,

as in previous years, to short payments made in respect of the estate of the late Raja Sir Sourindra Mohan Tagore, under the management of the Court of Wards, on account of its bad financial condition.

Temporarily-settled estates.

Appendix IB.

8. The temporarily-settled estates are divided into three sub-classes : (1) private estates settled with proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers. The total collections from all these three classes amounted to Rs. 17,22,672, respresenting 97·36 per cent. of the current demand, Rs. 17,69,328, against 100·48 per cent. in the previous year. A balance of Rs. 4,05,604 remained unrealized at the close of the year. The current collections fell short of the prescribed standard in six districts. Of these, Bakarganj showed a very large outstanding balance the reason for which has been explained in paragraph 6 above.

Estates held direct by Government.

Appendix IC.

9. The estates held direct by Government comprise two sub-classes : (1) estates belonging to private proprietors but managed by Government and (2) those owned by Government as proprietor. The total demand of these estates amounted to Rs. 56,85,582 (current Rs. 44,39,336 and arrear Rs. 12,46,246), of which Rs. 44,71,479 (current Rs. 36,59,580 and arrear Rs. 8,11,899) or 78·64 per cent. was collected, Rs. 71,203 remitted and Rs. 11,42,900 left unrealized at the close of the year. A sum of Rs. 1,07,055 was collected during the year, but could not be credited in the accounts. The current collections showed better results, being 82·43 per cent. of the current demand against 80·01 per cent. in the previous year. The falling off in the percentage of arrear collections from 71·95 per cent. in the previous year to 65·14 in the year under report, is mainly due to the fact that the tenants of the Contai khas mahals in Midnapore had to pay during the year a sum of about 2 lakhs of rupees in repayment of the agricultural loans granted to them after the disastrous floods of 1913 and this made it difficult for them to pay their rent in full.

Miscellaneous land revenue.

Appendix II.

10. The total collections on account of miscellaneous land revenue, as detailed in Appendix II, amounted to Rs. 32,13,056, against Rs. 21,44,234 in the preceding year. This large increase was chiefly due to the heavy receipts under the heads "Value of revenue abated, Act I of 1894" and "Recovery of survey and settlement charges," those under the latter head alone aggregating Rs. 29,13,381, against Rs. 17,17,175 in 1915-16. Out of the total collections of Rs. 1,68,371 under "Other receipts," a sum of Rs. 57,325 was realized from the Burdwan Estate on account of *Pulbandi* contribution.

Changes in the land revenue demand of temporarily-settled estates and estates under direct management.

Appendix III.

11. Appendix III shows in detail the changes in the land revenue demand of temporarily-settled estates and estates under direct management. There was a net increase of 7,490·58 acres in the area of land settled and of Rs. 1,87,993 in revenue.

Redemption of land revenue.

Appendix IV.

12. The total number of petty estates and holdings, the land revenue of which was redeemed during the year, was 241. These were mostly permanently-settled holdings in the Government estates of Calcutta and its suburbs. The total amount of land revenue redeemed was Rs. 507 and the price realised aggregated Rs. 14,519, against Rs. 441 and Rs. 12,164, respectively, in the previous year. There was no redemption under the old Partition Act of 1876.

Remittance of land revenue and cesses by special money-orders.

Appendix V.

13. The total number of special money-orders issued for the remittance of land revenue and cesses and the aggregate amount covered by these orders decreased from 246,782 and Rs. 19,79,301 in 1915-16 to 225,411 and Rs. 19,53,563, respectively, during the year under report. The fall in the number of orders was shared by almost all the districts and is attributed mainly to the introduction of a combined form of money-order for remittance of both land revenue and cesses. No special reason has, however, been assigned for the decrease in the amount. Appendix

V shows that the remittances exceeded a lakh of rupees in six districts and were more than Rs. 50,000 in nine others. The average value of an order increased from Rs. 8·02 in 1915-16 to Rs. 8·66 during the year.

Coercive measures. Operation of the Sale Laws.

Appendix VI.

14. Appendix VI illustrates the working of the Revenue Sale Law. The number of estates or shares of estates which defaulted in the payment of land revenue and became liable to sale was 11,030 or 1,468 less than that of the previous year. Of this, only 981 estates or 8·8 per cent. of the defaults were actually sold against 8·7 per cent. in the previous year. The number of exemptions from sale under section 18, including those for petty arrears, was 9,466 or 85·8 per cent. of the defaults. The price realized by sale was 4·9 times the Government revenue as compared with 2·9 in 1915-16. The chief causes which led to the estates being brought to sale were indebtedness of proprietors, wilful defaults owing to diluvion and lack of profit or with the object of annulling encumbrances and collusion and disputes among co-sharers.

15. The table in the margin shows the percentage of sales in districts which are conspicuous for a large number of defaults. The existence of an enormous number of petty estates accounts for the large number of defaults and sales in Chittagong.

Districts.	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong ...	5,267	484	9·1
Midnapore ...	1,132	31	2·7
Mymensingh ...	813	32	3·9
Bakarganj ...	602	31	5·1
Hooghly ...	550	72	13·0
Dacca	546	90	16·4

16. Eighty-seven tenures and holdings under the direct management of Government were sold under the provisions of Act XI of 1859. Of these, 38 were purchased on behalf of Government for Re. 1 each. One hundred appeals were filed before the Commissioners against sales. In 14 cases sales were annulled by the Commissioner under section 2 of Bengal Act VII of 1868 and in 19 cases by the Board under section 26 of Act XI of 1859, as amended by the Decentralization Act, 1914.

Certificate procedure.

Appendix VII.

17. During the year the number of certificate cases instituted other than those for cesses which have been dealt with in section V, increased by 11,139. This increase was shared by many districts and was due to various local causes. Simultaneously with the increase in the number of institutions the percentage of certificate cases disposed of to the total number for disposal rose from 57·6 to 76·9 with the result that the number of cases pending at the close of the year decreased from 19,541 (revised figures) to 17,627. The number of cases pending for more than six months is high in Midnapore (4,235), Faridpur (703) and Tippera (809). In Midnapore the Commissioner has asked the Collector to pay special attention to the early disposal of these cases most of which are reported to be in the different stages of execution. In Faridpur the major portion of the old cases relate to the recovery of the survey and settlement charges. It is reported that every endeavour is being made to secure their early disposal. In Tippera the cases are in different stages of execution.

The sub-joined table shows the stages at which demands were satisfied :—

Division.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	Number of debtors imprisoned.	
					Number released on payment of debt before expiration of imprisonment.	Number released without full payment of debt.
Burdwan ...	3,623	8,092	463	294	1	14
Presidency	1,550	3,689	253	538	1	3
Dacca ...	2,054	12,465	780	181	...	6
Chittagong	3,531	13,568	1,268	442	...	5
Rajshahi ...	615	1,334	195	59	2	1

In the majority of cases payments were made on the issue of notices or on attachment of property and it was necessary to resort to actual sale in only 2,959 cases or 5 per cent. of the total number of cases (58,878) disposed of during the year.

Realization of Government and other demands by imprisonment.

18. Of the 33 persons committed to civil jails during the year in the enforcement of certificates 16 were imprisoned for non-payment of Government demands and the remainder for withholding sums due to District Boards and Court of Wards, etc.

Separate accounts of land revenue payments opened for shares under Act XI of 1859 and Bengal Act VII of 1876.

Appendix VIII.

19. The details of the separate accounts opened and closed during the year are given in Appendix VIII. They show that, including 1,181 opened during the year, there were altogether 59,190 separate accounts with a revenue demand of Rs. 68,91,418 at its close. Of these 45,107 accounts were for shares in joint estates held in common tenancy (section 10 of Act XI of 1859), 5,238 for shares representing specific portions of lands in estates (section 11 of Act XI of 1859) and 8,845 for shares consisting of undivided interests in specific lands (section 70 of the Land Registration Act VII of 1876).

Registration of tenures under Act XI of 1859.

Appendix IX.

20. Appendix IX shows the statistics of the registration of tenures for protection against auction purchasers in the event of the sale of the parent estates for arrears of revenue under Act XI of 1859. There were 18 registrations during the year and the total number of tenures thus protected was 5,235 at its close. There was no application for registration in the Burdwan and Rajshahi Divisions during the year.

SECTION III.

Other Revenue Work.

Estates under direct management.

21. The total number of estates under direct management, including those of private individuals managed by Government, was 2,281, with a current demand of Rs. 42,80,162 (excluding that of the Orphangunge Market, Hastings estate and Madhab Babu's Bazar in the 24-Parganas). The percentage of cost of management on the current demand was 7·44.

Condition of tenants.

22. The condition of the tenants in Government estates was, on the whole, satisfactory during the year under report. Nearly the whole of the loans advanced after the flood of 1913 was repaid by the tenants in the Contai khas mahals in Midnapore during the last cold weather. The tenants of Char Sujanagar in the Katwa sub division in the district of Burdwan, however, have not yet recovered from the effects of the flood. The crops were generally good, except in estates Painabad and Heyshamabad in the 24-Parganas, where bunds were washed away, and in parts of the districts of Khulna, Bakarganj, Pabna and Mymensingh, which suffered from the heavy floods of September last. In Chittagong some damage to the crops was done by the wild elephants, which are getting very numerous, and by the heavy rains at the sowing time and the floods at the end of the rainy season. The cyclonic storm of May 1916 damaged the embankments in the Cox's Bazar subdivision.

No case of epidemic outbreak or desertion of holdings by tenants was reported during the year.

Agency and mode of management.

23. There was no material change in the system of management during the year under report. In Faridpur there was an addition of a large number of small estates after the district settlement operations and two groups of estates in the district were split up into three. In Noakhali the Banchanagar tahsil of the Sadar subdivision was amalgamated with the Bangshi tahsil

which reduced the number of tahsil offices in the district from 9 to 8. This has, it is reported, obviated the necessity of entertaining several temporary hands from year to year. Proposals for the reorganization of the khas mahal establishments in the districts of Dacca and Noakhali are pending with the Board. Special rules were sanctioned by Government towards the close of the year for the management and settlement of the canal surplus and khas khamar lands of estate Panchannogram in the 24-Parganas.

Grant for the management and improvement of Government estates.

24. Out of the grant for the management and improvement of Government estates, a sum of Rs. 3,18,443 was expended on account of management, Rs. 57,524 on miscellaneous improvements, including agricultural improvements and experiments, and Rs. 5,276 on sanitary improvements. Of the total amount of Rs. 62,800 expended on works of improvement, Rs. 2,213 was spent on tanks and wells, Rs. 40,486 on drainage, irrigation and embankments, Rs. 2,586 on roads and bridges and Rs. 17,515 on miscellaneous works, including planting trees. The allotments made for works of improvement were fully utilized in almost all districts.

Appendix X.

Roads and communications.

25. The total expenditure on roads and communications in Government estates amounted to Rs. 3,09,195, against the Government grant of Rs. 70,335 (being one and-a-half per cent. on collections from these estates) allotted for the purpose. The excess expenditure was met from the District Boards and other local funds. Out of the total amount of Rs. 1,12,458 expended on original works, Rs. 94,830 was spent by the District Board in the Government estates in the Duars of Jalpaiguri.

Education.

26. The total number of schools in Government estates and of pupils attending them was 2,241 and 75,998 in 1916-17, against 2,293 and 76,570, respectively, in the preceding year. The decrease both in the number of schools and of pupils is attributed to the fact that several schools in Bakarganj and Noakhali situated in private estates and wrongly aided from the Government grant of 1 per cent. were excluded from the list of khas mahal schools. The Collector of Bakarganj remarks :—

"It must be admitted that the state of education in the khas mahals compares, on the whole, unfavourably with that in the rest of the districts, the reason being that the khas mahals, which are mainly raiyatwari settlements, do not contain the same proportion of educated tenure-holders as private estates. Further, literacy in this district is not valued for its own sake, but merely as a means of maintaining or improving social status. The khas mahal tenants, being relieved from the exactions of oppressive landlords, are totally contented with their social position and have no great desire to change it."

A sum of Rs. 76,189 was spent on education in Government estates against the 1 per cent. grant of Rs. 46,890, the excess expenditure being met from local grants.

Inspection of accounts.

27. The accounts of Government estates were duly inspected and no serious irregularities were brought to light during the year under report.

The criminal proceedings drawn up against the tahsildar of the side lands of the Jagannath Road in Midnapore, who embezzled about Rs. 700, as reported in the previous year, ended in his conviction and a sentence of eighteen months' rigorous imprisonment and a fine of Rs. 500.

Colonization in the Bakarganj Sundarbans.

28. The year under report was the tenth year of the Colonization Scheme in the Bakarganj portion of the Sundarbans. Khan Sahib Qamaruddin Ahmad, Deputy Collector, was in charge of the work throughout the year. The Colonization Officer spent 295 days on tour in the area during 1916-17, against 292 days in the preceding year. The Collector inspected the colonization work three times during the year in different parts of the Sundarbans, and the Commissioner made a tour in the area in January last and was satisfied with the work. During the year under report there were 638 new colonists settled on 24,805 bighas of land, against the corresponding figures of 416 colonists and 24,070 bighas in 1915-16.

29. The subjoined table gives the result of the assessment during 1916-17 of the settlers whose rent-free period or the terms of whose previous settlement have expired or are about to expire :—

NAME OF ESTATE.	Number of settlers.	Area assessed in acres.	Initial revenue.	Ultimate revenue.
			Rs. A.	Rs. A.
Kalamegha	188	1,430·97	1,927 14	5,783 7
Bara Bogi	148	1,790·72	944 13	5,161 5
Dhulashar	100	245·21	120 1	851 2
Nilganj	20	217·32	65 7	588 14
Latachapli	122	1,261·64	529 8	2,509 13
Total ...	578	4,945·86	3,587 11	14,894 9

All the assessments have been finally confirmed by the Commissioner. A large area in Nilganj, Latachapli, Kalamegha, Karaibaria and Bara Bogi was surveyed during the last cold weather and papers are being prepared for assessment.

The details of expenditure incurred during the year on the colonization scheme are given below :—

	Rs. A. P.
On Management, etc.—	
(1) Establishment, including allowance	14,639 9 0
(2) Contingencies	2,595 15 10
Total ...	17,235 8 10
On Works of Improvement—	
(1) Agricultural	24,780 2 0
(2) Sanitary	6,033 7 0
(3) Miscellaneous	2,426 7 0
Total ...	33,240 0 0
GRAND TOTAL ...	50,475 8 10

The construction and maintenance of dams and embankments to protect the land from saline water accounts for most of the expenditure on agricultural improvements. Petty repairs to these embankments are generally done by the settlers themselves who are directly benefited by them.

The total amount advanced during the year to the colonists as loans was Rs. 8,000, and a sum of Rs. 18,862 was realized from them. Suspension of instalments or remission was not granted in any case.

The progress of reclamation was satisfactory. It is expected that practically the whole of the area available for colonization will be reclaimed and brought under cultivation within a few years. The condition of the settlers was also very satisfactory during the year.

A sum of Rs. 27,926, against Rs. 24,044 in the previous year, was realized as royalty on forest produce. The cost of the forest establishment was Rs. 2,952 during the year.

30. Twenty-one rural co-operative credit societies were in existence in the colonization area at the beginning of the year and two new societies were registered during the year. The total working capital of these societies was Rs. 80,000 in 1916-17 and a sum of Rs. 38,500 was repaid by them during the year out of the sums advanced to them in preceding years. The Registrar, Co-operative Credit Societies, Bengal, accompanied by the Secretary, Barisal Central Bank, inspected these societies and was greatly pleased with their working.

One Supply and Sale Society has lately been registered in the Sundarbans with a capital of Rs. 40,000, of which Rs. 5,000 has been called up as first instalment. It is proposed to sell Sundarbans produce, chiefly firewood, in

Calcutta and to bring all household commodities from there for the use of the settlers. This scheme, if successful, will prove a great boon to the colonists.

The District Board road from Amtali to Khepupara has been a great advantage to the settlers. The establishment of an experimental post office at Latachapli is desirable for administrative purposes and the postal authorities have been addressed on the subject.

The climate of the Sundarbans is reported to be steadily improving. Malarial fever has greatly decreased, and there was no epidemic of cholera or cattle disease in the area during the year under report.

Improvements made in resumed Sundarbans estates.

31. Out of the 17 resumed Sundarbans estates, including Saugor Island grants, in the district of the 24-Parganas, eight are under khas management of Government. Settlement proceedings were in progress during the year in Saugor Island, 3rd portion, Mansadwip, 2nd portion, and Shikarpur, 2nd portion, under a Sub-Deputy Collector specially deputed for the purpose. A special form of lease has been sanctioned for raiyatwari settlement in these estates. In Khulna a sum of Rs. 1,857 was spent on the repairs and raising of embankments in the Chandkhali and Mahmudabad estates. In the Bakarganj portion of the Sundarbans there are 20 resumed estates, out of which five entire estates and portions of two have been declared as "Protected Forest," and the rest are under colonization. A sum of Rs. 3,82,380 has been spent in the colonization area on works of improvement since 1907 up to the close of the year under report. Five tanks were excavated in the Bakarganj Sundarbans during 1916-17 for the supply of good drinking water. Two-thirds of the total cost was borne by the District Board and one-third by Government. Estimates for the excavation of more tanks were sanctioned, but they could not be undertaken during the year for want of funds.

Waste lands.

32. The rules for the grant of waste land leases to large capitalists in the 24-Parganas and Khulna portions of the Sundarbans still continued to be under suspension. Raiyatwari settlement on the lines of the Bakarganj Colonization Scheme is being made in certain of the Sundarbans lots in the 24-Parganas by a special officer selected for the purpose.

The number of leases granted under the Large Capitalists' Rules of 1879 and under the rules of 1853 was the same as before, *viz.*, 188 and 93, respectively, in the 24-Parganas, and 22 and 38, respectively, in Khulna. The revenue payable in respect of them during the year was Rs. 1,22,424 and Rs. 79,501, respectively, in the former district and Rs. 12,392 and Rs. 54,076, respectively, in the latter. This will eventually rise to Rs. 2,35,196 and Rs. 80,163 in the 24-Parganas and to Rs. 22,206 and Rs. 55,769 in Khulna. The number of leases granted in Saugor Island was six as before, and the revenue payable during the year was Rs. 5,029, which will rise eventually to Rs. 11,931.

In Jalpaiguri *parwanas* for possession were issued, as before, in respect of five waste land *jotes* settled during the year. Leases in proper form will be issued when the form for arable waste land leases is finally approved.

Sale of Government estates.

Appendix XI.

33. During the year under report two estates were sold, free of revenue, in Faridpur for Rs. 244 under the orders of the Government of India, and two plots of land, covering an area of about 1·56 acres, in the Panchannogram Government estate in the 24-Parganas were sold, also free of revenue, at a total price of Rs. 56,254.

Alienation or assignment of land revenue.

Appendix XII.

34. Two plots of land, covering an area of about ·22 acre, with an estimated annual rental of about Rs. 62, were alienated during the year. Of these, one with an area of ·15 acre in the Howrah Maidan was alienated, free of rent, to the Duke Public Library Association for the erection of a public reading-room and library, and the other, measuring about ·07 acre, was transferred, at a nominal yearly rental of Re. 1 only, to the L. M. S. Corporation, Berhampore, for the extension of the L. M. S. Girls' School at Khagra in the district of Murshidabad.

Irrigation and Drainage.

35. A brief account of the irrigation and drainage projects in the Presidency other than those in charge of the Public Works Department and those maintained from the Government Estates Improvement grant is given below. No project of importance was taken up in the Dacca, Chittagong and Rajshahi Divisions.

Burdwan Division.—No new project was undertaken. As a famine project the old irrigation channel known as "Subhankari Danra" in the district of Bankura was thoroughly embanked and re-excavated, where necessary, from Government funds. Similar repairs to Kanki Khal, Thatarband, Palasboni canal and various *bandhs* or water reservoirs of the district were undertaken as famine projects. These works have materially improved the irrigation of the district.

In Midnapore most of the drainage works are in charge of the Public Works Department or of the Khas Mahal Department. The report of the Collector in connection with the scheme for the improvement of the drainage system of the Contai subdivision, called for by the Board, has been received after the close of the year and is under consideration. The report of the enquiry about the private zamindari estates on whose behalf Government undertook the liability for the *upkeep* of the *khals* at the time of the Decennial Settlement has been submitted to Government. Recoveries on account of the advances made for the Howrah and Rajapur Drainage schemes amounted to Rs. 500 and Rs. 3,966, respectively, leaving a balance of Rs. 209 due for the former and of Rs. 14,024 due for the latter. Of the five estates which were under the management of Government under section 39 of the Drainage Act for the realization of drainage dues, one was released during the year as the dues were paid off in full.

Presidency Division.—No new project was taken up also in this Division. Some petty works were done in connection with the Magrahat Drainage Scheme, the total expenditure on account of repairs and maintenance being Rs. 7,744.

Embankments.

36. *Burdwan Division.*—There were high floods in the Damodar and Ajai rivers during the year. The flood of September 1916 was almost as heavy as that of 1913 in the river Damodar and was the highest on record in the Ajai. Considerable damage was caused to the paddy crop in the villages on the right bank of the Damodar, the embankment being breached in several places. The Ajai embankments were also breached by the floods, causing distress in a very large area. Steps have been taken to fill up the breaches before the next flood season.

The low portions of the Ajai embankments have been raised to the ordinary level. The question of further raising the embankments and other connected problems for the protection of the embankments from floods are under the consideration of Government. Effect is gradually being given to the scheme for mitigating the severity of the floods of the river Damodar in the districts of Burdwan, Hooghly, Howrah and Midnapore. The work in connection with the Damodar Reservoir Enquiry Survey was in progress at the end of the year.

A retired embankment on the Damodar right bank opposite the 48th mile of the Damodar left embankment No. 32 has been completed and the construction of a retired embankment at Kherobari in the 3rd mile of the Schedule D embankment No. 39 on the Ajai has been taken up.

The question of repairing and maintaining the zamindari embankments in Birbhum is pending a decision on the question as to the desirability of maintaining these embankments.

In Hooghly the remodelling of the sluices at Dilakash, Gabtola and Penro and the construction of a drainage pipe at Manikara appertaining to the Madariakhal left embankment are still in progress.

In Midnapore, besides the Government embankments, 19 embankments are maintained by Government at the cost of the zamindars under the Contract system and one under the Law system. In 18 of the former the existing contract for 15 years on an annual payment of Rs. 49,763 will expire in 1918-19 and steps are being taken to renew the contract for another

15 years at an enhanced rate. The contract for the Jokee embankment has been renewed for 15 years at the annual rate of Rs. 594. One account was opened during the year under the Law system at a demand of Rs. 581.

The excavation of a drainage channel along the southern side pits of the Orissa Trunk Road with a regulating sluice on the 29th mile for the better drainage of mauza Dehaty and other villages was sanctioned during the year at an estimated cost of Rs. 2,581.

Of 20 criminal cases under the Embankment Act for raising *bandhs*, etc., within the prohibited area, including one pending from the previous year, 19 were disposed of. Sixteen persons were convicted and three acquitted. One case is pending.

Presidency Division.—The total length of the Schedule D embankments in the 24-Parganas has been reduced from 206 to about 195 miles by the abandonment of portions of the embankments Nos. 82, 83 and 84 on the banks of the Surjipur Khal and the Peali river, in consequence of the construction of an embankment on the right bank of the Peali river in connection with the Magrahat Drainage scheme. A retired line of embankment is being constructed owing to the encroachment of the Hooghly river at Durbabaria in the 64th mile of the Hooghly left embankment. The embankment on the right bank of the Bidyadhari river from Nabasan to Belgachi has been retired at two places owing to the rapid encroachment of the river.

In the Kandi subdivision in Murshidabad damage was done to the zamindari embankments by two successive floods. Some of the breaches have been repaired by the zamindars and others will be taken up by them shortly. The question of a complete survey of the embankment system of the subdivision is under the consideration of Government.

Chittagong Division.—The Government embankments in the Chittagong district were maintained at a cost of Rs. 15,351, of which a sum of Rs. 12,000 was spent on the repairs of the embankment round the island of Kutubdia. Owing to heavy rainfall in October 1916 the Gumti embankments in the district of Tippera, which are maintained by the zamindars, again breached in three places and the villages and lands on all sides of the Comilla town within a radius of 6 or 7 miles were inundated, the town itself having had a narrow escape. Extensive damage was done to the standing crops and the sufferings of the people were great. The question of the improvement of the embankments is under consideration and it is proposed to put them under the charge of Government with the consent of the zamindars.

Land Registration.

Appendix XIII.

37. Appendix XIII shows the intermediate registrations effected during the year under Bengal Act VII of 1876. The total number of proprietary interests entered in the land registration registers of the Presidency was 951,581 at the beginning of the year as against 957,495 at its close. The number of applications for registration of succession to proprietary interests in land by purchase, inheritance, gift, or otherwise was 37,919, of which 36,314 were granted before the year closed, the number of old interests removed and new interests recorded being 41,500 and 47,414, respectively. The number of undisposed of cases at the close of the year was 9,963, of which 156 cases are reported to be pending for more than six months. Most of these cases have since been disposed of. The expenditure on account of Land Registration work in the Presidency (excluding the pay of the permanent establishment) amounted to Rs. 4,213 and the fees and fines aggregated Rs. 12,729. No case of fraudulent registration was brought to light. The registers are reported to be generally in good order. The Commissioner of the Rajshahi Division has, however, noticed some defects which are engaging his attention and his report in regard to the matter is awaited. The work of rewriting the land registers in accordance with the record-of-rights in the Dacca Division has been postponed pending further enquiry by the Hon'ble Mr. Stevenson-Moore when he goes to Dacca. The number of applications for revision presented to the Board under section 85 was 5, of which 2 were allowed, 2 rejected and 1 is pending.

38. There were 273 partition cases pending at the close of 1915-16 and 48 cases were instituted during the year under report, making a total of 321 for disposal. The number of cases disposed of was 50, including 10 cases which were struck off for various reasons. Out of a total of 271 cases left undisposed of at the close of the year, 160 have been pending for more than two years, mostly in Mymensingh (37), Faridpur (31), Dacca (28), Bakarganj (14) and Tippera (12).

Partitions of estates.

Appendix XIV.

Special officers were employed during the year exclusively on partition work in Khulna, Mymensingh, Faridpur, Rajshahi and Dinajpur.

Estates Partition Funds exist only in the districts of Jessore, Dacca and Mymensingh. The accounts of these funds are periodically audited by the Examiner of Local Accounts, Bengal. The incidence of cost per acre of the area partitioned during the year in these districts was 12 annas 4 pies, 8 annas 5 pies and 2 annas 2 pies, respectively.

39. Particulars of lands taken up permanently for public purposes and of compensation paid for them in each district are shown in Appendix XV. During the year proceedings for the acquisition, on behalf of Government and local bodies and companies, of land covering an area of 5,639 acres were confirmed at a total cost of Rs. 71,17,478 as against an area of 2,560 acres at a cost of Rs. 28 16,078 in the preceding year. The abatements of annual revenue allowed on account of lands acquired for Government purposes, including State Railways and subsidized Companies' Railways provided with land free of cost, amounted to Rs. 2,392, and a sum of Rs. 19,169 was paid to Government on account of the capitalized value of Government revenue, amounting to Rs. 778 abated for lands taken up for local bodies and companies, including certain Railway Companies entrusted with the working of State lines.

Land Acquisition.

Appendix XV.

Of the total expenditure incurred a sum of Rs. 25,46,749 was for the acquisition of lands required for Government, including State Railways and Companies' Railways provided with land free of cost, and Rs. 45,70,729 for all other purposes, viz., for District Boards, Municipalities, Calcutta Improvement Trust, and Railway and other Companies.

The average cost per acre of the lands for which acquisition proceedings were confirmed during the year was Rs. 1,262 against Rs. 1,100 in the preceding year. The increase in the average cost is chiefly due to the fact that proceedings for the acquisition of more valuable lands in the town of Calcutta and its suburbs in the district of the 24-Parganas were confirmed during the year.

40. The amount of loans under the Land Improvement Loans Act outstanding at the beginning of the year was Rs. 2,27,244, and loans amounting to Rs. 70,985 were advanced during the year under report. Out of the sum advanced during the year Rs. 67,585 was advanced in Bankura district alone where distress on account of failure of crops was acute during the first half of the year. Of Rs. 2,98,229 the total outstanding principal, Rs. 54,213, was repayable during the year. Out of this Rs. 43,737 was realized, including Rs. 866 collected in advance, while Rs. 1,818 was remitted. The balance outstanding at the close of the year was Rs. 2.52,674, of which Rs. 9,524 was overdue. Of Rs. 7,521 due on account of interest, current and arrear, the collections during the year amounted to Rs. 6,623, of which Rs. 11 was paid in advance and a balance of Rs. 909 was left unrealized at the close of the year.

Loans under the Land Improvement Loans Act.

Appendix XVI.

41. The financial results of the working of the Act are shown in Appendix XVII. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 8,801. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 6,623. The amount of principal remitted during the year was Rs. 1,818 ; this has to be borne by the Provincal Government as well as the special expenses connected with the working of the Act, which amounted to Rs. 1,764. Thus there was

Financial results.

Appendix XVII.

a net loss of Rs. 5,760 to the Provincial Government during the year against Rs. 6,873 of the last year.

Loans under the Agriculturists' Loans Act.

Appendix XVIII.

42. The amount advanced during the year under the Agriculturists' Loans Act was Rs. 8,39,291. The largest sums were issued in the districts of Bankura (Rs. 5,62,958), Burdwan (Rs. 1,03,983), and Noakhali (Rs. 68,200). In Bankura famine prevailed at the beginning of the year. In Burdwan and Noakhali there was severe distress on account of floods. The outstanding balance of the previous year was Rs. 18,20,984, making the aggregate amount outstanding Rs. 26,60,275, of which Rs. 13,33,035 was recoverable within the year. The total collections amounted to Rs. 11,29,929 including Rs. 17,877 paid in advance and excess and Rs. 6,234 was remitted. The balance recoverable in future years is Rs. 15,24,114 (including Rs. 4,027 under suspension), of which Rs. 2,10,722 was overdue at the end of the year. The amounts overdue in the districts of Mymensingh, Tippera and Noakhali are heavy. Of Rs. 1,36,444 due on account of interest, current and arrear, Rs. 1,14,803 was collected (including Rs. 596 paid in advance and excess), Rs. 2,287 was remitted and Rs. 451 suspended, leaving a balance of Rs. 19,499 overdue at the end of the year.

Financial results.

Appendix XIX.

43. The financial results of the working of the Act are shown in Appendix XIX. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 64,214. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 1,14,803. The amount of principal remitted during the year was Rs. 6,234 and the expenses connected with the working of the Act during the year amounted to Rs. 14,468. Thus there was a net profit of Rs. 29,887 to the Provincial Government during the year against a loss of Rs. 54,652 in the last year.

Rent suits (under Act X of 1859) in Revenue Courts.

Appendices XX to XXIII.

44. The number of rent suits instituted in the Revenue Courts in the district of Darjeeling, which is the only district in which Act X of 1859 is in force, was 129 as against 107 in the previous year. Including 34 cases pending from the preceding year, there were 163 cases for disposal, of which 118 cases were disposed of against 105 of the previous year, leaving 45 pending at the close of the year, none of which were of long standing. Damages were allowed to the plaintiffs in 26 cases against 23 in the preceding year. There was no application for aid in distraint or in the sale of distrained property and there were no notices of enhancement or relinquishment during the year. The rent suit registers were inspected by the Deputy Commissioner but no irregularities were found.

SECTION IV.—RENT.

Working of the Bengal Tenancy Act.

Bengal Tenancy Act.

45. The Bengal Tenancy Act is in force throughout the Presidency, except in the district of Darjeeling, the Chittagong Hill Tracts, the town of Calcutta and all municipal areas.

Relations between landlords and tenants.

46. Strained relations between landlords and tenants were noticed in certain parts of the Presidency, the most common causes of friction being enhancement of rent, *abwabs* and money-lending. The settlement record-of-rights is reported to be much appreciated by the tenants in the Dacca district as they find it to be of the greatest assistance to them in combating the illegal claims of the landlords.

Issue of rent receipts.

47. In 59 cases proceedings were taken for failure to grant rent receipts as provided in the Bengal Tenancy Act. Of these 22 cases ended in conviction, 18 were struck off or dismissed and 19 were pending at the close of the year.

ERRATUM.

(1) *Insert* "of Noakhali" after "district" in the sixth line of paragraph 49.

(2) *Substitute* the following for second and third sentences of paragraph 50 :—

"There was an increase of 2,360 in the number of money-orders issued; but the amount covered by them fell by Rs. 37,858. The number of money-orders refused increased by 1,813 and the amount involved by Rs. 23,679. The percentage of money-orders refused to money-orders issued increased by more than 2 per cent.'

ERRATUM.

In paragraph 45 *read* "and the town of Calcutta" *for* "the town of Calcutta and all Municipal areas."

48. There was a general increase in the number of voluntary transfers in each division. The increase is attributed to failure of crops, low price of jute and financial difficulties of the middle classes with fixed income and of the poorer classes on account of the prevailing high prices.

Working of the Bengal Tenancy Act

Appendix XXIV.

The Bill to amend the law relating to the transferability of occupancy holdings by aboriginal tribes is awaiting the approval of the Secretary of State and the Bill relating to the transfer of occupancy holdings generally is still under the consideration of Government.

49. There was an increase in the payment of landlords' fees, as compared with the preceding year, in all the divisions except the Chittagong Division, where the percentage of payments fell from 78·02 to 73·27. This is attributed to the fact that the largest zamindari in the district passed from one proprietor to two joint proprietors who did not apply for payment.

Receipts and payments of landlords' fees.

Appendix XXV.

50. The system of payment of rent by money-order continued in force throughout the Presidency, except in the districts of Darjeeling and the Chittagong Hill Tracts. There was an increase of 1,284 in the number of money-orders issued with a corresponding increase of Rs. 7,268 in the amount covered by them. The number of money-orders refused also increased by 252, but the amount involved decreased by Rs. 1,275. The percentage of money-orders refused to money-orders issued fell by nearly 2 per cent.

Remittance of rent by special money-orders.

Appendix XXVI.

51. The practice of levying illegal cesses or *abwabs* in some form or other in addition to the stipulated rent is prevalent throughout the Presidency. In order to maintain amicable relations with their landlords, the tenants submit to these exactions without much demur, and regular complaints are rarely received. In Bakarganj Road and Public Works Cesses continued to be levied at higher rates than those prescribed by the law. There was no regular suit under section 75 of the Bengal Tenancy Act to resist these demands, but in Midnapore some instances were brought to notice in the course of survey and settlement proceedings and dealt with under section 74 of the Act.

Zamindari *abwabs*.

SECTION V.

Road and Public Work Cesses.

52. The following is an account of the working of the Bengal Cess Act IX of 1880 during the year :—

Road and Public Works Cesses.

53. The Road and Public Works Cesses were levied, as in the preceding years, at the maximum rate of one anna in the rupee on the valuation of lands and annual net profits of mines and other immovable properties in all districts excepting the Chittagong Hill Tracts, where the Act is not in force. The current demand of land revenue for the cess-paying districts is more than 2½ crores and the annual valuation or gross rental on which the cesses are based aggregates nearly 12½ crores. Thus the rental is almost five times the revenue.

Rate of cesses, land revenue demand and gross rental.

54. The accounts of both the cesses have been shown in detail in Appendix XXVII. The subjoined table shows in abstract form the accounts for the last two years :—

Demands, collections, balances and remissions.

Appendix XXVII.

Year.	Demand.			Collections.	Percentage of total collections on current demand.	Balance.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arrear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
Year ending 31st March 1916 ...	66,58,825	9,31,804	75,90,629	67,01,964	100·6	10,16,339	13·4	21,012
Year ending 31st March 1917 ...	68,02,676	9,31,476	77,34,152	68,59,384	100·8	8,74,677	11·3	29,971

As compared with the preceding year, there was an increase of Rs. 1,43,851 in the current demand. The increase occurred chiefly in Burdwan (Rs. 59,502), Khulna (Rs. 21,401) and Dacca (Rs. 33,963) and was due to revaluation proceedings and the annual revision of assessment of mines. In spite of unfavourable conditions caused by the European War, the percentage of collections in the Presidency was practically the same as in the previous year being 100·8 against 100·6. The percentage of the outstanding balance on the total demand decreased by 2·1. The remissions increased from Rs. 21,012 to Rs. 29,971, of which Rs. 28,064 was granted in the district of Burdwan alone owing chiefly to the revision of assessment of mines.

55. As will be seen from the percentages noted on the margin, the collections in 13 districts out of 25 in the Presidency attained the standard of 100 per cent. or more on the current demand. Of the remaining districts the standard was nearly reached in Jalpaiguri (99·9), Hooghly (99·4), Darjeeling (99·4), Bankura (99 3), Rajshahi (99·0), Murshidabad (98·5), Mymensingh (98·0). In Birbhum (96·2) the decrease was due to the non-payment of cesses by a big zamindar and that in Khulna (95·8) partly to the increase in the demand following the general revaluation and partly to the high prices of food grains and other necessaries of life owing to the war. No explanation has been offered for the short percentage in Dacca (89·3), while in Bakarganj (96·1) it is reported to be mainly owing to the non-payment of a substantial amount by the Court of Wards. Smaller advance collection is responsible for the falling off in Malda (95·0).

Percentage of collections in districts—

1.	Nadia	... 109·9
2.	Tippera	... 109·4
3.	Faridpur	... 109·1
4.	Noakhali	... 105·8
5.	Burdwan	... 104·8
6.	Pabna	... 103·4
7.	Midnapore	... 102·8
8.	Dinajpur	... 102·6
9.	24-Parganas	... 100·9
10.	Chittagong	... 100·7
11.	Jessore	... 100·2
12.	Rangpur	... 100·1
13.	Bogra	... 100·1

Sums barred by limitation.

56. No arrears were barred by limitation during the year under report.

Working of the certificate procedure.

Appendix XXVIII.

57. The total number of certificates filed during the year for the realisation of cesses was 48,850 as against 50,814 in 1915-16. Although taking the Presidency as a whole there was a slight decrease, the increase in the number of institutions is noticeable in Nadia (1,224), Khulna (1,237) and Dacca (1,405). Realization of petty arrears about to be time-barred, increase in the demand caused by revaluation, and realization of arrears on account of rent-free lands amalgamated with the parent estates, are reported to be the causes for this activity. Including 14,780 certificates (revised figures) pending from last year, the total number of certificates for disposal came to 63,630, of which 49,009 or 77 per cent. were disposed of, leaving 14,621 pending. The number of old cases was 1,346. The Collectors concerned have been instructed to expedite the disposal of these cases.

Objections against certificates.

58. The total number of objections filed and disposed of was 2,549 and 2,529, as against 2,687 and 2,584 in the previous year. In 221 cases certificates were cancelled on account of the death or desertion of debtors, double assessments, non-registration of names, etc.

Stages of procedure at which demands were satisfied.

59. In 14,795 cases as against 11,478 in the previous year, arrears were recovered on the mere issue of the notice of demand, in 26,544, as against 26,636, on the issue of notices for the attachment of property, movable and immovable. Sales actually took place in 502 cases out of a total number of 63,630 certificate cases for disposal.

Valuations and revaluations.

Appendix XXIX.

60. Appendix XXIX gives detailed information regarding valuations and revaluations under the control of the Collector. It will be noticed that during the year important operations were in progress in Midnapore and Bakarganj. Revaluations conducted by the Settlement Department which are not shown in the appendix were also in progress in Dacca, Noakhali (except pargana Nij Sundip) and Rajshahi.

The annual assessment of coal mines in the Asansol subdivision of the Burdwan district yielded an increase of more than 10 lakhs in the valuation.

Separate accounts for revenue-paying and revenue-free estates.

Appendices XXX and XXXI.

61. Appendices XXX and XXXI give the details of the separate accounts opened in revenue-paying and revenue-free estates. The number of such accounts opened during the year was 1,091 for revenue-paying estates and 20 for revenue-free estates, the total number at the end of the year being 55,303 and 666, respectively.

Estates, tenures and share-holders.

Appendix XXXII.

62. Owing to partitions and the addition of new estates, the number of revenue-paying and revenue-free estates assessed to cesses rose by 144 and 240, respectively. There was a decrease of 2,110 in the number of rent-free lands kept under direct collection owing to amalgamation with the parent estates. The number of tenures increased owing to valuations and revaluations.

Gross rental.

Appendix XXXIII.

63. The gross rental of the Presidency was nearly 12½ crores against 12 crores of the preceding year and 7½ crores at the time of the first valuation under the old Road Cess Act of 1871.

Miscellaneous.

64. The amendment of the Cess Act remains in abeyance pending the legislations necessary to give effect to the recommendations of the Decentralisation Committee regarding Village Self-Government and any consequential amendment of the Local Self-Government Act.

SECTION VI.

Miscellaneous.

Processes.

Appendix XXXIV.

65. Appendix XXXIV shows the number and cost of service of all processes, revenue and criminal, served through the Revenue Nazarat. The total number of processes served rose to 952,195 from 889,359 in the preceding year. The process fees realised amounted to Rs. 3,77,234 against Rs. 3,48,629 in the preceding year and the total cost of service, including the pay of the supervising establishment debitable to land revenue, was Rs. 2,21,205 against Rs. 2,36,022 in the previous year. In the districts of Jessore, Khulna, Rajshahi and Bogra the cost of process-serving establishment exceeded the receipts from fees. The system of fines and rewards for bad and good work is reported to have generally worked well.

The system of serving processes by Dafadars through President Panchayats was in force in the districts of Hooghly, Khulna, Dacca and Tippera, in the Sadar and Kalna subdivisions of the district of Burdwan, in the Sadar subdivision of the district of Birbhum, in the Barrackpore and Baraset subdivisions and part of the Sadar subdivision in the 24-Parganas, in the Ranaghat, Chuadanga and Meherpur subdivisions of Nadia, in the Lalbagh subdivision of Murshidabad, and in the Magura subdivision of Jessore. In the Kotwali and Gangachara thanas of the Rangpur district, the system was introduced without proper authority and has been temporarily discontinued since July 1916 under Commissioner's orders. The system was extended during the year to the other subdivisions of Jessore, and the Rampur Hât subdivision of Birbhum, and its introduction in the Goalundo subdivision of the Faridpur district and in the Sadar subdivision of the Rangpur district has recently been sanctioned. Its extension to the Kushtia and Sadar subdivisions of Nadia is under consideration. The system appears to have worked satisfactorily on the whole in all these places except in the Sadar subdivision of Burdwan.

In Birbhum one process-serving peon was dismissed for making a false report of service. In Midnapore two peons were convicted and one is undergoing imprisonment for realising money illegally in execution of warrants, two were dismissed for malpractices and five others were dismissed for being

absent without leave for a long time. One peon was dismissed in Dacca for disobeying the Collector's order transferring him to Manikganj, and another was dismissed in Faridpur as he was implicated in an attempt to extort money from some villagers. In Bakarganj also one peon was dismissed for taking illegal gratification.

Records.

66. A sum of Rs. 25,356 was sanctioned by Government for maintaining the record-rooms in this Province in efficient order, the amount being allotted according to the requirements of the District, Commissioners' and the Board's record-rooms.

The records in the offices of the Commissioners, Collectors and Sub-divisional officers were generally in good order except in the Dacca district, where the old survey papers were damaged and are being repaired.

The periodical destruction of B and C papers was duly carried out in most districts. The quinquennial revision of records was completed in the Dacca and Noakhali districts and is in progress in other places.

The construction of a new record-room in the district of Bakarganj to accommodate the record-of-rights was completed during the year and both the Collectorate and settlement records were removed to the new building. The records-of-rights of the Dacca and Faridpur districts have been kept in separate hired buildings for want of accommodation in the district record-rooms.

Libraries.

67. The libraries in all the districts except Darjeeling and Rangpur and in all the subdivisions are reported to be generally in a satisfactory condition. In Darjeeling the books were wrongly classified in the revision of the catalogue of books. The classification is now being properly done. In Rangpur the library was located in a damp and quite unsuitable room. Steps have been taken to provide better accommodation for it. A Sub-Deputy Collector has also been deputed to put it in good order. Want of proper accommodation is complained of in certain other places. The revision of the catalogue of books has been completed in certain districts and is in progress in others.

Treasure Trove Act, VI of 1878.

68. Of the 131 old silver coins of thana Kaliganj (Khulna) mentioned in the last year's report, 24 were acquired on behalf of Government under section 16 of the Act and the remaning coins were returned to the finder. In thanas Harirampur and Savar (Dacca) Rs. 143-2 and Rs. 25, respectively, were found buried underground. In thana Bhanga (Faridpur) a fine ornamental stone image of Bishnu was found in the course of excavation of a tank. There were also two cases in the Rajshahi Division, the treasure found consisting of current coins only. In all these cases suitable action was taken under the Act.

Personnel—

Of the Board.

69. The office of the Member of the Board of Revenue, Bengal, was held by the Hon'ble Mr. F. J. Monahan from 1st April to 25th October 1916 and by the Hon'ble Mr. C. J. Stevenson-Moore, c.v.o., for the rest of the year.

Of Commissioners.

70. The following Commissioners held office during the year :—

Burdwan Division.—Mr. D. H. Lees was in charge throughout the year.

Presidency Division.—The Hon'ble Mr. J. Lang was in charge from 1st April to 28th October 1916, when the Hon'ble Mr. F. J. Monahan assumed charge and continued till the 29th January 1917. Thereafter the Hon'ble Mr. J. Lang again held charge for the rest of the year.

Dacca Division.—Mr. F. C. French was in charge from 1st April to 10th September 1916 and again from 4th November 1916 to 31st March 1917. Mr. S. G. Hart was in charge from 11th September to 3rd November 1916.

Chittagong Division.—Mr. E. Geake was in charge from 1st to 30th April 1916 and Mr. K. C. De for the remainder of the year.

Rajshahi Division.—Mr. H. F. Samman was in charge throughout the year.

Tours and inspections of the Member of the Board.

71. The Hon'ble Mr. Monahan visited Dacca for a week in August 1916. During his stay there he discussed the affairs of the estate of the Nawab Bahadur of Dacca with the Commissioner and the Manager. The steps which were being taken to bring the Collectorate land registration registers

into accord with the settlement record-of-rights were also examined. In October he paid a visit to Kalimpong and inspected the place with the Deputy Commissioner and the General Manager in connection with the question of its development as a hill station. During the last part of February 1917, the Hon'ble Mr. Stevenson-Moore toured in the 24-Parganas Sundarbans for about a week, in the course of which amongst other places he visited Saugor Island, third portion Mansadwip, Shikarpur, Ramkarer Char Lot 16(1) and Painabal. He examined the progress of settlement operations in certain lots and inquired locally into questions of reclamation and embankment in various places. The visit brought to light several cases of large encroachments on Government lands.

Of Commissioners.

72. The Commissioner of the Burdwan Division (Mr. Lees) spent 122 days on tour during the year. He spent 23 days in Bankura in visiting the famine affected area. In September and October 1916, he also visited the flooded area in Birbhum and in the Katwa subdivision of Burdwan. All the District and Subdivisional offices were inspected during the year, except the Hooghly Sadar office, which was inspected late in March 1916. The tours of the Commissioners of the Presidency Division extended to 66 days. All the districts were visited during the year and all the Collectorates and 12 out of 17 Subdivisional offices were inspected. In the course of the tours the Commissioner looked into the administration of municipalities and other public institutions and had interviews with the principal residents. The tours of the Commissioner of the Dacca Division extended altogether to 81 days, of which Mr. Hart contributed 8 and Mr. F. C. French the rest. The district headquarters of Mymensingh, Faridpur and Bakarganj and 10 subdivisions were visited. The number of days spent on tour in the Chittagong Division by Messrs. Geake and De was 3 and 127, respectively. Mr. De made a detailed inspection of all the District and Subdivisional offices. All Municipal and District and Local Boards offices (except those at Chittagong) and many educational and other local institutions were also inspected. Mr. Samman, as Commissioner of the Rajshahi Division, spent 189 days on tour, inspecting all the District offices and most of the Subdivisional offices. During his tours he visited various municipalities and other local institutions. He went to Kurigram in May 1916 and discussed the *Oraon* trouble with the local authorities. District treasuries are not inspected by Commissioners as the duty has been transferred to the gazetted staff of the Accounts Department.

Of District and Subdivisional Officers.

73. The touring of the District Officers was adequate and useful. They visited most parts of their respective districts, inspected local institutions and attended to important matters connected with the administration. Excepting the District Officer of Khulna, from whom an explanation has been asked for by the Commissioner, they inspected their own offices including district treasuries. All the Subdivisional offices and sub-treasuries were also inspected by their respective District Officers.

The tours and inspections of Subdivisional Officers were on the whole adequate and satisfactory.

I have the honour to be,

SIR,

Your most obedient servant

J. A. L. SWAN,

Secretary.

APPENDICES.

REVENUE DEPARTMENT.

LAND REVENUE.

DARJEELING, THE 24TH OCTOBER 1917.

RESOLUTION—No. 2196T.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year ending 31st March 1917.

THE Hon'ble Mr. F. J. Monahan held charge of the office of Member of the Board of Revenue from the 1st April to the 25th October 1916, and the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., for the rest of the year.

2. **General conditions of the year.**—The outturn of crops and the material condition of the people were generally satisfactory. Famine relief operations in Bankura were closed in November 1916, and a bumper crop of winter rice restored normal conditions. Except in small areas which suffered from floods, the harvests in the districts of Tippera, Mymensingh and Noakhali which had suffered from floods in the previous year were excellent. In the districts of Burdwan, Birbhum and Midnapore and in the Chittagong Hill Tracts some damage was caused by floods at the end of September, and relief measures on a small scale were found necessary. The total amount advanced during the year under the Agriculturists' Loans Act was Rs. 8,39,291, the bulk of which was distributed in the districts of Bankura, Burdwan and Noakhali. Out of Rs. 70,985 advanced under the Land Improvement Loans Act, Rs. 67,585 were expended in Bankura. Suspension of rent and cesses to the extent of about Rs. 21,000 was sanctioned for the two Government estates, Chaora and Kukua, in the district of Bakarganj.

3. **Land Revenue demand and collection.**—The current demand was Rs. 2,77,87,002, the increase of nearly 2 lakhs over the preceding year being mostly due to new settlements, re-settlements and progressive increase of demands in temporarily-settled and Government estates. The collections amounted to Rs. 2,77,47,134, or 99·85 per cent. of the current demand and 93·77 per cent. of the total demand. Remissions amounted to Rs. 72,710.

4. **Road and Public Works Cesses.**—There was an increase of Rs. 1,43,851 in the current demand owing to revaluation proceedings and annual revision of assessment of mines. The percentage of total collection on the current demand was almost the same as in the previous year, being 100·8 against 100·6, and 13 districts against 14 in the preceding year attained the standard of 100 per cent. on the current demand.

Valuations or revaluations, partial or complete, were made in 11 out of the 25 districts in which the Act is in force and were completed in 6. Revaluation operations conducted by the Settlement Department were also in progress in the districts of Dacca, Noakhali and Rajshahi. The question of the modification of the special procedure for making cess revaluations simultaneously with the preparation of record-of-rights is still under consideration.

The current demand of land revenue for the cess-paying districts is more than 2½ crores, and the gross rental on which the cesses are based is nearly 12½ crores. The land revenue is thus about 20 per cent. of the rental.

5. **Coercive measures.**—The number of estates which defaulted in the payment of land revenue and became liable to sale was 11,030, or over 1,400 less than that of the previous year. The largest number of defaults occurred in the districts of Chittagong and Midnapore. Only 981 estates, or less than 9 per cent. of the estates which defaulted, were actually sold, against 1,087 in 1915-16. Sales were proportionately most numerous in the Hooghly and Dacca districts. The number of certificates filed, inclusive of those for cess, was 105,814 against 96,639 in the preceding year. The number of cess certificates decreased by 1,964, but there was an increase in the number of revenue certificates by 11,139, which was shared by many districts and was due to various local causes. The number of cases pending at the close of the year showed a decrease of 2,073.

In the majority of cases payments were made on the issue of notices or on attachment of property; and it was necessary to resort to actual sale in only 3,461 cases, or 3·2 per cent. of 107,887 cases disposed of during the year.

6. **Condition of the raiyats in Government estates and expenditure on improvements and education.**—The condition of the tenants in Government estates was generally satisfactory during the year. The total number of estates under direct management, including those of private individuals managed by Government was 2,281, with a current demand of Rs. 42,80,162. Out of Rs. 62,800 expended on miscellaneous and sanitary improvements, nearly two-thirds were for drainage, irrigation and embankments. There were 2,241 schools attended by 75,998 pupils in the Government estates. The expenditure on roads and communications in Government estates was Rs. 3,09,195, of which Rs. 70,335 were met from the Government 1½ per cent. grant and the rest from local funds.

7. **Waste lands.**—The rules for the grant of waste land leases in the 24-Parganas and Khulna portions of the Sundarbans continue to be in abeyance. Experimental raiyatwari settlements on the lines of the Bakarganj colonization scheme are being made in certain lots of the 24-Parganas Sundarbans by a specially selected officer. In the Bakarganj portion of the Sundarbans 638 new colonists were settled on 24,805 bighas of land, against 416 colonists on 24,070 bighas in the previous year. The progress of this scheme is satisfactory.

8. **Drainage, irrigation and embankments.**—No important drainage or irrigation projects were undertaken. The problem of mitigating the severity of the floods of the river Damodar in the districts of Burdwan, Hooghly, Howrah and Midnapore is receiving the attention of Government; and work in connection with the Damodar Reservoir Enquiry Survey is in progress. The Gumti embankments in the district of Tippera, which are maintained by zamindars, were breached by floods, and extensive damage was done to the crops in the inundated area. With a view to improve the embankments it is proposed to put them under the charge of Government with the consent of the zamindars.

9. **Partitions.**—Forty-eight cases were instituted during the year and 273 were pending at the end of the previous year. Fifty cases were disposed of and 271 were pending at the close of the year.

10. **Working of the Bengal Tenancy Act.**—No new facts came to light in the working of the Bengal Tenancy Act. The levy of *abwabs* and of legal cesses at rates in excess of those prescribed by the law, and the failure to grant proper rent receipts are still prevalent. The record-of-rights is appreciated by tenants and assists them in combating illegal claims of landlords. There was an increase in the number of rent money-orders issued, but the amount covered by them decreased. The percentage of money-orders refused by landlords rose from 16·9 in the preceding year to 19·1 in the year under report. The Bill to amend the law relating to the transferability of occupancy holdings by aboriginals has been introduced in the Bengal Legislative Council, and the Bill relating to the transfer of occupancy holdings generally is still under consideration.

11. The thanks of the Governor in Council are due to the Board for its efficient administration of the Land Revenue Department during the year.

By order of the Governor in Council,

L. BIRLEY,
Secy. to the Govt. of Bengal.

No. 2197T.R.

COPY forwarded to the Secretary to the Board of Revenue, Bengal, for the information of the Board.

By order of the Governor in Council,

M. A. MOMEN,
Under-Secy. to the Govt. of Bengal.

No. 2504 Misc.

FROM F. D. ASCOLI, ESQ., I.C.S.,

Offg. Secretary to the Board of Revenue, Bengal.

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

REVENUE DEPARTMENT.

Dated Calcutta, the 3rd August 1918.

SIR,

I AM directed to submit the report on the Land Revenue Administration of the Presidency of Bengal for the year ending the 31st of March 1918. Excepting certain portions of the report from the Dacca Division, the Commissioners' reports were submitted to the Board within the prescribed time.

SECTION I.

General conditions of the year.

Material condition of the people.

2. In the Burdwan Division the rainfall was plentiful and well distributed. Some damage was casued to crops by floods of the rivers Ajay, Damodar and Silai in parts of the districts of Burdwan, Hooghly, Howrah and Midnapore but elsewhere the winter rice crop was good. The material condition of the people is reported to have been satisfactory but the high prices of cloth, salt, sugar, kerosine oil, etc., affected all classes and the low price of rice though beneficial to landless labourers and the middle classes, was adverse to the cultivators. Owing to the restrictions on railway traffic and consequent difficulties of export, stocks of food-grains are unusually large. The labouring classes had plenty of work and earned good wages in the mills and factories in Hooghly and Howrah and in the Coal Mines at Asansol, as the demand for labour both skilled and unskilled was great. The health of the people was generally good excepting in the flooded areas, where cholera broke out and malaria was worse than in the previous year.

The material condition of the people was not satisfactory in any of the districts of the Presidency Division, except Murshidabad, where it is reported to have been, on the whole, fair. In the 24-Parganas, the year was one of favourable rains and good crops, but in this, as in the other districts, the price of imported goods often exceeded thrice their normal prices before the war, while jute, rice and other agricultural produce were, owing to difficulties of transport, sold at very low rates. Trade was greatly affected by the war, and the abnormal rise in the price of cloth, salt, kerosine oil, etc., and the fall in the price of paddy and jute, told much upon people of all classes in all the districts, especially the cultivating and poorer middle classes. The general health was, on the whole, good in the 24-Parganas, Murshidabad and Khulna but not so in Nadia and Jessore owing to the prevalence of malaria.

The major portion of the population of the Dacca Division depends on agriculture. The principal crops are jute and rice. The outturn of both was good during the year. Owing to numerous causes arising out of the war, the general rise in the prices of articles of daily use continued during the

year. This affected all classes of the people. Cultivators, poorer labouring classes and middle classes with small fixed incomes, suffered very severely, owing to the abnormal rise in the price of salt, kerosine oil, sugar, molasses, corrugated iron and cloth. Of these, the greatest hardship arose from the increase in the price of cloth. The price is still gradually rising. There was no serious epidemic and the general health of the people was on the whole good.

The material condition of the people was on the whole satisfactory in Chittagong and Noakhali and fair in Tippera. There was a very good crop of *aman* paddy in Chittagong, Tippera and Noakhali; the outturn of the *bhadoi* paddy however fell below the average; the paddy crop both in *jums* and in plough lands in the Chittagong Hill Tracts was excellent. The year was a comparatively dry one and the unusual drought from November to about the third week of March adversely affected the *rabi* crop throughout the Division. The jute crop in Tippera and Noakhali was good but the price obtained was low on account of dislocation of trade owing to the war. On the whole there was a surplus of food crops throughout the Division while the prices of salt, cloth and other necessaries of life rose throughout the area. The health of this Division was generally good.

The population of the Rajshahi Division consists mainly of agriculturists, the staple crops being rice, jute and tobacco. The weather conditions were, on the whole, not favourable to these crops, and, as a result, the outturn, except in the case of winter rice, was generally lower than in the preceding year. The stock of food-grains was sufficient in all the districts in the Division. The price of jute was low throughout the year, while that of rice fell rapidly with the harvesting of the winter crop. The material condition of the cultivating classes and landholders was therefore not satisfactory. The state of things was accentuated by the abnormal rise in the prices of cloth and salt and other imported articles owing to the war. Public health was generally good in all districts except Jalpaiguri and Pabna, in both of which malaria was most prevalent and cholera broke out in sporadic form.

Economic development.

3. The coal mines in Asansol and the various mills and factories in Hooghly and Howrah had a prosperous year. The brass and bell-metal industries in Burdwan, Bankura, Hooghly and Midnapore suffered greatly on account of the high prices of raw materials, but the weavers in Bankura did good business owing to the great demand for local-made cloths in spite of the high price of yarn. It is reported that the war has affected economic progress in many ways in the Presidency Division. The stoppage of supply of sugar from abroad is said to have given an impetus to the sugar industry in the Basirhat subdivision of the 24-Parganas and in the district of Jessore. The Co-operative Societies in the 24-Parganas helped the people who embarked on this industry by providing money at a low rate of interest, but some of them, specially those at Taki, are reported to be in a very unsound condition. In Nadia the number of Co-operative Societies rose from 160 in the preceding year to 195. In the Gopalganj subdivision of the Faridpur district, a weaver's society in Kotalipara police-station and a fisherman's society at Tarail in Kasiani police-station, were started during the year under report. Molasses were extensively manufactured throughout the district, owing to the abundance of date trees and sugarcane. Coarse and fine mats were manufactured in Bhusna thana of the sadar subdivision. The two oil mills at Jhalakati and Nalchiti in Bakarganj district continued to work as in the preceding year. The oil mill at Bhola has ceased working since last November, as some of its accessories had gone out of order. The co-operative movement is doing useful work. The Commissioner reports that it is interesting to note that the *Jugis* and *Jolas* in the Sundarbans make country towels, *saris* and coarse *dhuties* for sale in the local markets and that these *dhuties* are sold at a cheaper price than those manufactured in mills. In Dacca there has been a considerable development in the manufacture of horn and mother-of-pearl buttons, large supplies being under contract for the Munitions Board. A successful experiment has also been initiated in opening up cottage chrome tanning. In Chittagong ship-building activities were zealously pursued, and seven brigs and schooners were built and registered during the year, the registered tonnage varying from 89 to 450 tons, while more are in process of construction. The tinning

factories of Messrs. Jamal Brothers & Co., and the Burma Oil Company, the Shalimar Works of Messrs. Turner Morrison & Co., and the cotton ginning mill were fully employed during the year. The weaving school at Cox's Bazar has not made any progress but weavers generally have thrived on account of the high price of imported cloth. In Tippera, jute baling, its most important and prosperous industry, was dull on account of the war. Betelnut was largely exported from the district and the *Hookka* making industry was very prosperous. The oil mill at Chandpur supplied oil to various places in Eastern Bengal. The export of fish from Ashuganj continued. In Brahmanbaria, buttons of mother-of-pearl and cocoanut shell and bamboo are being largely made and appreciated by the people. In Noakhali the export of betelnut and *khuiye* (inner bark of the betelpalm leaf used as wrapper of Burma cigars) flourished, but trade in poultry and eggs and the mat industry of Feni suffered considerably owing to the difficulties in transport. In the Chittagong Hill tracts large quantities of paddy, cotton, timber and bamboos were exported, and rice, dal, salt, dry fish, sugar and cloths imported. The most important and organised industry in the Rajshahi Division is tea, which is confined to Jalpaiguri and Darjeeling. In Jalpaiguri the crop was good, but in Darjeeling the outturn was not satisfactory owing to the unfavourable weather. Owing to the high price of silk cocoons the silk industry in Malda prospered, and there has been a gradual expansion of mulberry cultivation. The brass and bell-metal industry in Malda was almost at a standstill for want of raw material. Cotton weaving was more active in the Kaliachak thana. The Mango Canning Company supplied 15,000 tins to the Army Department. The flour mill at Bogra was turned into a company and has been doing fairly well. The rice husking mill at Hili continued to work well during the year. In Darjeeling one rice and oil mill and two rice mills are reported to have done well during the year. In this Division the co-operative movement is doing useful work and is appreciated by the people. During the year under report, products of cottage industries throughout the Presidency, to the value of a quarter of a lakh of rupees were placed on the market by the Bengal Home Industries Association—the most notable developments being in coarse weaving, *matka* silks, buttons and basket-making.

Emigration and immigration.

4. There was the usual temporary emigration of Sonthals and other aboriginal tribes from Birbhum, Bankura and Midnapore to the neighbouring districts and the Sundarbans during the harvesting season. A large number of labourers from the United Provinces also came for work to the mills and brick-fields in Hooghly and Howrah. In the Presidency Division there was the usual movement of labourers from one district to another during the harvesting season and to the Sundarbans for forest produce. In the Dacca Division the usual influx of up-country labourers and the temporary immigration of landless labourers from the districts of Dacca, Faridpur, Noakhali and Tippera for the rice harvest in Bakarganj continued. The Collector of Mymensingh reports that large numbers of Mussalman cultivators migrated to Rangpur, Cooch Behar and Assam in quest of lands. From Faridpur about two thousand people went to Basra to join the Mesopotamia Labour Corps. Temporary emigration of labourers from Noakhali and immigration of the same to Tippera in connection with harvesting, etc., took place. In Chittagong 14 families of 60 persons came to Cox's Bazar subdivision from Akyab and Satkania and 22 families of 114 persons emigrated to Akyab, Rangamati and Satkania. Four hundred and eighty-nine families emigrated from the Chittagong Hill Tracts and 431 families migrated into that district. A number of men went abroad from Noakhali and Chittagong to serve as labourers in Persia and Mesopotamia and in France. As in the last year there was an influx of aboriginal tribes from the Sonthal Parganas, and of Nepalese and Paharias and up-country labourers who came to work in tea gardens in Jalpaiguri and Darjeeling, and for employment on transhipment work at Santahar and Lalmonirhat, as well as for construction work on the Santahar-Parbatipur Broad Gauge Extension. Up-country coolies also came in large numbers to most of the districts in the Rajshahi Division during the rice harvest and jute season. There was some emigration from the Sirajganj side to Rangpur for cultivation of the *char* tracts in the Gaibandha subdivision.

SECTION II.

Collection of Land Revenue.

Statistics of estates on the tauzi roll and, their demand, collections, remissions and balances.

Appendix I.

5. The total number of estates paying land revenue was 97,806, against 97,607 in the previous year. Of these, 91,972 were in class I (permanently-settled estates), 3,473 in class II (temporarily-settled estates) and 2,361 in class III (estates held direct by Government). The net increase of 199 estates was due mainly to partitions of estates in class I and to the creation of new estates by resumption and settlements.

6. The total current demand of the year amounted to Rs. 2,78,56,900, showing an increase of Rs. 69,898 as compared with the previous year. The increase was due mostly to new settlements, resettlements and progressive increase of demands in temporarily-settled and Government estates. The total realizable demand of the year including the arrear of Rs. 18,24,690 was Rs. 2,96,81,590, out of which the amount collected was Rs. 2,72,97,443, being 91·96 per cent. of the total and 97·99 per cent. of the current demand against 93·77 and 99·85 per cent., respectively, in the previous year. There was a marked falling off in collections during the year under report which is attributed chiefly to a decrease in the market price of jute and paddy and an increase in the price of other commodities, such as cloth, kerosine oil, salt, sugar, etc. A sum of Rs. 1,98,080, though collected within the year, could not be credited in the accounts of the year. In Bakarganj again a large amount (Rs. 3,34,848) could not be credited to land revenue during the year pending disposal of a civil suit against Government for Char Bhuta and Char Fasson. This suit is now under compromise and the major portion of the amount due from the estates has recently been remitted. The bulk of the remissions, which aggregated Rs. 66,429, against Rs. 72,710 in the previous year, was allowed, as usual, in estates held direct by Government for such causes as failure of crops, diluvion, non-settlement of holdings and errors in accounts. The total outstanding balance amounted to Rs. 23,17,718, being 7·80 per cent. of the total demand, against Rs. 17,69,957 in the previous year. Almost the whole of the balance is reported to be in process of recovery.

Permanently-settled estates.

Appendix IA.

7. The total demand of permanently-settled estates amounted to Rs. 2,17,96,642 (Rs. 2,15,75,074 current and Rs. 2,21,568 arrear), of which Rs. 2,14,54,295 or 98·42 per cent. was collected. The current collections fell short of 98 per cent. in the districts of Midnapore (96·69), Nadia (96·81), Murshidabad (93·89), Faridpur (97·30), Bakarganj (96·80) and Chittagong (96·04). The falling off in the first two districts was due to the fact that the amounts realized in other districts were received in the districts concerned by remittance transfer receipts after the close of the year. In Murshidabad the office of the Collector was closed from 27th March to 1st April 1918 and the dues for the March kist were collected in April. The deficiency in Faridpur was due to the default made by the estates settled under the Bengal Settled Estates Act (III of 1904) and that in Bakarganj to the short payments made, as in previous years, in respect of the estates belonging to the late Raja Sir Sourindra Mohan Tagore, under the management of the Court of Wards, on account of its bad financial condition. Of the total balance of Rs. 81,733 in the latter district, Rs. 76,503 was due from the Tagore Estates alone. In Chittagong the short collections are mainly attributed to the fact that the tenants had difficulty in selling the paddy at a fair price and to a reduction in the earnings of the agricultural labourers of the district who annually migrate to Burma.

Temporarily-settled estates.

Appendix IB.

8. Temporarily-settled estates are divided into three sub-classes: (1) private estates settled with proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers. The total collections from all these three classes amounted to Rs. 17,02,701, being 95·09 per

cent. of the current demand of Rs. 17,90,607, against 97·36 per cent. in the previous year. Of the total outstanding balance of Rs. 5,06,080, Bakarganj alone was responsible for Rs. 3,55,857 mainly for the reason explained in paragraph 6 above.

Estates held direct by Government.

Appendix IC.

9. The estates held direct by Government comprise two sub-classes :— (1) estates belonging to private proprietors but managed by Government and (2) those owned by Government as proprietor. The total demand of these estates amounted to Rs 56,75,094 (current Rs. 44,91,219 and arrear Rs. 11,83,875), of which Rs. 41,40,447 (current Rs. 33,94,615 and arrear Rs. 7,45,832) or 72·95 per cent. was collected, Rs. 65,060 remitted and Rs. 14,69,587 left unrealized at the close of the year. A sum of Rs. 1,35,571 was collected during the year, but could not be credited in the accounts. There was a decrease both in current and arrear collections ; this is generally attributed to the low price of jute and paddy and the dearness of cloth and other necessaries of life which made it difficult for the tenants to pay their rent in full. In the Contai subdivision in Midnapore, arrears have accumulated for the last three years owing to the straitened circumstances of the tenants due to the great flood of 1913.

Miscellaneous land revenue.

Appendix II.

10. The total collections on account of miscellaneous land revenue, as detailed in Appendix II, amounted to Rs. 27,93,748, against Rs. 32,13,056 in the preceding year. The decrease is due to smaller recoveries during the year under the head "Recovery of survey and settlement charges." Out of the total collections of Rs. 1,67,379 under "Other receipts" a sum of Rs. 57,325 was realized from the Burdwan Estate on account of *pulbandi* contribution.

Changes in the land revenue demand of temporarily-settled estates and estates under direct management.

Appendix III.

11. Appendix III shows in detail the changes in the land revenue demand of temporarily-settled estates and estates under direct management. There was a net increase of 46,772 acres in the area of land settled and of Rs. 73, 366 in revenue. The increase in area is largely due to the creation of 14 new estates in the Sundarban tracts in the 24-Parganas.

Redemption of land revenue.

Appendix IV.

12. The total number of petty estates and holdings, the land revenue of which was redeemed during the year, was 328. Of these 321 were permanently-settled holdings in the Government estates of Calcutta and its suburbs. The total amount of land revenue redeemed was Rs. 586 and the price realized aggregated Rs. 17,157, against Rs. 507 and Rs. 14,519, respectively, in the previous year. There was no case of redemption under the old Partition Act of 1876.

Remittance of land revenue and cesses by special money-orders.

Appendix V.

13. The number of special money-orders issued for the remittance of land revenue and cesses during the year was 226,206, covering an aggregate amount of Rs. 20,07,860. The number of orders issued shows a considerable decrease from 297,491 in 1914-15 ; this decrease is due to the introduction of a combined form of money-order for payment of both land revenue and cesses. The total value of the orders shows a small increase. Appendix V shows that the remittances exceeded a lakh of rupees in eight districts and were more than Rs. 50,000 in eight others. The average value of each order was Rs. 8·87.

Coercive measures. Operation of the Sale Laws.

Appendix VI.

14. The particulars of the proceedings under the Revenue Sale Law are given in Appendix VI. The number of defaults and of sales during the year was 13,273 and 1,019, respectively. The number of exemptions from sale under section 18, including those for petty arrears, etc., was 11,977 or 90·2 per cent. of the defaults. There were also other exemptions of the nature described in the note to rule 3, page 100 of the Sale Law Manual, 1906. The price realized by sale was 7·7 times the Government revenue.

15. The table in the margin shows the proportion of sales to defaults in districts in which defaults were most numerous. The main causes which led to the estates, etc., being brought to sale were indebtedness of proprietors, wilful defaults owing to diluvion and lack of profit or with the object of annulling encumbrances, collusion and disputes among co-sharers. One hundred and eight appeals were filed before the Commissioners against sales. In 27 cases sales were annulled by the Commissioners under section 2 of Bengal Act VII of 1868, and in 22 cases, by the Board under section 26 of Act XI of 1859, as amended by the Decentralization Act, 1914. These figures indicate that the Sale Law was worked with considerable leniency throughout the Presidency.

Districts.	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong ...	6,197	403	6·5
Midnapore ...	1,307	54	4·1
Dacca ...	938	80	8·5
Mymensingh ...	734	22	2·9
Hooghly ...	537	37	6·8

16. The total number of certificates (exclusive of those for cesses which have been dealt with in section V), filed during the year fell from 56,964 to 56,734, showing a decrease of 230. The percentage of certificate cases disposed of to the total number for disposal was 75·4 against 76·9 in the previous year, the number of cases pending at the close of the year being 18,508, as against 17,627 at the end of 1916-17. The number of cases pending for more than six months was high in Midnapore (1,779), Dacca (806) and Tippera (530). In Midnapore, the Commissioner has asked the Collector to pay special attention to the early disposal of these cases. In Dacca there are special difficulties, while no explanation has been offered for the long pending cases in Tippera.

Certificate procedure.

Appendix VII.

The subjoined table shows the stages at which demands were satisfied :—

Division.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	Number of Debtors Imprisoned.	
					Number released on payment of debt before expiration of imprisonment.	Number released without full payment of debt.
Burdwan ...	3,709	8,274	1,308	608	...	9
Presidency	1,375	3,306	188	597	2	6
Dacca ...	3,546	9,309	1,327	98	1	4
Chittagong	3,340	10,151	1,500	727	...	2
Rajshahi ...	730	1,401	144	43	3	5

In the majority of cases, payment was made on the issue of notices, or on attachment of property, and actual sale was necessary in only 4,467 cases or 7·8 per cent. of the total number of cases (56,766) disposed of during the year.

17. Of the 32 persons committed to civil jails in the enforcement of certificates, 17 were imprisoned for non-payment of Government demands and the remainder for withholding sums due to District Boards and Court of Wards, etc.

Realization of Government and other demands by imprisonment.

18. Appendix VIII shows the details of the separate accounts opened and closed during the year. Including 1,198 opened during the year, there were at the close of the year altogether 60,171 separate accounts with a revenue demand of Rs. 69,06,728. Of these, 45,862 accounts were for shares in joint estates held in common tenancy (section 10 of Act XI of 1859), 5,333 for shares representing specific portions of lands in estates (section 11 of Act XI of 1859), and 8,976 for shares consisting of undivided interests in specific lands (section 70 of the Land Registration Act VII of 1876).

Separate accounts of land revenue payments opened for shares under Act XI of 1859 and Bengal Act VII of 1876.

Appendix VIII.

19. Appendix IX shows the statistics of the registration of tenures for protection against auction purchasers in the event of the sale of the parent estates for arrears of revenue under Act XI of 1859. There were 13 registrations during the year and the total number of tenures thus protected was 5,248 at its close. As in the previous year there were no applications for registration in the Burdwan and Rajshahi Divisions.

Registration of tenures under Act XI of 1859.

Appendix IX.

SECTION III.

Other Revenue Work.

20. During the year under report there were altogether 2,359 estates under direct management, including those of private individuals managed by Government, with an annual demand of Rs. 43,55,696 (excluding that of the Orphangunge Market, Hastings Estate, and Madhab Babu's Bazar in the 24-Parganas). The percentage of cost of management on the current demand was 7·53.

Estates under direct management.

21. The management of khas mahals is in the hands of the Collector and collection is made by purely Indian agency. There was no material change in the system of management during the year under report. A manager was appointed during the year for the canal surplus and khas khamar lands in the Panchannogram Government estate in the 24-Parganas under the new rules sanctioned by Government. The reorganisation of the khas mahal establishment of the district of Noakhali was sanctioned during the year.

Agency and mode of management.

22. A lump grant is annually made to the Board for meeting the cost of management and improvement of Government estates in the Presidency. Out of this grant a sum of Rs. 3,28,041 was expended for management, Rs. 1,14,311 on miscellaneous improvements, including agricultural improvements and experiments, and Rs. 19,984 on sanitary improvements. Of the total expenditure, *viz.*, Rs. 1,34,295, incurred on account of works of improvement, a sum of Rs. 18,723 was spent on tanks and wells, Rs. 66,575 on drainage, irrigation and embankments, Rs. 4,370 on roads and bridges and the balance (Rs. 44,627) on miscellaneous works, including planting of trees. The allotments made for works of improvement were fully spent in almost all the districts.

Grant for the management and improvement of Government estates.

Appendix X.

23. The total amount spent on roads and communications in Government estates aggregated Rs. 3,07,620, while the Government grant of one-and-half per cent. on collections from these estates amounted to Rs. 74,779, the excess expenditure being met from District Boards and other funds.

Roads and communications.

24. The total number of schools in Government estates and of pupils attending them increased from 2,241 and 75,998 in 1916-17 to 2,361 and 76,648, respectively, during the year under report. The increase both in the number of schools and of pupils was chiefly contributed by the districts of the Dacca, Chittagong and Rajshahi Divisions. A sum of Rs. 81,219 was spent on education in Government estates, against the Government grant of Rs. 50,993, being one per cent. on collections from these estates. The excess expenditure was met from local grants.

Education.

25. The accounts of Government estates were duly inspected and no serious irregularities were brought to light.

Inspection of accounts.

26. This was the eleventh year in the history of the Colonization Scheme in the Bakarganj portion of the Sundarbans. Khan Sahib Quamaruddin Ahmad, Deputy Collector, continued to be in charge of the work as Colonization Officer and spent 244 days on tour in the area during

Colonization in the Bakarganj Sundarbans.

1917-18, against 295 days in the preceding year, the decrease being due to the Officer's privilege leave without a substitute. Adequate inspections were made by the Collector and Commissioner. The Hon'ble Mr. J. G. Cumming, Member, Executive Council, also visited the Sundarbans area in February last. During the year under report 476 new colonists were settled on 23,141 bighas of land, against 638 colonists and 24,805 bighas in 1916-17.

The subjoined table shows the result of the assessment during 1917-18, of the settlers whose rent-free period or the terms of whose previous settlement have expired or are about to expire :—

Name of Estate.	No. of Settlers.	Area assessed in acres.	Initial revenue.	Ultimate revenue.
			Rs. A.	Rs. A.
Chak Kalamegha ...	86	606·91	889 3	2,667 8
Baliatoli, Part II ..	31	363·74	85 14	1,220 0
Latachapli ...	36	397·86	120 13	966 9
Dalbhuganj ...	20	308·48	92 9	832 15
Barguna ...	13	206·12	526 7	658 0
Total ...	186	1,883·11	1,714 14	6,345 0

All the assessments have been finally confirmed by the Commissioner. Large areas in Barabogi, Bara Nishanbaria, Latachapli and Mithaganj were surveyed during the last cold weather and papers are being prepared for assessment.

The details of expenditure incurred during the year on the Colonization scheme are given below :—

	Rs. A. P.
On Management, etc.—	
1. Establishment including allowance	14,854 2 5
2. Contingencies	2,253 0 0
Total ...	17,107 2 5
On works of Improvement—	
1. Agricultural	29,403 15 5
2. Sanitary	3,275 8 10
3. Miscellaneous	555 7 9
Total ...	33,235 0 0
Grand Total ...	50,342 2 5

The construction and maintenance of dams and embankments to protect the land from saline water, account for most of the expenditure on agricultural improvements. Petty repairs to these embankments are generally done by the settlers themselves who are directly benefited by them.

Aman paddy is the only crop grown to any extent in the Sundarbans. There was a bumper crop in this area during the year under report, but the abnormally low price of rice and the high price of other household commodities, due to the war, affected the financial condition of the settlers to a great extent.

The total amount advanced during the year to the colonists, as land improvement loans, was Rs. 17,000 and a sum of Rs. 5,728 was realised from them. Suspension of instalments or remission was not granted in any case.

The progress of reclamation was satisfactory.

A sum of Rs. 22,309 was realised as royalty on forest produce, against Rs. 27,926 in the preceding year.

Twenty-three rural co-operative credit societies were in existence in the colonization area at the beginning of the year and fifteen new societies were registered. The total working capital of these societies was Rs. 97,000. A sum of Rs. 55,245 was advanced by the Central Bank to these societies and Rs. 22,016 was repaid by them during the year, out of the sums that were advanced to them during the preceding years. The Collector reports that he is satisfied with the working of the societies in the colonization area.

One Supply and Sale Society was registered in the Sundarbans with a capital of Rs. 40,000 of which Rs. 15,000 was called up in 3 instalments up

to the close of the year. The society only sells goods on cash payment. The Sundarbans produce, chiefly fire-wood, was sold in Calcutta and Jhalakati and all household commodities were brought therefrom for the use of settlers. The starting of this society has proved a real boon to the settlers who were thus able to get certain articles at a cheaper rate than that prevailing in the principal marts of Jhalakati and Barisal. The Colonization Officer deserves great credit for the continued success of the movement.

The colonization area is badly in need of roads. The marginal embankments which protect the land from saline water, also serve the purpose of roads in this tract. When funds permit, construction of short roads will be undertaken. The establishment of an experimental Post-office at Latachapli is now essential for administrative purposes, but owing to financial stringency is not at present feasible.

The climate of the Sundarbans is reported to be steadily improving. There were several cases of cholera and rinderpest in this area during the year, but they were not of epidemic type. Malarial fever has greatly decreased.

Improvements made in resumed Sundarbans estates.

27. Survey and Settlement operations were in progress during the year in the Saugor Island resumed estates, Mansadwip, 2nd portion, Shikarpur, 2nd portion and Saugor Island, 3rd portion. In estate Ramkarer Char, East, 1,216 bighas of land were colonised after demarcating the boundary between it and Goalia Chak, 1st portion. During the year, the Hon'ble Mr. Stevenson-Moore visited the Sundarbans to consider the scheme for the raiyatwari reclamation of the Saugor Island resumed lots suggested by the Collector. It was decided that work should be started on those lots where the title of Government was beyond dispute. A sum of Rs. 14,414 was accordingly spent on original work of reclamation and repairs. In Khulna, a sum of Rs. 800 was spent on repairs of the embankments in the Chandkhali and Mahamadabad Government estates. In the Bakarganj portion of the Sundarbans, there are 20 resumed estates, of which five entire estates and portions of two have been declared as "Protected Forests" and the rest are under colonization. A sum of Rs. 4,15,615 was spent in the colonization area on works of improvement since 1907 up to the close of the year under review. Six tanks were excavated in the Bakarganj Sundarbans for the supply of good drinking water, two-thirds of the total cost being borne by the District Board and one-third by Government.

Waste Lands.

28. The rules for the grant of waste land leases to large capitalists in the 24-Parganas and Khulna portions of the Sundarbans continued in abeyance. Raiyatwari settlement on the lines of the Bakarganj Colonization scheme is being made in certain Sundarbans Lots in the 24-Parganas by a special officer. The number of leases granted under the Large Capitalists' Rules of 1879 and under the rules of 1853 was the same as before, viz., 188 and 93, respectively, in the 24-Parganas, and 22 and 38, respectively, in Khulna. The revenue payable in respect of these during the year was Rs. 1,23,080 and Rs. 80,163, respectively, on the former and Rs. 12,514 and Rs. 54,076, respectively, on the latter. The number of leases granted in Saugor Island was 6 as before, and the revenue payable during the year was Rs. 5,029. No leases of waste lands were granted in the district of Chittagong during the year. In Noakhali initial raiyatwari settlements were made of certain char-lands. The subjoined table shows the particulars of lands let for ordinary cultivation under the Arable Waste Land Lease Rules in the districts of Jalpaiguri and Darjeeling.

District.	During the year 1917-18.				Altogether to the end of the year 1917-18.			
	Number of cases.	Area in acres	Present Revenue.	Eventual Maximum Revenue.	Number of cases.	Area in acres.	Present Revenue.	Eventual Maximum Revenue.
Jalpaiguri ...	3	86	65	65	5,437	1,01,754	59,228	68,233
Darjeeling ...	...	...	...	...	56	47,499	16,269	27,318
Total ...	3	86	65	65	5,493	1,49,253	75,497	95,551

29. Only one estate was sold in the district of Burdwan during the year under report for Rs. 240, subject to an annual revenue of Rs. 116. In addition two plots of land in the 24-Parganas were sold to the Calcutta Improvement Trust at the full market value of Rs. 48,247.

Sale of Government estates.

Appendix XI.

30. Six plots of land covering an area of 4·18 acres, with an estimated annual rental of Rs. 85, were alienated during the year. Of these, 3 plots in Birbhum with an area of 4 acres, were alienated, free of rent, to the Suri Dispensary Committee and the Lady Curzon Zenana Hospital Committee, for the accommodation of the Dispensary and Hospital buildings; and one plot, measuring ·07 acre in the district of Murshidabad was transferred at a nominal yearly rental of Re. 1 to the London Mission Society for the extension of the L. M. S. High School at Khagra. Of the remaining two plots, both in the district of Bakarganj, one with an area of ·02 acre was made over to the Managing Committee of Patuakhali Public Library, for the erection of a Library building, at a nominal yearly rental of Re 1, and the other plot with an area of ·09 acre was alienated, rent-free, in favour of the Muktears' Bar Library at Bhola for construction of the Library building.

Alienation or assignment of land revenue.

Appendix XII.

31. Summary settlement of 709 estates was taken up; of these 503 were completed during the year, leaving 206 cases pending for various reasons.

Summary settlements.

32. The following is a brief account of the irrigation and drainage projects in the Presidency other than those in charge of the Public Works Department and those maintained from the Government Estates Improvement grant. No project of importance was taken up in the Dacca, Chittagong and Rajshahi Divisions.

Irrigation and Drainage.

Burdwan Division.—No new drainage or irrigation project was taken up during the year. Necessary steps are being taken for proper repairs and maintenance of the old irrigation channel known as the *Subhankari Danra* in the district of Bankura which was re-excavated during the last famine.

In Midnapore most of the drainage works are in charge of the Public Works Department or of the Khas Mahal Department. The Public Works Department prepared a very extensive scheme for improving the drainage of the Contai subdivision. On the recommendation of the Board, Government have asked the local officers to take steps for initiating two projects connected with the main scheme, viz., the Pichaboni scheme and the Amirabad Cut, under the Bengal Embankment Act. About 152 square miles will be drained if these two projects are carried out. The report of the enquiry about the private zamindari estates on whose behalf Government undertook the liability for the *upkeep* of the *khals* at the time of the Decennial Settlement is under the consideration of Government. The Public Works Department have been requested to prepare a list of all khals in the district showing the parganas in which they are situated, whether Government maintains them and why, and from what source the expenditure is met.

Recoveries on account of advances made for the Rajapur Drainage Scheme amounted to Rs. 3,812 leaving a balance of Rs. 11,757. The balance of Rs. 209 outstanding at the end of the previous year for the Howrah Drainage Scheme was realised in full during the year. Of the 4 estates which were under the management of Government under section 39 of the Drainage Act for the realisation of drainage dues, two were released after the close of the year as their dues were paid off in full, and the remaining two are expected to be released in the course of about 3 years.

Presidency Division.—No new irrigation and drainage project was undertaken in this Division. A sum of Rs. 1,160 was spent on the silt clearance of the Srichandra khal in the 24-Parganas and Rs. 12,991 on putting a dam across the Magrahat channel with a view to repairing the floor of the Diamond Harbour sluice.

33. *Burdwan Division.*—There were 4 high floods in the Damodar river and 3 floods in the Ajai river. The flood of the 7th October in the Damodar was the third highest since the year 1823. Precautionary measures having been taken no damage

Embankments.

was caused except a breach of 125 feet in the Damodar left embankment at Fateypur on the 82nd mile-post in the Howrah district, which has been filled up.

Proposals for repairing the embankments along the left bank of the Ajai river, which were badly damaged by the floods of 1916 are now under the consideration of Government.

Ajai embankments Nos. 27, 28 and 29 have been raised, the Ajai right embankment has been repaired, and retired embankments have been constructed at Kheobari, Dangapara and Gourangapur. The question of repairing and maintaining the zamindari embankments in Birbhum is still pending.

The Damodar reservoir enquiry survey has not yet been completed and the matter is now under the consideration of Government in the Irrigation Department.

Some works have been executed in connection with the Damodar left embankment, viz., the embankment has been raised from 1st to 61st mile, a retired line of embankment has been constructed at Kamarpur in the 13th mile, the retired embankment at Jotekubir in the 42nd mile has been extended, and the retired embankments at Tarwana and Boharpur in the 13th and 17th miles have been raised.

In Hooghly the work of remodelling the sluices at Dilakash, Gabtola, Penro and Cawnpore, and the construction of a drainage pipe at Manikara appertaining to the Madaria Khal left embankment were completed. The zamindari embankment from Penro to Dilakash was remodelled at a cost of Rs. 32,992. An estimate of cost amounting to Rs. 18,522 has been sanctioned by Government for repairs, maintenance, etc., during a period of 15 years, of the Hooghly right embankment from Ulubaria to Champakhal in the Ulubaria subdivision of the district of Howrah.

In Midnapore, besides the Government embankments, 19 takavi embankments are maintained by Government at the cost of the zamindars under the "Contract system" and one under the "Law system." In 18 of the former, the existing contract for 15 years at an annual payment of Rs. 49,763 will expire on the 31st March 1919. The renewal of the contract for a further period of 15 years has been sanctioned by Government at the enhanced rate of Rs. 59,275 per annum. Only one account was opened under the "Law system" for the construction of a sluice across the Tappa Khal at Khonuiadi and the demand on account of this work is under realisation. A report under section 11 of the Embankment Act by the Collector of Midnapore for remodelling the Bistupur zamindari embankment, of which the work has already been executed, is under the consideration of Government.

In Midnapore fifty-six criminal cases under the Embankment Act for raising bunds, etc., in the prohibited areas were instituted and disposed of during the year. One hundred and fifty-eight persons were convicted and 20 acquitted. The Collector of Howrah has sanctioned prosecution in a case under section 76(*a*) of the Embankment Act for encroachment on the prohibited areas. The case is under trial.

Presidency Division.—The total length of the schedule D embankments in the 24-Parganas is about 195 miles, a small portion of which is maintained by the Budge Budge Municipality, the Commissioners for the Port of Calcutta and Messrs. Andrew Yule & Co., the rest being maintained by Government. The construction of a retired line of embankment at Durbabaria in the 64th mile of the Hooghly left embankment has been completed at a cost of Rs. 1,652 and the damages caused by the previous year's cyclone to the protective works of the 24-Parganas embankment at the 62nd and 66th miles have been repaired at a cost of Rs. 15,628. The construction of the Mahamaya sluice has been completed at a cost of Rs. 1,33,935.

In Murshidabad some zamindari embankments in the Kandi subdivision were breached during the year by the floods of the Kuya and Maurakhi rivers and the breaches in two of them, which protect large areas, did considerable damage to crops and houses. The proprietors of these two embankments have not yet taken steps to repair the breaches properly.

Chittagong Division.—It has been decided by Government to take charge of the portion of the Gumti embankments in Tippera which falls within the

estate of the Raja of Hill Tippera and action is being taken under section 7(*1*) of the Bengal Embankment Act.

Rajshahi Division.—In the district of Rajshahi a considerable portion of embankment No. 56 which runs through Khas Mahal Srirampur was washed away. A new embankment with necessary protective work, is therefore being constructed at an estimated cost of Rs. 1,06,200.

Land Registration.

Appendix XIII.

34. Appendix XIII gives particulars of the intermediate registrations effected during the year under Bengal Act VII of 1876. The total number of proprietary interests entered in the land registration registers of the Presidency was 957,495 at the beginning of the year, as against 966,637 at its close. The number of applications for registration of succession to proprietary interests in land by purchase, inheritance, gift or otherwise was 36,974, of which 34,886 were granted before the year closed, the number of old interests removed and new interests entered being 34,493 and 43,635, respectively. The number of undisposed cases at the close of the year was 9,729, of which 107 cases are reported to be pending for more than six months. The majority of these long pending cases have since been disposed of. The expenditure on account of land registration work in the Presidency (excluding the pay of the permanent establishment) amounted to Rs. 4,101 and the fees and fines aggregated Rs. 9,042. No case of fraudulent registration was brought to light, except one case in Midnapore, in which the applicant was criminally prosecuted and sentenced to six months rigorous imprisonment. During his visit to Dacca, the Hon'ble Mr. Stevenson-Moore enquired about the re-writing of the land registers on the basis of the record-of-rights, and as a result a special establishment under Babu Jamini Mohan Ghosh, Sub-Deputy Collector, was sanctioned for the revision of the D register in that district. The Commissioner of Rajshahi continued his enquiries relating to the sufficiency or otherwise of land registration registers, and his report to the Board embodying the results is still awaited. The number of applications for revision presented to the Board under section 85 was 7, of which 1 was allowed and the rest rejected.

Partitions of estates.

Appendix XIV.

35. Forty-seven cases were instituted during the year for partition of estates under the Bengal Act V of 1897. Including the 278 cases pending from the preceding year the total number for disposal was 325, out of which 40 cases were disposed of, against 50 in the previous year. Of the 285 cases left undisposed of at the close of the year, 170 are pending for more than two years, mostly in the districts of Dacca (39), Mymensingh (34), Faridpur (26), Bakarganj (17), Tippera (16), and Rajshahi (9). The large number of cases in the districts of Dacca, Mymensingh, and Faridpur, is due to applications filed during the settlement operations ; in these cases the settlement record is being used as the basis for partition. The delay in disposal is largely due to the cumbrous procedure of the Act, and little improvement can be expected until the law has been remodelled.

Special officers were employed during the year exclusively on partition work in Mymensingh, Faridpur, Rajshahi and Dinajpur.

Estates Partition Funds exist only in the districts of Jessore, Dacca and Mymensingh. The accounts of these funds are periodically audited by the Examiner of Local Accounts, Bengal. The incidence of cost per acre of the area partitioned during the year in the districts of Dacca and Mymensingh was 7 annas 3 pies in the former and 8 annas 9 pies in the latter. No partition was completed in Jessore during the year.

Land Acquisition.

Appendix XV.

36. Particulars of lands taken up permanently for public purposes and of compensation paid for them in each district are shown in Appendix XV. During the year proceedings for the acquisition, on behalf of Government, local bodies and companies, of land covering an area of 2,670 acres were confirmed at a total cost of Rs. 23,15,521 as against an area of 5,639 acres at a cost of Rs. 71,17,478 in the preceding year. The abatements of annual revenue allowed on account of lands acquired for Government purposes, including State Railways and Subsidized Companies' Railways provided with land free of cost, amounted to Rs. 2,052, and a sum

of Rs. 10,544 was paid to Government on account of the capitalized value of Government revenue, amounting to Rs. 422, abated for lands taken up for local bodies and companies, including certain Railway Companies entrusted with the working of State lines.

Of the total expenditure incurred a sum of Rs. 15,13,035 was for the acquisition of lands required for Government, including State Railways, and Companies' Railways provided with land free of cost, and Rs. 8,02,486 for all other purposes, viz., for District Boards, Municipalities, Calcutta Improvement Trust, Calcutta Port Commissioners and Railway and other companies.

The average cost per acre of the lands for which acquisition proceedings were confirmed during the year was Rs. 867 against Rs. 1,262 in the preceding year. The decrease in the average cost is chiefly due to the fact that proceedings for the acquisition of less valuable lands in the town of Calcutta and its suburbs in the district of the 24-Parganas as well as in the Chittagong Division were confirmed during the year.

Loans under the Land Improvement Loans Act.

Appendix XVI.

37. The amount of loans under the Land Improvement Loans Act outstanding at the beginning of the year was Rs. 2,52,657 and loans amounting to Rs. 19,700 were advanced during the year under report. Out of the sum advanced during the year, Rs. 17,000 were advanced to the tenants of the colonization area in the district of Bakarganj. Of Rs. 2,72,357 the total outstanding principal, Rs. 88,711 was repayable during the year. Out of this Rs. 79,445 was realised, including Rs. 394 collected in advance, while Rs. 783 was remitted. The balance outstanding at the close of the year was Rs. 1,92,129 of which Rs. 8,877 was overdue. Of Rs. 14,937 due on account of interest, current and arrear, the collections during the year amounted to Rs. 13,993, of which Rs. 135 was paid in advance, and Rs. 163 was remitted, leaving a balance of Rs. 916 unrealized at the close of the year.

Financial results.

Appendix XVII.

38. The financial results of the working of the Act are shown in Appendix XVII. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 8,005. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 13,993. The amount of principal remitted during the year was Rs. 783 ; this has to be borne by the Provincial Government as well as the special expenses connected with the working of the Act which amounted to Rs. 473. Thus there was a net profit of Rs. 4,732 to the Provincial Government during the year, against a loss of Rs. 5,760 during the preceding year.

Loans under the Agriculturists' Loans Act.

Appendix XVIII.

39. The amount advanced during the year under the Agriculturists' Loans Act was Rs. 1,00,628. The largest sums were issued in the districts of Noakhali (Rs. 48,669), Burdwan (Rs. 18,480) and Bakarganj (Rs. 18,351). In Noakhali the whole amount was advanced in the area in the Feni subdivision affected by flood during the previous year. In Burdwan and Bakarganj also there was distress on account of floods. The outstanding balance of the previous year was Rs. 15,29,310 making the aggregate amount outstanding Rs. 16,29,938 of which Rs. 11,42,337 was recoverable within the year. The total collections amounted to Rs. 9,14,702 including Rs. 7,368 paid in advance and excess, and Rs. 918 was remitted. The balance recoverable in future years is Rs. 7,14,320 (including Rs. 39,090 under suspension), of which Rs. 1,94,995 was overdue at the end of the year. The amounts overdue in the districts of Tippera, Burdwan, Noakhali and Mymensingh are heavy. Of Rs. 1,41,982 due on account of interest, current and arrear, Rs. 1,12,775 was collected (including Rs. 168 paid in advance and realized as subsequent interest), Rs. 294 was remitted and Rs. 5,774 suspended, leaving a balance of Rs. 23,307 overdue at the end of the year.

Financial results.

Appendix XIX.

40. The financial results of the working of the Act are shown in Appendix XIX. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 42,965. The amount of interest collected by the Provincial Government from its

debtors during the year was Rs. 1,12,775. The amount of principal remitted during the year was Rs. 918, and the expenses connected with the working of the Act during the year amounted to Rs. 701. Thus there was a net profit of Rs. 68,191 to the Provincial Government during the year against Rs. 29,887 in the preceding year.

Rent suits (under Act X of 1859) in Revenue Courts.

Appendices XX to XXIII.

41. The number of rent suits instituted in the Revenue Courts in the district of Darjeeling, which is the only district in which Act X of 1859 is in force, was 102 as against 129 in the previous year. Including 45 cases pending from the preceding year, there were 147 cases for disposal, of which 126 cases were disposed of against 118 cases of the previous year, leaving 21 pending at the close of the year, none of which were of long standing. Damages were allowed to the plaintiffs in 20 cases against 26 in the preceding year. There was no application for aid in distraint or in the sale of distrained property and there were no notices of enhancement or relinquishment during the year. The rent suit registers were inspected by the Deputy Commissioner and no irregularities were found.

SECTION IV.—RENT.

Working of the Bengal Tenancy Act.

Bengal Tenancy Act.

42. The Bengal Tenancy Act is in force throughout the Presidency, except the district of Darjeeling, the Chittagong Hill Tracts, and the town of Calcutta.

Relations between landlords and tenants.

43. The relations between landlords and tenants were not satisfactory throughout the Presidency. Ill-feeling caused by enhancement of rent, illegal exactions or money-lending was noticeable in several districts. Disputes between co-sharer landlords often led to the oppression of the tenants.

Issue of rent receipts.

44. Out of 69 cases in which proceedings were taken for failure to grant rent receipts as provided in the Bengal Tenancy Act, 35 ended in the imposition of fines, 26 were dismissed or struck off, 1 was compromised and 7 were pending at the close of the year. In eight of the cases ending in conviction, the orders were set aside on appeal.

Working of the Bengal Tenancy Act.

Appendix XXIV.

45. There was a decrease in the number of voluntary transfers which is generally attributed to the comparatively good crop obtained during the year.

The law relating to the transferability of occupancy holdings has been amended by Act II of 1918 in order to provide for restrictions on alienation of land by aboriginals. The Bill relating to the transferability of occupancy holdings generally is still under consideration.

Receipts and payments of landlords' fees.

Appendix XXV.

46. There was an increase in the payment of landlords' fees, as compared with the previous year, in all the Divisions, except the Presidency Division. The percentage of payment on receipts in that Division, however, rose from 55·45 to 60·08.

Remittance of rent by special money orders.

Appendix XXVI.

47. Payments of rent by money orders were in force throughout the Presidency, except in the districts of Darjeeling and the Chittagong Hill Tracts. As compared with the preceding year, there was a decrease both in the number of orders from 65,057 to 63,619, and the amount covered by them from Rs. 10,35,757 to Rs. 9,88,405. The decrease in the number of remittances was shared by all the Divisions except Rajshāhi. The percentage of money orders refused to money orders issued, fell from 19·1 to 16·7. The percentage was highest in Malda (53·6) and lowest in Bogra (2·0).

Zamindari *abwabs*.

48. The practice of levying *abwabs* or illegal cesses in addition to rent continued to prevail throughout the Presidency. As a rule, the tenants pay these illegal demands without much demur in order to maintain amicable relations with their landlords. No regular suits were filed under section 75 of the Bengal Tenancy Act to resist these demands, and it is clear that the law, as it exists, is inoperative. The extension of records of rights in the Presidency has, however, had a beneficial effect in restricting the levy of *abwabs*: this is due to the fact that settlement operations afford the opportunity for detailed enquiries and for educating the cultivators to a recognition of their rights.

SECTION V.

Road and Public Works Cesses.

Road and Public Works Cesses.

49. The following is an account of the working of the Bengal Cess Act IX of 1880, during the year under report :—

Rate of cesses, land revenue demand and gross rental

50. The Road and Public Works Cesses were, as before, levied at the maximum rate of one anna in the rupee on the valuation of lands and annual net profits of mines and other immovable properties in all the districts of the Presidency excepting the Chittagong Hill Tracts, where the Act is not in force. The current demand of land revenue for these districts excluding Chittagong Hill Tracts and municipal areas was Rs. 2,78,41,561, and the valuation or gross rental on which the cesses are based amounted to Rs. 12,59,55,694. The land revenue thus works out at 22·1 per cent. of the rental.

Demands, collections, balances and remissions.

Appendix XXVII

51. The accounts of both the cesses have been shown in detail in Appendix XXVII. The table below gives an abstract for the last two years :—

Year.	DEMAND.			Collections.	Percentage of total collections on current demand.	Balance.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arrear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
Year ending 31st March 1917 ...	68,02,676	9,31,476	77,34,152	68,59,384	100·8	8,74,67[illegible]	11·3	29,971
Year ending 31st March 1918 ...	69,15,098	8,74,505	77,89,603	67,56,691	97·7	10,99,917	14·1	62,423

As compared with the preceding year, there was an increase of Rs. 1,12,422 in the current demand. The increase is mainly shared by Midnapore (Rs. 42,483), Dacca (Rs. 26,146) and Rajshahi (Rs. 24,045), and was due to the valuation and revaluation proceedings. Taking the Presidency as a whole there was a slight falling off in the percentage of collection from 100·8 in 1916-17 to 97·7. The percentage of the outstanding balance on the total demand increased by 2·8. The remissions increased from Rs. 29,971 to Rs. 62,423 of which a sum of Rs. 60,852 was granted in the district of Burdwan alone, owing chiefly to the annual revision of coal mine assessments under Chapter V of the Cess Act.

Percentage of collections in districts—

1.	Faridpur ...	103·4
2.	Midnapore ...	102·7
3.	Mymensingh ...	102·1
4.	Burdwan ...	101·0
5.	Malda ...	101·0
6.	Nadia ...	100·6
7.	Birbhum ...	100·0

52. As will be seen from the percentages noted on the margin, the collections in 7 out of 25 districts in the Presidency attained the standard of 100 per cent. or more, on the current demand. Of the remaining districts the standard was nearly reached in Jalpaiguri (99·9), Bankura (99·7), Darjeeling (99·7), Bogra (98·8) and Hooghly (98·6). In the 24-Parganas (97·5) the decrease was due to the non-payment of cesses by some of the lessees of the Sundarban estates and certain rent-free holders. In Murshidabad (96·8) it is reported to be due to the closing of the Collectorate from 27th March to 1st April 1918 owing to an authorized local holiday. The falling off in Jessore (97·6), Noakhali (91·6) and Rangpur (91·4) was due to the non-payment of cesses by some big zamindars. The low percentage in Bakarganj (92·3) is reported to be due to the fact that a large amount due from the Court of Wards was not

credited within the year. The decrease in Dacca (94·2), Chittagong (97·1,) Tippera (95·8), Rajshahi (91·5), Dinajpur (97·1) and Pabna (94·5) is ascribed generally to the low price of paddy and jute and the high prices of the other necessaries of life caused by the war. No explanation has been furnished for the short percentage in Khulna (96·2).

Sums barred by limitation

53. During the year, no portion of the arrear cess demand became barred by limitation in any of the districts of the Presidency.

Working of the certificate Procedure.

Appendix XXVIII.

54. The total number of certificates filed during the year for the realisation of cesses was 44,209, as against 48,850 in the preceding year. The decrease in the number of institutions is most marked in the 24-Parganas (1,011) and Nadia (1,745). Including 14,612 (revised figures) pending from the previous year, the total number of certificates aggregated 58,821, of which 48,343 were disposed of during the year, leaving 10,478 cases pending, as against 14,621 at the close of 1916-17. The number of cases pending over six months was only 1,062 (as against 1,346 of the previous year) of which Burdwan and Hooghly were responsible for 193 and 169 cases, respectively; necessary action is being taken by the Collectors concerned to reduce this number.

Objections against certificates.

55. The total number of objections filed and disposed of was slightly higher than in the previous year, being 2,717 and 2,685, as against 2,549 and 2,529, respectively. In 343 cases certificates were cancelled on account of the death or desertion of certificate debtors, double assessments, and owing to the certificates being filed against wrong persons, etc.

Stages of procedure at which demands were satisfied.

56. The mere issue of preliminary notices under the Certificate Act was sufficient to secure payment in 12,641 cases, while notices for the attachment of property, movable and immovable, induced payment in 31,526 cases. Sales actually took place in only 1,448 cases out of a total number of 58,821 cases for disposal.

Valuation and revaluations.

Appendix XXIX.

57. Detailed information regarding valuation and revaluation operations inclusive of those conducted by the agency of the Settlement Department is shown in Appendix XXIX. It will be seen that during the year under report revaluations on a big scale under the control of the Collector were in progress in the districts of the 24-Parganas, Midnapore and Bakarganj. Revaluations conducted by the Settlement Department were also in progress in the entire district of Rajshahi. and 2,798 estates in Noakhali. The annual valuations of the mines in the Burdwan. Division and *gazari* forest in Dacca under Part II, Chapter V of the Act, proceeded as usual. The question of a more general application of such valuations is now under the consideration of the Board.

Separate accounts for revenue-paying and revenue-free estates.

Appendices XXX & XXXI.

58. Appendices XXX and XXXI give the details of the separate accounts opened in revenue-paying and revenue-free estates. The number of such accounts opened during the year was 1,271 for revenue-paying estates, and 14 for revenue-free estates, the total number at the end of the year being 56,372 and 687, respectively.

Estates and tenures.

Appendix XXXII.

59. Owing to partitions and the addition of new estates, the number of revenue-paying and revenue-free estates assessed to cesses rose by 311 and 64, respectively. There was a decrease of 164 in the number of rent-free lands kept under direct collection on account of amalgamation with the parent estates. The number of tenures increased by 541,948, of which Rajshahi alone is responsible for 539,943, owing to the recent revaluation of the district.

Gross rental.

Appendix XXXIII.

60. Appendix XXXIII compares the gross rental of each district according to the latest revaluation with the valuation when road cess was first introduced under Bengal Act X of 1871. The gross rental shows an increase of Rs. 5,06,97,530 over the initial valuation and

of Rs. 9,95,086 over that of the previous year. The increase is due to valuations and revaluations.

Miscellaneous.

61. No progress was made with the amendment of the Cess Act pending the passing of the Village Self-Government Bill at present before the Council.

SECTION VI.

Miscellaneous.

Processes.

Appendix XXXIV.

62. Appendix XXXIV shows the number and cost of service of all processes, revenue and criminal, served through the revenue Nazarat. The total number of processes served was 953,654 against 952,195 in the preceding year. The process fees realized amounted to Rs. 3,84,177 against Rs. 3,77,234 in the preceding year, and the total cost of service, including the pay of the supervising establishment debitable to land revenue, was Rs. 2,22,772 against Rs. 2,21,205 in the previous year. In the districts of Jessore and Bogra the cost of process serving establishment exceeded the receipts from fees. The system of fines and rewards for bad and good work is reported to have worked well generally.

The system of serving processes by dafadars through President Panchayats was in force in the districts of Hooghly, Birbhum, Khulna, Dacca, Tippera and Jessore and in parts of the districts of Burdwan, the 24-Parganas, Nadia, Murshidabad, Faridpur and Rangpur. It has been introduced in the Sadar Subdivision of Nadia with effect from the 1st April 1918. The system is reported to have worked satisfactorily on the whole in all places except in the district of Burdwan.

In Midnapore two permanent peons were dismissed, two occasional peons were removed and 20 peons were suspended for various terms for bad work. In the Diamond Harbour Subdivision in the district of the 24-Parganas, one peon was prosecuted by a private party and convicted, for not crediting the money received from the party, and in consequence was dismissed. In Faridpur one peon was dismissed for tampering with the date of a case in a summons entrusted to him for service; one peon and one apprentice-peon of Barisal Sadar were dismissed for taking illegal gratification from a judgment-debtor in a certificate case when they had arrested him under a warrant. One peon of the Madaripur Subdivisional office was suspended for a period for returning some warrants unexecuted without satisfactory explanation. In Noakhali one peon was convicted and imprisoned for taking illegal gratification while realizing a certificate demand in execution of a distress warrant. During the year one of the permanent process-serving peons of the Rangpur Collectorate was sentenced to three and a half years rigorous imprisonment for altering figures in a warrant for realization of money and realizing the excess and misappropriating it. In Bogra two peons were dismissed, one for serious neglect of duty and the other for submitting a false service return and affidavit.

Records.

63. A sum of Rs. 28,048 was allotted for the maintenance in an efficient order of record-rooms attached to the district, the Commissioners' and the Board's offices. The records of these offices are reported to be generally in good condition. In Dacca, the old survey papers were damaged and are being repaired or copied as far as possible. In Bogra, some of the valuable documents kept under double lock have become worn out and been eaten by insects. It is reported that steps are being taken to have them copied during the current year.

The periodical destruction of B and C papers was duly carried out in most of the districts. The quinquennial revision of records was completed in the districts of Bankura and Bakarganj and is in progress in a few other districts. The settlement records of the Dacca and Faridpur districts are still in hired buildings as want of funds delays the schemes for new record-rooms at these places. The scheme of improving the lighting of the record-room at Malda

and of bringing the Revenue and Criminal record-rooms attached to the 24-Parganas Collectorate under one roof, could not be taken up for want of funds. It is reported that an extension of the Pabna record-room has become necessary to accommodate the records of diara settlements.

Libraries.

64. The libraries in all the districts and in all the subdivisions are reported to be generally in good condition. The catalogue of books in the Darjeeling library has been re-written and the books which were wrongly classified have been properly arranged. The library at Rangpur has been removed from the damp and unsuitable room in which it was located. The revision of the catalogues of books was completed during the year in some districts and subdivisional libraries, while it is in progress in others. Difficulty is experienced for want of accommodation in the district libraries at Pabna and Bogra and the subdivisional libraries at Brahmanbaria and Thakurgaon.

Treasure Trove Act VI of 1878.

65. During the year action was taken under the Act in the following cases :—

(*i*) In Murshidabad one gold coin, four gold rings, one small piece of gold, fourteen silver coins and one bent rod of silver of an aggregate approximate value of Rs. 130 were found by certain labourers while digging earth for the Sagardighi Local Board Road in the Lalbagh subdivision.

(*ii*) In Nadia 42 old silver coins bearing the name of the Emperor Shah Jehan were found in village Makampara, police-station Kaliganj.

(*iii*) About 26 pieces of lead weighing about 4 maunds and valued at about Rs. 1,200 were found in the Calcutta Port Commissioners land at Budge Budge in the 24-Parganas.

(*iv*) One gold coin in thana Sabhar (Dacca) and 346 old coins in thana Rupganj (Dacca) were found buried underground.

(*v*) In Rangpur two men found an earthen pot containing King's coins buried in the bank of the river Teesta where a homestead had once stood.

(*vi*) In Pabna certain labourers while digging earth from a ditch at Shazadpur found in an earthen pot 70 old, apparently silver, coins of the time of the Mughal Empire with inscriptions in Arabic characters, one gold ring and one gold *bali*, the approximate value of which was Rs. 80.

Personnel—

Of the Board.

66. The office of the Member of the Board of Revenue, Bengal, was held by the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., throughout the year.

Of Commissioners.

67. The following Commissioners held office during the year :—

Burdwan Division.—Mr. D. H. Lees held charge throughout the year, except from 1st to 30th October 1917, Mr. W. A. Marr officiating for him.

Presidency Division.—The Hon'ble Mr. J. T. Rankin was in charge from 2nd September to 30th October 1917, and from 30th January to 31st March 1918, and the Hon'ble Mr. F. J. Monahan for the remainder of the year.

Dacca Division.—Mr. F. C. French, C.S.I., was in charge throughout the year.

Chittagong Division.—Mr. K. C. De, C.I.E., held charge throughout the year.

Rajshahi Division.—Mr. H. F. Samman held charge from 1st April to 22nd September 1917, and again from 31st October following to the close of the year. Mr. J. N. Gupta was in charge from 23rd September to 18th October 1917, and Mr. F. W. Strong from 19th to 30th October 1917.

Tours and inspections of the Member of the Board.

68. During the year the Hon'ble Mr. Stevenson-Moore visited Kálimpong, Jalpaiguri, Dinajpur, Sarail, Brahmanbaria, Comilla, Noakhali, Dacca, Saugor Island and Contai.

The visits to Kalimpong were in connection with its development as a Hill station. He visited Jalpaiguri mainly in connection with the scheme of establishing a mufassal agency to maintain the record and Dinajpur, Comilla, Noakhali and Dacca mainly to examine the pending questions relating to the forms of the Land Registration registers, and the introduction of a uniform system of notation of shares. Questions relating to the management of khas mahal estates in Noakhali and the embankment in Kutubdia Island in Chittagong were also discussed with the Commissioner of Chittagong. The affairs of the important wards estates in Dacca, Tippera, Noakhali and Jalpaiguri were also discussed with the local officers. He visited Sarail and Brahmanbaria in Tippera accompanied by the Commissioner of Chittagong in connection with the proposal for the removal of the headquarters of the Kasimbazar wards estate from Sarail to Brahmanbaria. Towards the latter part of the year the Hon'ble Member toured in the 24-Parganas Sundarbans (Saugor Island) and decided that the reclamation work should be started in the Saugor lots where the title of Government was beyond dispute. At Contai the khas mahal reorganisation scheme was discussed with the Collector, and the Subdivisional Officer, as also the important schemes which have been prepared by the Public Works Department for draining that subdivision.

Of Commissioners.

69. The Commissioner of the Burdwan Division (Mr. Lees) toured for 121 days and Mr. W. A. Marr for 9 days. All the District offices (except Howrah which was visited in April 1918) and all Subdivisional offices were inspected during these tours. In the Presidency Division, Mr. Monahan, the Commissioner, was out on tour for 47 days and Mr. Rankin who officiated for him, for 17 days. These tours resulted in the inspection of all the District offices and 11 out of 17 Subdivisional offices. In the course of his tours which extended to 66 days, Mr. French as Commissioner of the Dacca Division visited the District offices of Faridpur and Bakarganj and some places in Dacca and Mymensingh districts and inspected 5 Subdivisions. The number of days spent by the Commissioner of the Chittagong Division (Mr. De) on tour was 108 days, in the course of which he made detailed inspections of all the District and Subdivisional offices in the Division. He visited the possible sites of the headquarters of the new Subdivision to be opened in Tippera, and places in Noakhali in connection with the proposal to remove the headquarters of the district to a suitable site, in case the erosion of the town by the sea continued. The total number of days spent on tour by the Commissioner of the Rajshahi Division (Mr. Samman) was 124 of which 14 were contributed by Mr. Gupta. In the course of these tours Mr. Samman inspected all the District offices except Darjeeling, which was inspected by Mr. Gupta, and 5 Subdivisional offices. During his tours he paid special attention to the system of keeping the Land Registration Registers in the several districts.

Of District and Subdivisional Officers.

70. The District Officers in the course of their tours visited almost all parts of their respective districts and made inspections of local institutions and attended to all matters connected with the administration. They thoroughly inspected their own offices, including district treasuries at headquarters as well as the subdivisional offices and sub-treasuries under their respective control. The only Collector who was unable to inspect all the branches of his office was the Collector of Dacca, and it is explained that much of his time was taken up by special matters connected with the war.

The tours and inspections of Subdivisional Officers were on the whole adequate and satisfactory.

I have the honour to be,

SIR,

Your most obedient servant,

F. D. ASCOLI.

Offg. Secretary.

APPENDICES.

ment during the year 1917-18.

BALANCES.			CLASSIFICATION OF BALANCES		PERCENTAGE—			Total of sums included in the total demand of the year, the recovery of which was in suspense.	Collections made within the year, but not credited in the accounts of the year.	Percentage of total collections (column 9) on the total demand (column 6) if the amount in column 19 is excluded from the demand and that in column 20 added to the collections.
Current.	Arrear.	Total.	Doubtful or irrecoverable.	In process of recovery.	Of current collections (column 7) on current demand (column 4).	Of arrear collections (column 8) on arrear demand (column 5).	Of total collections (column 9) on total demand (column 6).

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue Branch.

DARJEELING, THE 16TH OCTOBER 1918.

RESOLUTION—No. 1715T.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year ending the 31st March 1918.

THE Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., was in charge of the office of the Member of the Board of Revenue throughout the year.

2. **General conditions of the year.**—The outturn of crops was satisfactory; but owing to the dislocation of trade due to the war prices of the staple crops, rice and jute, were low. The material condition of the cultivating classes and of the land-holders was not therefore satisfactory, while the high prices of imported articles, such as salt, sugar, kerosine oil, corrugated iron, and particularly of cloth, affected all classes of people, cultivators, labourers and persons with small fixed incomes suffering very severely. The coal mines in Asansol and the various mills and factories in Hooghly and Howrah had a very prosperous year and gave employment to a large number of labourers. The weaving of cotton cloth, the silk industry and the sugar making industry prospered on account of the dearness of imported articles; but the brass and bell-metal industries and other industries which depend on foreign countries for raw materials were seriously hampered. A good impetus was given to the ship-building industry in Chittagong where several brigs and schooners were built during the year, the registered tonnage varying from 89 to 450 tons. Some damage was done to crops by the floods of the Ajay, Damodar and Silai in parts of Burdwan, Hooghly, Howrah and Midnapore districts, and by the floods of the Kuya and Maurakshi in Murshidabad district. A sum of Rs. 1,00,628 was advanced during the year under the Agriculturists' Loans Act and of Rs. 19,700 under the Land Improvement Loans Act.

3. **Land Revenue demand and collections.**—The current demand of the year amounted to Rs. 2,78,56,900, showing an increase of Rs. 69,898 over the previous year, due to new settlements, resettlements and progressive increase of demands in temporarily-settled and Government estates. The collections amounted to Rs. 2,72,97,443, being 91·96 per cent. of the total and 97·99 per cent. of the current demand against 93·77 and 99·85 per cent. of the previous year. The remission of revenue during the year amounted to Rs. 66,429.

4. **Road and Public Works cesses.**—The current demand on account of Road and Public Works cesses showed an increase of Rs. 1,12,422 over the previous year, due to valuation and revaluation proceedings. There was a falling off in the percentage of total collections on the current demand from 100·8 in 1916-17 to 97·7. Only 7 districts attained the standard of 100 per cent. collection against 13 districts in the previous year. Out of the 25 districts to which the Cess Act applies, valuations and revaluations, partial or complete, were made in 14 districts and were completed in 9. Revaluations conducted by the Settlement Department were in progress in Rajshahi and Noakhali, and revaluations in accordance with the ordinary procedure were in progress in the 24-Parganas, Midnapore and Bakarganj. The current demand of land revenue for the cess-paying districts was Rs. 2,78,41,561, and the valuation or gross rental on which cesses are based amounted to Rs. 12,59,55,694. The land revenue is thus 22·1 per cent. of the rental.

5. **Revenue and Cess money-orders.**—As compared with the previous year there was a slight increase in the number of money-orders for the remittance of land revenue and cesses and in the amount covered by them, viz., 226,206 and Rs. 20,07,860, respectively, against 225,411 and Rs. 19,53,563 in 1916-17. The number of money-orders issued shows a considerable decrease from 297,491 in 1914-15, due to the introduction of the combined form for the payment of both revenue and cesses; but the amount covered by the orders has been the largest this year since 1914-15.

6. **Coercive measures.**—The number of estates which defaulted and became liable to sale was 13,273 or over 2,200 more than in the previous year. Only 1,019 estates or 7·6 per cent. were actually sold against 981 estates in 1917-18. The largest numbers of defaults were in the districts of Chittagong, Midnapore and Dacca; and the sales were proportionately most numerous in Dacca, Hooghly and Chittagong. The number of certificates filed, including those for cess, was 100,943 against 105,814 in the preceding year, and the number pending at the close of the year was 28,986 against 32,248 of 1916-17. In the majority of cases payments were made on the issue of notices or on attachment of property. Actual sale became necessary only in 5,915 cases or 5·6 per cent. of 105,109 cases disposed of during the year.

7. **Government estates.**—The total number of estates under direct management, including those of private individuals managed by Government, was 2,359, with an annual demand of Rs. 43,55,696. Rupees 1,34,295 were spent on miscellaneous and sanitary improvements; and of this amount Rs. 66,575 were spent on drainage, embankment and irrigation alone. The expenditure on roads and communications was Rs. 3,07,620, of which Rs. 74,779 were given by Government and the balance was provided by District Board and other funds. There were 2,361 schools attended by 76,648 pupils in Government estates. The expenditure on education amounted to Rs. 81,219, and of this Government contributed Rs. 50,993 and the remainder was met by local grants.

8. **Waste lands.**—The rules for the grant of waste lands leases to large capitalists in the 24-Parganas and Khulna portions of the Sundarbans continued in abeyance. Raiyatwari settlements on the lines of the Bakarganj Colonization Scheme are being made in certain Sundarbans lots in the 24-Parganas. The Colonization Scheme in the Bakarganj Sundarbans continues to thrive; in this area 476 colonists were settled on 23,141 bighas against 638 colonists on 24,805 bighas in 1916-17.

Arrangements were made for improving the educational facilities in the colonization areas and an initial expenditure of Rs. 2,500 for the construction of schools and teachers' quarters and a recurring grant of Rs. 2,004 on account of teachers' pay were sanctioned. No fees will be charged for the present; and vacations will be arranged to suit the local conditions and the requirements of parents during the sowing or harvesting seasons.

9. **Drainage, Embankment, and Irrigation.**—No new drainage or irrigation scheme of importance was undertaken during the year. The Public Works Department prepared a very extensive scheme for improving the drainage of the Contai subdivision, and steps are being taken for initiating two projects connected with this scheme, which are expected to drain 152 square miles. The Damodar reservoir survey is still under the consideration of Government. The repairs of embankments along the left bank of the Ajay which were badly damaged by the floods of 1916 and the question of repairing and maintaining the zamindari embankments in Birbhum are also under consideration. To improve the Gumti embankments in Tippera, which were breached by floods in 1915, it has been decided to take charge of that portion which falls within the estate of His Highness the Raja of Hill Tippera; and action is being taken under section 7(*1*) of the Bengal Embankment Act.

10. **Partitions.**—Forty-seven cases were instituted during the year and 278 cases were pending at the end of the previous year. Of these 40 cases were disposed of during the year and 285 cases were left pending.

11. **Working of the Bengal Tenancy Act.**—The relations between landlords and tenants were unsatisfactory in places. Ill-feeling, caused by enhancement of rent, illegal exactions and money-lending, was noticeable in several districts. Failure to give rent-receipts and levy of *abwabs* and illegal cesses in addition to rent continued to prevail throughout the Presidency. The extension of the record-of-rights in the Presidency has had a beneficial effect in restricting the levy of *abwabs* as it educates the cultivators to a recognition of their rights. As compared with the previous year, there was a falling off in the number of rent money-orders and also in the amount covered by them. The percentage of money-orders refused by landlords to money-orders sent fell from 19·1 to 16·7. The law relating to the transferability of occupancy-holdings has been amended by Act II of 1918 to provide restrictions on alienation of land by aboriginals. The Bill relating to the transferability of occupancy-holdings generally is still under consideration.

12. The thanks of the Governor in Council are due to the Board for its efficient administration of the Land Revenue Department.

By order of the Governor in Council,

L. BIRLEY,

Secy. to the Govt. of Bengal.

No. 1716T.R.

Copy forwarded to the Secretary to the Board of Revenue, Bengal, for the information of the Board.

No. 2966 Misc.

FROM F. D. ASCOLI, ESQ., M.A., I.C.S.,
Secretary to the Board of Revenue, Bengal,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,
REVENUE DEPARTMENT.

Dated Calcutta, the 14th August 1919.

SIR,

I AM directed to submit the Report on the Land Revenue Administration of the Presidency of Bengal for the year ending on the 31st of March 1919. Excepting certain portions of the report from the Dacca Division, the Commissioners' reports were submitted to the Board within the prescribed time.

SECTION I.

General Conditions of the Year.

Material condition of the people.

2. During the year under report the material condition of the people was unsatisfactory in varying degrees in all the districts of the Burdwan Division. The rainfall was insufficient and badly distributed. The outturn of the paddy crop was below the normal in most of the districts. In Bankura the failure of crops was most widespread and the distress of the agriculturists was in consequence much more intense, and relief operations had to be opened in the district. The total amount spent on test works up to the end of March 1919 was Rs. 14,726 and on gratuitous relief Rs. 54,091, and agricultural and land improvement loans to the extent of Rs. 47,000 and Rs. 23,000, respectively, were sanctioned up to the end of the year. The prices of all the necessaries of life ruled high throughout the year. The abnormal rise in prices has very adversely affected the condition of the people, especially the landless middle classes who live on fixed incomes. The outbreak of influenza, malaria, cholera and small-pox in certain places was a great calamity and exacted a heavy toll of mortality from the people.

In the Presidency Division the material condition of the people was not satisfactory in any of the districts except Khulna, where it is reported to have been, on the whole, fair. The rainfall was not well distributed and outturn of crops was poor and below the normal in most of the districts. Trade was greatly affected by the war and people of all classes, especially the middle classes with small fixed incomes, suffered from the abnormal rise in the prices of cloth, salt, kerosene oil and coal, etc. Public health was not generally good owing to the prevalence of malaria and influenza in all the districts. There were epidemics of cholera in some parts of the 24-Parganas, Murshidabad and Khulna districts.

The population of the Dacca Division is mainly agricultural, the principal crops grown being jute and rice. Both these crops were damaged by floods in parts of the districts of Dacca, Mymensingh and Faridpur during the year. Agricultural loans had to be distributed in some parts of Mymensingh and Bakarganj. All classes have suffered from the high prices of almost all the articles of ordinary daily use—food, clothing, fuel and oil. The classes dependent on fixed incomes have naturally suffered most, while those engaged in trade have probably, on the whole, prospered, and the difficulties of those who grew jute were mitigated, to a great extent, by the extraordinary rise in the price of this commodity. The general health of the people was seriously affected in the last half of the year by serious outbreaks of influenza, cholera and small-pox. The mortality from influenza was great and even those who recovered from attacks of the disease suffered from prolonged enfeeblement. It is noteworthy that influenza was fatal in more cases in villages than in towns. Considerable damage was done by the earthquake of the 8th July 1918 in the Kishorganj, Netrakona and Sadar sub-divisions of the district of Mymensingh.

In the Chittagong Division the material condition of the people was on the whole good, except in Tippera. There was normal rain

in April and May, but subsequently heavy rains and early floods greatly damaged the standing *aus* paddy in Chittagong and Tippera. In the Brahmanbaria sub-division of the latter district the very high and prolonged flood not only damaged the standing *aus* crop and jute considerably, but delayed the transplantation of winter rice. The winter paddy in this subdivision as well as in Chittagong suffered from long continued drought, which also affected the *rabi* crops throughout the division. The condition of the agriculturists in Brahmanbaria became sufficiently serious to call for relief towards the close of the year by way of agricultural loans, and relief works were opened by the District Board. The heavy increase in the price of food-grains, clothes and all other commodities was most marked during the year and very much affected the people of all classes, especially those living on fixed incomes. Influenza and cholera visited more or less severely all the districts of the division including the Chittagong Hill Tracts. The epidemic broke out in Noakhali and Tippera and counted a large number of victims. Small-pox was also prevalent in Chittagong and Tippera, but not very virulently.

The material condition of the people of the Rajshahi Division, who are mostly agriculturists, was decidedly unsatisfactory. The year was remarkable for heavy floods in a great part of the division in August and September and a severe drought from October till the end of the year. These conditions were naturally very unfavourable to crops—the principal being rice, jute and tobacco—which suffered in all the districts and the effect was intensified by the high prices of foodstuffs and other necessaries of life. The consequence was that the poor and middle classes with limited incomes were seriously affected. There were heavy floods in Rajshahi, Dinajpur, Bogra and Pabna, the damage caused to crops and homesteads being greatest in Rajshahi and Bogra. The amounts advanced as agricultural loans to the sufferers in Rajshahi and Bogra were Rs. 2,31,696 and Rs. 1,49,200, respectively. Cattle suffered a great deal for want of fodder and a large number died in consequence. Public health was bad in all the districts except Rangpur and Darjeeling. People suffered from malaria, and considerably from influenza which assumed an epidemic form everywhere. Small-pox and cholera broke out in almost all the districts. These ailments caused heavy mortality in all the districts of the division.

Economic development

3. The coal mines and factories in the Asansol sub-division in Burdwan and factories and mills in Hughli and Howrah had an exceptionally busy year and gave employment to a large number of labourers. The minor industries, such as cotton-weaving in Burdwan, Midnapur and Hughli, manufacture of silk and *tasar* cloth of Bankura, Midnapur and Birbhum and the brass and bell-metal manufactures in the districts of Burdwan, Bankura, Midnapur and Hughli did not prosper on account of high prices of raw materials and the restrictions on railway traffic due to the war. Great progress was made in Birbhum in agricultural development during the year under report and coal was discovered in a large area in the south-western part of that district. In the Presidency Division economic development has been affected in many ways by the war. In Nadia the number of co-operative credit societies rose from 195 in 1917-18 to 207 during the year. In Murshidabad there was a marked improvement in cottage industry in the production of blankets owing to the large orders and quick purchase by the Bengal Home Industries Association, Calcutta. In Jessore the Jessore-Jhenidah Railway generally encouraged local trade and the sugar industry was benefited by the restrictions on the supply of foreign sugar. In the Dacca Division the local weavers were unable to take advantage of the rise in the prices of cloth, owing to the scarcity and dearness of suitable yarn. A start has been made to revive the tanning industry in Dacca and a co-operative society of leather-workers has been organized. Trade in general suffered greatly in the Chittagong Division, owing to scarcity of steamers. Ship-building in Chittagong continued during the year. Six sailing vessels were built and registered—the registered tonnage varying from 173 to 612 tons. The tinning factories of the Indo-Burma Petroleum Company, Limited, and the Burma Oil Company, Limited, the Shalimar Works of Messrs. Turner Morrison and Company and the Cotton-ginning Mill were at work

during the year. The exceptionally high price of imported cotton piece-goods enabled the local weavers to continue their trade on the same level as in the preceding year, but their profits were limited owing to the high price of imported yarn. In Chittagong a weaving school has recently been started at Zorarganj within the Sadar sub-division. The weaving school at Cox's Bazar has not proved successful. In Tippera, jute-baling—the most important and prosperous industry in the district—was dull on account of the war. The *hooka*-making industry was prosperous. The oil mill at Chandpur supplied oil to various places in Eastern Bengal. The export of fish from Ashuganj continued, as also did the manufacture of buttons from mother-of-pearl and cocoanut shells, and cane and bamboo baskets, etc., at Brahmanbaria. In Noakhali the usual export of betel-nut and jute flourished, but the mat industry in Feni and the export of poultry and eggs decreased, owing to difficulties of transport. The most important and organized industry in the Rajshahi Division is tea, which is confined to Jalpaiguri and Darjeeling. In the former district the outturn was not satisfactory owing to unfavourable weather, while in the latter the industry was on the whole prosperous. The outturn of the *ganja* crop in the Naugaon sub-division of the Rajshahi district was less than in the previous year, but as the manufacture is now conducted under the auspices of the *ganja* cultivators' co-operative society, the cultivators made a large profit, a great proportion of which would, under the old system, have gone to the pockets of the middlemen. The silk industry in Rajshahi was in a moribund state and the sericultural nursery at Gandagram near the Bogra town was abolished as a losing concern. In Darjeeling some experiments were undertaken by the Agricultural Department with a view to introducing mulberry cultivation in the hills. The brass metal industry in Malda was, as in the previous year, almost at a standstill for want of raw material. The basket-making industry in that district suffered through partial failure of mango crop and the Mango-canning Company could not do much business for want of tins. The rice mills in Rajshahi, Dinajpur, Bogra and Darjeeling did well during the year. The co-operative movement continued to do useful work.

Emigration and immigration.

4. As in previous years there was temporary emigration of Sonthals and other aboriginal tribes from Birbhum, Bankura and Midnapur to the neighbouring districts and the Sundarbans in search of employment during the season of harvest. Some hundreds of emigrants in Bankura and Midnapur were recruited by the Tea District Labour Association. Up-country labourers came to Hughli and Howrah to work in the mills and in the brick-fields. In the Presidency Division there was the usual movement of labourers from one district to another during the harvesting season to the Sundarbans for forest produce. A large number of people from other districts and provinces find employment in mills and brick-fields and on the railways in the districts of this division. There was the usual influx of up-country and other labourers in search of work in the Dacca Division. The emigration of Muhammadan cultivators from the Jamalpur sub-division of the Mymensingh district to Rangpur and Cooch Behar, and to Assam from the Netrakona, Kishorganj and Sadar sub-divisions of that district continued. Many people joined the Bengal Labour Corps, the formation of which is said to have proved a great boon to the landless labourers. Temporary emigration of labourers from Noakhali to the neighbouring districts as well as to Burma took place as usual during the year. As in previous years Kushtia and up-country coolies were largely employed in the jute mills at Chandpur and Akhaura in Tippera and a number of labourers from the Brahmanbaria sub-division of that district temporarily went to Hill Tippera and Sylhet in quest of employment on account of distress in the sub-division. In Chittagong some families came to Cox's Bazar sub-division from Akyab and Satkania and some emigrated to Aracan. One family went to Lama in the Chittagong Hill Tracts. Some families also emigrated from and to the Chittagong Hill Tracts. As in the preceding year a number of men went abroad from Noakhali and Chittagong to serve in Persia, Mesopotamia and in France, as well as on board ocean-going vessels. As usual, there was an influx of aboriginal tribes and up-country men who came to work as coolies in the tea-gardens in Jalpaiguri and Darjeeling, and for employment as labourers under the Public Works Department, the Railway Companies and contractors, and as domestic servants in other districts.

SECTION II.

Collection of Land Revenue.

Statistics of estates on the tauzi roll and their demand, collections, remissions and balances.

Appendix I.

5. The total number of estates paying land revenue was 98,107, against 97,806 in the previous year. Of these, 92,133 were in class I (permanently-settled estates), 3,585 in class II (temporarily-settled estates) and 2,389 in class III (estates held direct by Government). The net increase of 301 estates was due mainly to partitions of estates in class I and to the creation of new estates by resumption and settlements.

6. The current demand of the year amounted to Rs. 2,79,27,827, showing an increase of Rs. 70,927, as compared with the previous year. The increase was due mostly to new settlements, resettlements and progressive increase of demands in temporarily-settled and Government estates. The total realizable demand of the year including the arrear of Rs. 23,46,307, was Rs. 3,02,74,134, out of which the amount collected was Rs. 2,80,84,829, being 92·76 per cent. of the total and 100·56 per cent. of the current demand, against 91·96 and 97·99 per cent., respectively, in the previous year. The collections showed an improvement as compared with the previous year. A sum of Rs. 1,40,563, though collected within the year, could not be credited in the accounts of the year. In Bakarganj again, as noticed in previous years, a large amount (Rs. 3,94,335) could not be credited to land revenue during the year pending disposal of a civil suit against Government for Char Bhuta and Char Fasson. The bulk of the remissions which aggregated Rs. 72,101, against Rs. 66,429 in the previous year, was allowed, as usual, in estates held direct by Government for such causes as failure of crops, diluvion, non-settlement of holdings and errors in accounts. The total outstanding balance amounted to Rs. 21,17,204, being 6·99 per cent. of the total demand, against Rs. 23,17,718 in the previous year. The major portion (Rs. 20,11,867) of the balance is reported to be in process of recovery.

Permanently-settled estates.

Appendix IA.

7. The total demand of the permanently-settled estates amounted to Rs. 2,19,16,863 (Rs. 2,15,74,813 current and Rs. 3,42,050 arrear) of which Rs. 2,16,59,825, or 98·82 per cent., was collected. The current collections reached 98 per cent. or more in all districts except Bakarganj (96·53) and Tippera (94·95). Of the total balance of Rs. 83,133 in Bakarganj, Rs. 65,273 was due from the Tagore estate, under the management of the Court of Wards, which, owing to its bad financial condition, could not pay up its dues. Out of the outstanding balance of Rs. 46,999 in Tippera Rs. 46,162 was realized in Dacca, but the remittance transfer receipt was received in the former district after the close of the year.

Temporarily-settled estates.

Appendix IB.

8. Temporarily-settled estates are divided into three sub-classes—(1) private estates settled with proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers. The total collections from all these three classes amounted to Rs. 17,37,805, being 95·01 per cent. of the current demand of Rs. 18,28,926, against 95·09 per cent. in the previous year. Of the total outstanding balance of Rs. 6,00,128, Bakarganj alone was responsible for Rs. 4,28,824, mainly for the reasons explained in paragraph 6 above.

Estates held direct by Government.

Appendix IC.

9. The estates held direct by Government comprise two sub-classes—(1) estates belonging to private proprietors but managed by Government and (2) those owned by Government as proprietor. The total demand of these estates amounted to Rs. 60,18,510 (current Rs. 45,24,088 and arrear Rs. 14,94,422), of which Rs. 46,87,199, or 77·87 per cent., was collected, Rs. 70,977 remitted and Rs. 12,60,334 left unrealized at the close of the year. A sum of Rs. 92,650 was collected during the year, but could not be credited in the accounts. Both current and arrear collections showed better results, being 80·04 and 71·31 per cent., against 75·58 and 62·99 per cent., respectively, in the previous year.

Miscellaneous land revenue.

Appendix II.

10. The total collections on account of miscellaneous land revenue, as detailed in Appendix II, amounted to Rs. 24,57,337 against Rs. 27,93,748 in the preceding year. The decrease is mainly due to the smaller recoveries during the year under the heads "Recovery of Survey and Settlement Charges" and "Sale of Government Lands". Out of the total collections of Rs. 2,06,567 under "Other Receipts", a sum of Rs. 57,325 was realized from the Burdwan estate on account of *pulbandi* contribution.

Changes in the land revenue demand of temporarily-settled estates and estates under direct management.

Appendix III.

11. The changes in the land revenue demand of temporarily-settled estates and estates under direct management are detailed in Appendix III. There was a net increase of 8,092 acres in the area of land settled and of Rs. 71,328 in revenue. The increase in area is largely due to the creation of eight new estates in the Sundarbans tracts in the 24-Parganas.

Redemption of land revenue.

Appendix IV.

12. The total number of petty estates and holdings, the land revenue of which was redeemed during the year, was 452, against 328 in the preceding year. These were mostly permanently-settled holdings in the Government estates of Calcutta and its suburbs. The total amount of land revenue redeemed was Rs. 841 and the price realized aggregated Rs. 25,224, against Rs. 586 and Rs. 17,157, respectively, in the previous year. There was no case of redemption under the Partition Act of 1876.

Remittance of land revenue and cesses by special money-orders.

Appendix V.

13. The number of special money-orders issued during the year for remittance of land revenue and cesses and the amount covered by them increased from 226,206 and Rs. 20,07,860 in 1917-18 to 230,203 and Rs. 20,54,538, respectively. The increase during the year under report may be attributed to the popularity of this system of payment. Appendix V shows that the remittances exceeded a lakh of rupees in six districts and were more than Rs. 50,000 in nine others. The average value of each order was Rs. 8·92.

Coercive measures.
Operation of the Sale Laws.

Appendix VI.

14. The particulars of the proceedings under the Revenue Sale Law are given in Appendix VI. The number of defaults and of sales during the year was 14,718 and 1,319, respectively. The number of exemptions from sale under section 18, including those for petty arrears, etc., was 13,236, or 89·9 per cent. of the defaults. There were also other exemptions of the nature described in the note to rule 3, page 100 of the Sale Law Manual, 1906. The price realized by sale was eight times the Government revenue.

15. The table in the margin shows the proportion of sales to defaults in districts in which defaults were most numerous. The main causes which led to the estates, etc., being brought to sale were indebtedness of proprietors, wilful defaults owing to diluvion and lack of profit or with the object of annulling encumbrances, collusion and disputes among co-sharers. One hundred and seventy-eight appeals were filed before the Commissioners against sales. In thirty-one cases sales were annulled by the Commissioners under section 2 of Bengal Act, VII of 1868, and in sixteen cases, by the Board, under section 26 of Act XI of 1859, as amended by the Decentralization Act, 1914. These statistics show that the Sale Law was administered with moderation throughout the Presidency. In order to avoid difficulties that had arisen regarding instalments of revenue and latest days for the payment of arrears of revenue, special instructions were issued by the Board.

Districts.	Defaults.	Sales.	Proportion of sales to defaults.
Chittagong ...	6,749	504	7·4
Midnapur ...	1,420	66	4·6
Dacca ...	860	77	8·9
Jalpaiguri ...	784	127	16·2
Mymensingh ...	696	29	4·1
24-Parganas ...	590	112	18·9
Hooghly ...	561	61	10 8
Bakarganj ...	539	29	5·3

16. Detailed statistics showing the working of the certificate procedure are given in Appendix VII. The total number of certificates (exclusive of those for cesses which have been dealt with in section V), filed during the year, rose from 56,734 to 63,235, showing an increase of 6,501. The percentage of certificate cases disposed of to the total number for disposal was 75·1, against 75·4 in the previous year, the number of cases pending at the close of the year being 20,285, as against 18,508 at the end of 1917-18. The number of cases pending for more than six months was high in Midnapur (1,125) and Tippera (1,043). The Collector of Midnapur has been asked to pay special attention to the early disposal of these cases. The increase in the long pending cases in Tippera is attributed to the fact that owing to the prevalence of distress in the Brahmanbaria sub-division, execution was held in abeyance during the last quarter of the year.

Certificate Procedure.

Appendix VII.

The subjoined table shows the stages at which demands were satisfied :—

DIVISION.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	NUMBER OF DEBTORS IMPRISONED.	
					Number released on payment of debt before expiration of imprisonment.	Number released without full payment of debt.
Burdwan ...	3,378	8,915	899	543	1	10
Presidency ...	1,352	3,262	257	520	8	10
Dacca	3,880	9,336	1,291	111	1	2
Chittagong ...	3,823	11,715	1,435	1,194	...	4
Rajshahi ...	1,138	2,207	256	78	2	6

In the majority of cases payment was made on the issue of notices or on attachment of property, and actual sale was necessary in only 4,138 cases, or 6·7 per cent. of the total number of cases (61,455) disposed of during the year.

17. Of the 44 persons committed to civil jails in the enforcement of certificates, 24 were imprisoned for non-payment of Government demands and the remainder for withholding sums due to District Boards and Court of Wards, etc.

Realization of Government and other demands by imprisonment.

18. Appendix VIII shows the details of the separate accounts opened and closed during the year. There were 1,118 separate accounts opened and 289 closed, as against 1,198 and 217, respectively, in the previous year. There remained open at the close of the year 61,000 accounts with a revenue demand of Rs. 70,19,029. Of these, 46,513 accounts were for shares in joint-estates held in common tenancy (section 10 of Act XI of 1859), 5,358 for shares representing specific portions of lands in estates (section 11 of Act XI of 1859), and 9,129 for shares consisting of undivided interests in specific lands (section 70 of the Bengal Land Registration Act, VII of 1876). During the year the Board recommended to Government the amendment of the Act as regards fees payable in opening separate accounts. The registers for recording separate accounts of land revenue and cess have subsequently been amalgamated.

Separate accounts of land revenue payments opened for shares under Act XI of 1859 and Bengal Act, VII of 1876.

Appendix VIII.

19. Appendix IX shows the statistics of the registration of tenures for protection against auction purchasers in the event of the sale of the parent estates for arrears of revenue under Act XI of 1859. There were 51 registrations during the year and the total number of tenures thus protected was 5,299 at its close. There were no applications for registration in the Presidency and Rajshahi Divisions during the year.

Registration of tenures under Act XI of 1859.

Appendix IX.

SECTION III.

Other Revenue Work.

Estates under direct management.

20. The total number of estates under direct management, including those of private individuals managed by Government, was 2,387 (inclusive of 12 estates, comprising resumed Pharidari lands under settlement) and the aggregate annual demand payable by these estates amounted to Rs. 43,87,096 (excluding that of the Orphangunge Market, Hastings Estate and Madhab Babu's Bazar in the 24-Parganas). The percentage of cost of management on the current demand was 7·76.

Agency and mode of management.

21. As usual, the management of khas mahals was in the hands of the Collector, collection being made by purely Indian agency. No material change in the system of management was introduced during the year in any of the districts of the Presidency. A scheme for the reorganization of the khas mahal department of Contai in Midnapur has been approved by the Board and submitted to Government for sanction. The essential features of the scheme are—(*i*) that the Baruas should be abolished, (*ii*) that the existing system of collection by tahsildars on payment by commission should be replaced by one of tahsildars on fixed salaries *plus* commission at 2 per cent. on any sums realized by them in excess of two-thirds of the demand, and (*iii*) that the present Sub-Managers, who are all outside the general line, should be gradually replaced by Sub-Deputy Collectors with settlement experience when the former officers retire or otherwise quit their posts. Proposals for the reorganization of the khas mahals and the tahsildari establishment of Dacca and for the revision of the pay of the khas mahal establishments of Jalpaiguri are under the consideration of Government, while the scheme for the reorganization of the khas mahal department of Faridpur, which was received about the close of the year, is under correspondence with the Commissioner.

A proposal to take under khas management of Government the rights of the talukdars in seven Government estates, included in the Marichbunia group of estates in the district of Bakarganj, has, on the application of the talukdars themselves, been approved by the Board during the year and submitted to Government for sanction. The talukdars had found themselves unable to collect rents, their raiyats having become refractory as a consequence of a long series of illegal exactions and other oppression.

Grant for the management and improvement of Government estates.

22. Out of the annual grant placed at the disposal of the Board for the management and improvement of Government estates in the Presidency, a sum of Rs. 3,40,355 was spent on management, Rs. 1,40,387 on miscellaneous improvements, including agricultural improvements and experiments, and Rs. 36,582 on sanitary improvements. Of the total amount of Rs. 1,76,969 expended on improvements, Rs. 39,942 was spent on tanks and wells, Rs. 59,257 on drainage, irrigation and embankments, Rs. 14,507 on roads and bridges and the remainder (Rs. 63,263) on miscellaneous items of improvements, including planting of trees.

Appendix X.

Roads and communications.

23. During the year under report an aggregate sum of Rs. 3,18,756 was spent on roads and communications in Government estates, against the Government grant of Rs. 76,489, being the one-and-half per cent. on collections from these estates allotted for the purpose. The excess expenditure was met from District Boards and other local funds.

Education.

24. There were altogether 2,404 schools in Government estates and 77,077 pupils attending them during 1918-19, against the corresponding figures of 2,361 and 76,648, respectively, in the preceding year. The increase both in the number of schools and of pupils occurred mainly in the Presidency, Dacca and Rajshahi Divisions. The total expenditure on education in Government estates amounted to Rs. 81,451, against the one per cent. grant of Rs. 50,993 assigned for the purpose, the excess expenditure being met from local funds.

Inspection of accounts.

25. The accounts of the Government estates were duly inspected and the following irregularities were brought to light during the year :—

A tahsildar of the Contai circle in the district of Midnapur was found to have embezzled Rs. 449-3-11 and was prosecuted. The case is reported to be still pending and steps are being taken to realize the defalcated amount from the security deposit of the tahsildar. A defalcation of Rs. 419-12-3 by the tahsildar of the Bhagwanpur circle in the district of the 24-Parganas was detected. The tahsildar, who has been criminally prosecuted, has, however, absconded. The amount is being recovered by forfeiture of his security deposit. In Pabna a kanungo collected a certain sum from a tenant on manuscript receipt, but the amount was neither credited in the account of the payer, nor was it deposited in the treasury. A formal proceeding has been drawn up against the kanungo and the case has not yet been finally disposed of. In Darjeeling a mandal of the Kolbong block of the West Teesta Khas Mahals misappropriated a sum of Rs. 124-6-9 collected from the raiyats. He was criminally prosecuted, convicted and sentenced to pay a fine of Rs. 100. He was also compelled to make good the Government money.

Colonization in the Bakarganj Sundarbans.

26. The Bakarganj portion of the Sundarbans area has been under the raiyatwari system of colonization for 12 years and the progress of reclamation has been satisfactory. Khan Sahib Quamaruddin Ahmad, Deputy Collector, continued to be in charge of the work as Colonization Officer and spent 292 days on tour in the area during the year under report, against 244 days in 1917-18. His Excellency the Governor visited the area in July 1918, and the Hon'ble Member of the Board of Revenue also toured in the Sundarbans in February 1919. The Commissioner also visited the Sundarbans and inspected the colonization office in February 1919. The Collector inspected the colonization work twice during the year. No new colonists were settled in the Sundarbans during the period under report.

The result of the assessment during 1918-19, of the settlers whose rent-free period or the terms of whose previous settlement have expired or about to expire, is shown below :—

Name of Estate.	No. of settlers.	Area assessed in acres.	Initial revenue.	Ultimate revenue.
			Rs. A.	Rs. A.
Latachapli ...	30	594·47	197 6	1,579 4
Chak Kalamegha ...	125	53·82	143 7	352 11
Bara Bagi ...	81	1,886·21	543 11	6,570 1
Bara Nishanbaria ...	75	1,381·43	454 7	4,998 13
Total ...	311	3,915·93	1,338 15	13,500 13

The assessment of Chak Kalamegha was sanctioned by the Collector and the other assessments have been finally confirmed by the Commissioner. An area of 3,357·29 acres of land was surveyed during the last cold weather and papers are under preparation for assessment, while about 2,290 acres of land were reclaimed during the year.

The details of expenditure incurred during 1918-19 on the colonization scheme are given below :—

	Rs.
1. Establishment, etc.	14,868
2. Contingencies	2,299
3. Works of improvement—	
(*a*) Agricultural	32,004
(*b*) Sanitary	443
(*c*) Miscellaneous	3,010
Total ...	52,624

The bulk of the expenditure on agricultural improvements was incurred for the construction and maintenance of dams and embankments to protect the lands from saline water, petty repairs to these embankments being generally done by the settlers themselves who are directly benefited by them.

Though the outturn of *aman* paddy, which is the only crop grown to any extent in the Sundarbans, was only about 75 per cent. of the normal, the price of rice being high the tenants were able to pay up the whole of their rent, and the collection in the area was cent. per cent.

During the year under report a sum of Rs. 20,000 was advanced to the colonists as land improvement loans, and Rs. 5,000 as agricultural loans, while the realizations in respect of the two kinds of loans were Rs. 1,615 and Rs. 4,327, respectively.

The total amount realized as royalty on forest produce aggregated Rs. 11,905, as against Rs. 22,309 in the preceding year, the decrease being due to the prevalence of influenza amongst the tenants and Bowalis during the busy season of the year.

There were altogether 40 co-operative credit societies in the colonized area including 2 registered during the year. A Central Bank has also been registered with an authorized capital of four lakhs of rupees, having its jurisdiction over the khas mahal circles of Barguna and Amtali and its membership extending to registered societies only and not to individuals. The Supply Society, which was started in 1917, sold articles to the extent of Rs. 54,000 in 1918-19, which is more than three times the figure obtained in the preceding year.

No new roads were constructed during the year in the colonization area, but the marginal embankments, which serve the purpose of roads in this tract, were repaired where necessary.

The climate of the Sundarbans is steadily improving with the extension of reclamation. During the year under report there was an epidemic of influenza in this area as in other parts of India.

Improvements made in resumed Sundarbans estates.

27. In the 24-Parganas the survey and settlement operations in estates Mansadwip, 2nd portion, and Saugor Island, 3rd portion, were confirmed. The rate report for the colonization of two blocks of land in Saugor Island, 3rd portion, covering an area of 909 acres was also approved. A sum of Rs. 13,923 was spent on original works of improvement and repairs in estates Saugor Island, 1st, 2nd and 3rd portions, Mansadwip, 2nd portion, Shikarpur, 2nd portion, and Ramkarer Char, East. The total grant for reclamation amounting to Rs. 21,496 could not be spent owing to an outbreak of cholera in Saugor Island. In Khulna a sum of Rs. 850 was spent on repairs of embankments in the Chandkhali Government Estate. Of the 20 resumed estates in the Bakarganj portion of the Sundarbans, 5 entire estates are "Protected Forests" and the rest are under colonization. A total sum of Rs. 4,50.522, including Rs. 34,907 spent during the year, has been expended on works of improvement in the colonization area since the initiation of the scheme. Three tanks were excavated during the year in the Bakarganj Sundarbans for the supply of good drinking water, the District Board contributing Rs. 2,000 towards the work.

Waste lands.

28. The rules for the grant of waste land leases to large capitalists remained in abeyance in the 24-Parganas and Khulna portions of the Sundarbans. Raiyatwari settlement on the lines of the Bakarganj colonization scheme is in progress in certain Sundarbans lots in the former district under the supervision of a special officer. The number of leases granted under the Large Capitalists' Rules of 1879 and under those of 1853 was the same as before, *viz.*, 188 and 93, respectively, in the 24-Parganas, and 22 and 38, respectively, in Khulna. The revenue payable during the year in respect of these was Rs 1,38,269 and Rs. 80,163, respectively, in the former district and Rs. 12,597 and Rs. 54,076, respectively, in the latter. The revenue of the grants under the rules of 1879 will eventually rise to Rs. 2,35,206 in the 24-Parganas and to Rs. 22,206 in Khulna. As regards those under the rules of 1853 maximum revenue has been obtained in the former district, while in the latter the revenue will finally rise to Rs. 55,769. The number of leases granted in Saugor Island was 6 as before, paying during the year under report a total revenue of Rs. 5,9 9, which will ultimately rise to Rs. 11,931. The particulars of lands let out for ordinary cultivation under the Arable

Waste Land Lease Rules in the districts of Jalpaiguri and Darjeeling are given below in a tabular form :—

District.	During the year 1918-19.				Altogether to the end of the year 1918-19.			
	Number of leases.	Area in acres.	Present revenue.	Eventual maximum revenue.	Number of leases.	Area in acres.	Present revenue.	Eventual maximum revenue.
			Rs.	Rs.			Rs.	Rs.
Jalpaiguri ...	1	4	4	4	5,438	1,01,758	59,232	68,237
Darjeeling ...	...	...	...	...	56	47,499	16,269	27,318
Total ...	1	4	4	4	5,494	149,257	75,501	95,555

Sale of Government estates.

Appendix XI.

29. The proprietary right of Government in two estates only—one in the district of Hughli and another in Rajshahi—was sold during the year under report. The former was sold free of revenue at a price of Rs. 28 and the latter for Rs. 125 with its revenue of Rs. 33-8 fixed in perpetuity. In addition to the above, two plots of circular canal surplus land of Panchannogram in the district of the 24-Parganas, covering an area of less than an acre, were transferred to the Eastern Bengal Railway authorities and to the Calcutta Improvement Trust at their full market value of Rs. 1,454 and Rs. 57, respectively. Two plots of escheated land in Rajshahi were also sold for Rs. 286 only.

Alienation or assignment of land revenue.

Appendix XII.

30. Six plots of Government land covering an area of 10·57 acres, with an estimated yearly rental of Rs. 238, were alienated during the year to different private bodies. Two of these plots were granted rent-free and the remaining four at a total nominal rental of Rs. 5 per annum which resulted in a loss of revenue to the amount of Rs. 233 as detailed in Appendix XII.

Summary settlements.

31. During the year under report 870 estates were taken up for summary settlement. Of these, settlement of 616 were completed and 254 estates were pending at the close of the year for various reasons.

Irrigation and drainage.

32. A brief account of the irrigation and drainage projects in the Presidency other than those in charge of the Public Works Department and those maintained from the Government Estates Improvement Grant is given below. No project of importance was taken up in the Dacca, Chittagong and Rajshahi Divisions.

Burdwan Division.—In Burdwan, the Banka Anti-malarial Drainage project was completed shortly after the close of the year at a cost of Rs. 72,000 borne by Government. In Midnapur most of the drainage works are in charge of the Public Works Department or of the Khas Mahal Department. In connectionwith the main scheme for improving the drainage of the Contai sub-division Government sanctioned two projects, *viz.*, the Pichaboni scheme and the Amirabad Cut, to be undertaken under the Bengal Embankment Act. Government has since decided that the latter scheme should be carried out as a work of public utility. The drainage of the Tamluk sub-division being also defective, a proposal for a special enquiry into the drainage problems of the sub-division on the lines adopted for the Contai sub-division has been submitted to Government. Government has recently sanctioned a scheme for the improvement of the Amta basin in the district of Howrah under the Sanitary Drainage Act at an estimated cost of nine lakhs of rupees. Recoveries on account of advances made for the Rajapur Drainage scheme amounted to Rs. 2,835, leaving a balance of Rs. 8,922. Four estates were under the management of Government under section 39 of the Drainage Act for the realization of drainage dues. Two of them have been released and the remaining two are expected to be released in the course of three years.

Presidency Division.—In the 24-Parganas the work of draining the Manikhali basin, covering an area of 16 square miles, was taken up at an

estimated cost of Rs. 1,83,481 and the work of silt clearance of the Srichandra khal was completed at a cost of Rs. 8,381. The construction of a new sluice at Uttarbhag on the Peali River for the drainage of 16 square miles of the combined Varagachi, Madanpur and Uttarbhag basins was taken up at an estimated cost of Rs. 54,439. Besides these, three anti-malarial projects, *viz.*, (1) the Nawi-Sunthi project in the 24-Parganas, (2) the Arul Bil project in Jessore and (3) the Jabuna project in the 24-Parganas, Nadia and Jessore were taken up by the District Boards concerned under the Sanitary Drainage Act, Government having contributed Rs. 2,00,000, Rs. 75,000 and Rs. 1,50,000, respectively, for carrying them out.

A draft Bill called the Bengal Agricultural and Sanitary Improvement Bill is under preparation for the consideration of Government, with a view to consolidate and amend the law relating to the construction of drainage and other works for the improvement of the agricultural and sanitary conditions of certain areas in Bengal.

Embankments.

33. *Burdwan Division.*—There were altogether six floods in the River Damodar and one in the Ajai. The floods were comparatively low and there was not much damage.

A special officer has been appointed by Government in connection with the Damodar Reservoir Enquiry Survey. The survey is now in progress. Government has also sanctioned the appointment of a standing committee comprising official and non-official members to consider questions relating to flood, embankments, improvement in drainage, etc., for each of the districts in the Damodar basin.

At Sherangpur in the 37th mile of the Damodar left embankment the retired embankment was extended and river protective works were constructed. An outfall channel was also constructed from the Sarkari Bil in the Damodar spill area. The damage done to the Ajai right embankment by the floods of 1916 was repaired. In Birbhum many private embankments have been seriously damaged by successive floods. The question of repairing and maintaining these embankments is under the consideration of Government. The Collector has again pressed the urgency of repairing them.

In Midnapur, besides the Government embankments, 19 takavi embankments are maintained by Government at the cost of the zamindars under the "contract system". In 18 of these the contract has been renewed for a further period of 15 years from the 1st April 1919, on an annual payment of Rs. 59,275. There is a proposal for the repairs, maintenance, etc., of another embankment called the Rajbandi bund under the contract system, for a period of 15 years, with effect from the 1st April 1919, at a total estimated cost of Rs. 1,414. Government will issue final orders in the matter if no objection to the estimate is made within the statutory period of 3 months. The remodelling of the Bistupur embankment has been sanctioned under the Bengal Embankment Act at a cost of Rs. 1,03,361, of which Rs. 43,842 would be borne by Government. It is proposed to maintain it under the contract system. The demands in connection with the two accounts opened under the law system, *viz.*, (1) for the construction of a sluice across the Toppa khal at Khariadi and (2) for the enlargement and extension of Khoyra sluice are under realization. In Midnapur, 67 criminal cases under the Embankment Act for raising bunds, etc., within the prohibited areas were instituted and disposed of during the year. One hundred and seventy-six persons were convicted and 23 acquitted.

As to the district of Howrah, a proposal for the remodelling of the Hughli right embankment from Champakhal to Alipur in the Uluberia sub-division is under the consideration of Government, and a revised estimate amounting to Rs. 24,166 for the re-excavation of the Kolatola khal and construction of a sluice at its mouth in the 24th mile of the Damodar right embankment has been approved by the Chief Engineer since the close of the year.

Presidency Division.—No project of importance was undertaken in the division. Some repair works were done in connection with the embankments in the 24-Parganas in which the total length of the Schedule D Embankments is about 195 miles, a small portion of which is maintained by the Budge-Budge Municipality, the Commissioners for the Port of Calcutta and Messrs. Andrew, Yule and Company.

Chittagong Division.—The Gumti embankments in the district of Tippera were breached in three places during the rains, causing damage to the crops in the neighbourhood to some extent. It has been decided to take under the charge of Government the portion of the embankments within the estate of His Highness the Maharaja of Hill Tippera and the Patikara estate under the management of the Court of Wards.

Rajshahi Division.—In the district of Rajshahi the work of protecting embankment No. 56 which had been undertaken in the previous year was completed during the year. A portion of this embankment to the east of the protective work was washed away in the last rains.

Land registration.

Appendix XIII.

34. Appendix XIII gives particulars of the intermediate registrations during the year under Bengal Act VII of 1876. The total number of proprietary interests entered in the land registration registers of the Presidency was 966,637 at the beginning of the year, as against 974,287 at its close. The number of applications for registration of succession to proprietary interests in land by purchase, inheritance, gift or otherwise, was 34,645, of which 31,891 were granted before the close of the year. The number of old interests removed and new interests recorded were 31,275 and 38,925, respectively. The number of undisposed of cases at the close of the year was 9,847 of which 44 only, as against 107 of the previous year, were pending for more than six months. Most of these long pending cases have since been disposed of. The expenditure on account of land registration work in the Presidency amounted to Rs. 8,964 and the fees and fines aggregated Rs. 7,461. No case of fraudulent registration was brought to light, except one case in Mymensingh, in which a prosecution has been instituted and the case is pending. Considerable progress has been made in the work of revision of Register D in the district of Dacca on the basis of the record-of-rights, and it is expected that the work will be completed within the current financial year 1919-20. The work of registration of the Lakhiraj lands of that district was taken up in May and completed in October 1918. The Commissioner of the Rajshahi Division completed his enquiries on the present system of land registration and his report embodying the results is under the consideration of the Board. The Board has since directed the abolition of the use of the combined Registers A and D in Eastern Bengal districts and the maintenance of separate Registers A and D as in Western Bengal prepared on the basis of the record-of-rights. The number of applications for revision presented to the Board under section 85 was 14, of which two were allowed and the rest rejected.

Partitions of estates.

Appendix XIV.

35. Appendix XIV shows the institutions and disposals of partition cases. There were 285 cases pending at the close of the preceding year, and 46 cases were instituted during the year under report. Out of the total of 331 cases for disposal, 79 cases were disposed of and 252 cases remained pending at the end of the year. Of these, 157 cases are pending for more than two years, mostly in the districts of Dacca (37), Mymensingh (33), Faridpur (11), Bakarganj (14), Tippera (18), Rajshahi (9) and Dinajpur (9). The delay in disposal is largely due to the cumbrous procedure of the Act, and little improvement can be expected until the law has been remodelled.

Special officers were employed during the year exclusively on partition work in Mymensingh, Faridpur, Rajshahi and Dinajpur.

Estates Partition Funds exist only in the districts of Jessore, Dacca and Mymensingh. The accounts of these funds are periodically audited by the Examiner of Local Accounts, Bengal. It is proposed to close the Partition Fund in Jessore as being now unnecessary. The incidence of cost per acre of the area partitioned during the year in the districts of Dacca and Mymensingh was 14 annas 3 pies in the former and 2 annas ½ pie in the latter. The high cost in Dacca is due to the fact that most of the cases disposed of during the year were filed in the Settlement office prior to 1914-15 and were not made over to the Collector till shortly before that office left the district. The proceedings in those cases were consequently delayed, which resulted in increased expenditure. No partition was completed in Jessore during the year.

Land acquisition.

Appendix XV.

36. Particulars of land taken up permanently for public purposes and of compensation paid for them in each district are shown in Appendix XV. During the year proceedings for the acquisition, on behalf of Government, local bodies and companies, of land covering an area of 4,098 acres were confirmed at a total cost of Rs. 59,97,449, as against an area of 2,670 acres, at a cost of Rs. 23,15,521, in the preceding year. The abatements of annual revenue allowed on account of lands acquired for Government purposes, including State Railways and Companies' Railways provided with land free of cost, amounted to Rs. 2,013, and a sum of Rs. 45,086 was paid to Government on account of the capitalized value of Government revenue, amounting to Rs. 1,806, abated for lands taken up for local bodies and companies.

Of the total expenditure incurred a sum of Rs. 41,65,913 was paid for the acquisition of lands required for Government, including State Railways and Companies' Railways provided with land free of cost, and Rs. 18,31,537 for all other purposes, *viz.*, for District Boards, Municipalities, Calcutta Improvement Trust, Calcutta Port Commissioners and Railways and other Companies.

The average cost per acre of the lands for which acquisition proceedings were confirmed during the year was Rs. 1,463, against Rs. 867 in the preceding year. The increase in the average cost is chiefly due to the fact that proceedings for the acquisition of more valuable town lands in Dacca, Chittagong and Tippera were confirmed during the year.

Loans under the Land Improvement Loans Act.

Appendix XVI.

37. The amount of loans outstanding at the beginning of the year was Rs. 1,92,129 and loans amounting to Rs. 33,350 were advanced during the year under report. Out of the sum advanced during the year Rs. 20,000 were advanced to the tenants of the colonization area in the district of Bakarganj. Of Rs. 2,25,479 the total outstanding principal Rs. 72,242 was repayable during the year. Out of this Rs. 56,568 was realized including Rs. 272 collected in advance, while Rs. 325 was remitted. The balance outstanding at the close of the year was Rs. 1,68,588 (including Rs. 4,273 under suspension) of which Rs. 11,348 was overdue. Of Rs. 11,557 due on account of interest, current and arrear, the collection during the year amounted to Rs. 9,475, of which Rs. 211 was paid in advance, while Rs. 30 was remitted and a balance of Rs. 1,530 (excluding Rs. 733 under suspension) was left unrealized at the close of the year.

Financial results.

Appendix XVII.

38. The financial results of the working of the Act are shown in Appendix XVII. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 6,438. The amount of interest collected by the Provincial Government from its debtors during the year was Rs. 9,475. The amount of principal remitted during the year was Rs. 325. This has to be borne by the Provincial Government as well as the special expenses connected with the working of the Act which amounted to Rs. 634. Thus, there was a net profit of Rs. 2,078 to the Provincial Government during the year, against Rs. 4,732 in the preceding year.

Loans under the Agriculturists' Loans Act.

Appendix XVIII.

39. The amount advanced during the year under the Agriculturists' Loans Act was Rs. 6,33,085. The largest sums were issued in the districts of Rajshahi (Rs. 2,31,696), Tippera (Rs. 1,64,953), Bogra (Rs. 1,49,200) and Bankura (Rs. 36,780). In Rajshahi and Bogra there was severe distress on account of floods during the autumn of 1918. In Tippera a large amount was distributed in the Brahmanbaria sub-division on account of distress towards the close of the year, and in Bankura the amount advanced represents loans to agriculturists and others who suffered from scarcity prevailing in the district. The outstanding balance of the previous year was Rs. 7,14,328, making the aggregate amount outstanding Rs. 13,47,413, of which Rs. 6,99,052 was recoverable within the year. The total collections amounted to Rs. 1,72,752, including Rs. 1,395 paid in advance and in excess and Rs. 120

was remitted. The balance recoverable in future years is Rs. 11,74,541 (including Rs. 3,97,731 under suspension), of which Rs. 1,29,844 was overdue at the end of the year. The amounts overdue in the districts of Burdwan, Birbhum, Mymensingh and Noakhali are heavy. Of Rs. 85,337 due on account of interest, current and arrear, Rs. 19,627 was collected including Rs. 13 paid in advance, Rs. 5 was remitted and Rs. 48,185 suspended, leaving a balance of Rs. 17,533 overdue at the end of the year.

Financial results.

Appendix XIX.

40. The financial results of the working of the Act are shown in Appendix XIX. The interest payable to the Imperial Government for the year in respect of all advances made under the Act was Rs. 36,613. The amount of interest collected by the Provincial Government from its debtors during the year was Rs. 19,627. The amount of principal remitted during the year was Rs. 120 and the expenses connected with the working of the Act during the year amounted to Rs. 450. Thus, there was a net loss of Rs. 17,556 to the Provincial Government during the year, against a profit of Rs. 68,191 in the preceding year.

Rent suits (under Act X of 1859) in Revenue Courts.

Appendices XX to XXIII.

41. The number of rent suits instituted in the Revenue Courts in Darjeeling which is the only district in which Act X of 1859 is in force was 147, as against 102 in the previous year. Including 21 cases pending from the preceding year, there were 168 cases for disposal, of which 144 cases were disposed of against 126 cases of the previous year, leaving 24 pending at the close of the year, none of which were of long standing. Damages were allowed to the plaintiffs in 22 cases, against 20 in the previous year. There was no application for aid in distraint or in the sale of distrained property and there were no notices of enhancement or relinquishment during the year. The rent suit registers were inspected by the Deputy Commissioner and no irregularities were found.

SECTION IV.—RENT.

Working of the Bengal Tenancy Act.

Bengal Tenancy Act.

42. The Bengal Tenancy Act is in force throughout the Presidency, except the district of Darjeeling, the Chittagong Hill Tracts and the town of Calcutta.

Relations between landlords and tenants.

43. Strained relations between landlords and tenants were noticeable in certain parts of the Presidency. This is generally attributed to enhancement of rent, illegal exactions, money-lending or disputes between co-sharer landlords. The settlement operations are said to have resulted in improving the position of the tenants in certain districts.

Issue of rent receipts.

44. In 39 cases proceedings were taken for failure to grant rent receipts under the provisions of the Bengal Tenancy Act. Of these, 19 cases ended in conviction, 13 were struck off, dismissed or compromised and 7 were pending at the close of the year.

Working of the Bengal Tenancy Act.

Appendix XXIV.

45. There was a decrease in the number of voluntary transfers which is ascribed to good harvests in certain districts and to financial difficulties in others.

The Bill relating to the transferability of occupancy holdings generally which was under consideration has been dropped, as it has been found after consulting public bodies that there is no real demand at present for such legislation.

The Bengal Tenancy (Amendment) Act, 1918 (Bengal Act II of 1918) by which restrictions have been imposed on alienation of land by aboriginals, came into force from the beginning of April 1918. It is reported that the Act exercises a wholesome restraint on the Sonthals from getting into the clutches of money-lenders and that no case has been brought to light of any method adopted by money-lenders to circumvent the provisions of the Act. It is also reported that the provisions of the Act pressed rather hardly on

some of the Sonthals in Bankura who were forced by necessity to borrow owing to the scarcity during the year. The Settlement Officer of the district, who has been vested with powers of a Collector under the Act, is of opinion that the provisions of the Act may be extended to the other aboriginal and semi-aboriginal tribes who are in urgent need of its application. As regards applications for permission of the Collector to transfer lands to non-Sonthals, the Settlement Officer says that the number has been astonishingly small. In Midnapur, out of 10 applications disposed of during the year, only 4 were granted.

Receipts and payments of landlords' fees.

Appendix XXV.

46. There was a general decrease in the payment of landlords' fees in all the divisions as compared with the preceding year. The percentage of payment on receipts fell from 84·65 to 65·70. No satisfactory explanation is given of the general decrease, but in certain districts the decrease is attributed to non-payment of fees due to joint-landlords.

Remittance of rent by special money-order.

Appendix XXVI.

47. The system of payment of rent by money-orders was in force throughout the Presidency except in the district of Darjeeling and in the Chittagong Hill Tracts. Both the number of money-orders issued and the aggregate amount covered by them increased from 63,592 and Rs. 9,88,405 in 1917-18 to 65,655 and Rs. 11,26,095, respectively, during the year under report. The increase in the latter was shared by all the divisions and that in the former by all excepting the Dacca Division. The number of money-orders refused showed a slight increase of 45, while the percentage of such orders to those issued fell from 16·7 to 16·3.

Zamindari *abwabs*.

48. The practice of levying illegal cesses or *abwabs* in some form or other in addition to stipulated rent was prevalent more or less throughout the Presidency. The tenants, as a rule, submit to these exactions without much demur, in order to maintain amicable relations with their landlords and their agents. The Collector of Mymensingh writes that the provisions of sections 76 and 77 of the Bengal Tenancy Act are commonly ignored and that landlords compel tenants to pay large fees for permission to make wells and tanks. Some zamindars are said to levy cesses for maintenance of schools and dispensaries. No regular suit was instituted under section 75 of the Bengal Tenancy Act to resist these illegal demands, and it is clear that the law, as it exists, is inoperative. The extension of records-of-rights has, however, had a beneficial effect in restricting the levy of *abwabs*.

SECTION V.

Road and Public Works Cesses.

Road and Public Works Cesses.

49. The following is an account of the working of the Bengal Cess Act, IX of 1880, during the year.

Rate of cesses, land revenue demand and gross rental.

50. Except in the Chittagong Hill Tracts, where the Cess Act is not in force, the road and public works cesses continued to be levied at the maximum rate of one anna in the rupee on the valuation of lands and annual net profits of mines and other immoveable properties. The current demand of land revenue for the cess-paying districts, excluding municipal areas, was Rs. 2,79,12,627, and the valuation or gross rental on which the cesses are based amounted to Rs. 12,85,95,185. The total land revenue thus represents about 21·7 per cent. of the rental.

Demands, collections, balances and remissions.

Appendix XXVII.

51. Appendix XXVII shows in detail the demands, collections, balances and remissions of cesses in the several districts of the Presidency. The subjoined table gives an abstract account of these cesses for the last two years :—

Year.	Demand.			Collections.	Percentage of total collections on current demand.	Balances.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arrear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
1917-18	69,15,098	8,74,505	77,89,603	67,56,691	97·7	10,99,917	14·1	62,423
1918-19	69,92,341	11,03,426	80,95,767	69,01,951	98·7	11,32,552	13·9	67,224

The current demand showed an increase of Rs. 77,243 over that of the preceding year. This increase was due to the valuation and revaluation proceedings and was mainly contributed by the districts of Rajshahi (Rs. 65,937) and Noakhali (Rs. 9,943). The percentage of collections rose from 97·7 to 98·7, while that of the outstanding balance on the total demands fell slightly from 14·1 to 13·9 during the year under report. The remissions aggregated Rs. 67,224, of which a sum of Rs. 66,290 was granted in the district of Burdwan alone, owing chiefly to the revision of assessment of coal mines under Chapter V of the Cess Act.

Percentage of collections in districts—

1.	24-Parganas	... 105·2
2.	Khulna	... 103·7
3.	Murshidabad	... 103·3
4.	Midnapur	... 103·2
5.	Faridpur	... 102·7
6.	Bakarganj	... 102·5
7.	Malda	... 101·6
8.	Nadia	... 101·5
9.	Chittagong	... 101·0
10.	Jalpaiguri	... 100·7
11.	Hughli	... 100·1
12.	Birbhum	... 100·0

52. The percentage of collections on the current demand attained the standard of 100 or more in the marginally-noted districts, and the standard was nearly reached in Pabna (99·8), Burdwan (99·3), Darjeeling (99·3) and Dinajpur (98·1). The short collections in Jessore (97·1), Bogra (95·7), Bankura (93·3) and Rajshahi (89·8) are attributed to the bad agricultural condition of the districts, while the falling-off in the percentage in Mymensingh (97·4), Noakhali (89·2) and Rangpur (86·1) is reported to be due to the default in payment by some big zamindars. The failure to attain the fixed percentage in Tippera (96·0) is ascribed to the high prices of the necessaries of life; but the deficiency (96·5) in Dacca has not been explained.

Sums barred by limitation.

53. No arrears were barred by limitation in any of the districts during the year under report.

Working of the Certificate Procedure.

54. The total number of certificates filed for the realization of cesses rose from 44,209 in 1917-18 to 50,854 during the year. There was a noticeable increase in the number of institutions in Chittagong (1,886), Dacca (1,140) and the 24-Parganas (1,072). The marked increase in Chittagong was reported to be principally due to a large number of certificates having been instituted for petty arrears. The total number of certificates for disposal, including those (10,478) pending from the preceding year, came to 61,332, of which 45,581 were disposed of and 15,751 were left pending at the close of the year. The increase in the number of pending cases is said to be due to the large number of institutions, many of which were filed in the last quarter of the year. The number of cases pending for more than six months was 1,138, for which Hughli (174), Burdwan (167), Chittagong (115) and Dacca (102) are mainly responsible. Necessary action is being taken by the Collectors concerned to reduce the number.

Appendix XXVIII.

Objections against certificates.

55. The total number of objections filed and disposed of decreased from 2,717 and 2,685, respectively, in 1917-18, to 2,176 and 2,149, respectively, during the year. In 700 cases certificates were cancelled on such grounds as double assessment, death or desertion of certificate-debtors, payment of dues before the issue of certificates and certificates being filed against wrong persons, etc.

Stages of procedure at which demands were satisfied.

56. Arrears of cesses were recovered in 12,330 cases on the mere issue of the notice of demand and in 28,976 cases on the issue of notices for the attachment of property, moveable and immoveable, while recourse had to be taken to actual sales only in 585 cases, against 1,448 in the year previous, out of a total of 61,332 cases for disposal.

Valuations and revaluations.

57. From Appendix XXIX, in which is given detailed information regarding valuation and revaluation operations including those conducted by the agency of the Settlement Department, it will be seen that revaluations on a large scale under the control of the Collector were in progress during the year in the districts of the 24-Parganas, Midnapur, Mymensingh and Bakarganj. Revaluations conducted by the Settlement Department were also in progress in the entire district of Rajshahi and in 2,700 estates (revised figures) in Noakhali. The assessment of coal mines in the district of Burdwan and of certain *gazari* forests in Dacca was, as usual, revised under Part II, Chapter V, of the Cess Act.

Appendix XXIX.

58. The details of the separate accounts opened in revenue-paying and revenue-free estates are given in Appendices XXX and XXXI. The total number of such accounts opened during the year was 1,125 for revenue-paying estates and 23 for revenue-free estates, the numbers remaining open at the end of the year being 57,143 and 710, respectively.

Separate accounts for revenue-paying and revenue-free estates.

Appendices XXX and XXXI.

59. The number of revenue-paying estates assessed to cesses increased by 366, while the number of revenue-free estates diminished by 6. There was also a decrease of 241 in the number of rent-free lands under direct collection, owing to amalgamation with the parent estates and cancellation of such holdings as were found to be doubly assessed or untraceable. The marked increase (269,176) in the number of tenures was due to the discovery of their existence in the course of revaluation proceedings and was contributed chiefly by Rajshahi (164,482), the 24-Parganas (67,946), Noakhali (31,442) and Midnapur (14,386).

Estates and tenures.

Appendix XXXII.

60. The gross rental of the Presidency aggregated Rs. 12,85,95,185, against Rs. 12,59,55,694 of the preceding year. and shows an increase of Rs. 5,33,37,021 over the initial valuation obtained after the introduction of the Bengal Act, X of 1871. This increase is the result of valuations and revaluations.

Gross rental

Appendix XXXIII.

61. The question of the amendment of the Cess Act has been dropped for the present. During the year steps were taken for the more extensive valuation and assessment to cess of immoveable property under Chapter V of the Act. Orders have been issued finally regulating the control of work connected with cess in the Collectors' offices, and the amalgamation of cess with the land revenue tauzi has been completed. A new edition of the Cess Manual was issued by the Board.

Miscellaneous.

SECTION VI.

Miscellaneous.

62. Appendix XXXIV shows the number and cost of service of all processes, revenue and criminal, served through the Revenue Nazarat. The total number of processes served was 966,757 against 953,654 in the preceding year. The process fees realized amounted to Rs. 3,75,976 against Rs. 3,84,477 in the preceding year, and the total cost of service, including the pay of the supervising establishment debitable to land revenue, was Rs. 2,62,058 against Rs. 2,22,772 in the previous year. The cost of the process-serving establishment exceeded the receipts from fees in the districts of Nadia, Jessore, Khulna, Mymensingh, Bakarganj, Dinajpur, Bogra and Pabna. The increase was mainly due to the payment of war allowance to the peons. The system of fines and rewards for bad and good work is reported to have worked well.

Processes.

Appendix XXXIV.

The system of serving processes by dafadars through president panchayats was in force in the districts of Birbhum, Hughli, Dacca, Tippera and Jessore and in parts of the districts of Burdwan, the 24-Parganas, Nadia, Murshidabad, Khulna, Faridpur and Rangpur. The system is reported to have worked satisfactorily on the whole except in the districts of Hughli and Khulna. The system is reported to have been practically discontinued in the Sadar and Ranaghat sub-divisions of Nadia, in order to serve the processes under the Certificate Act through the permanent peons for facility of recording affidavits in case of non-personal service.

In Midnapur 2 permanent peons were dismissed, 8 temporary peons were removed and 19 peons were suspended for various terms for bad work. In Baraset sub-division 1 peon was suspended for 17 days for neglect of duty and was afterwards transferred to the post of duftry for six months by way of punishment. One permanent peon of the Sadar sub-division of the 24-Parganas was removed for tampering with the date of issue of a cheque receipt given to a judgment-debtor in connection with the execution of a

distress warrant and for unusual delay in returning processes, and another peon was suspended for four months for unusual delay in returning some time-expired warrants and for irregular attendance. In the Satkhira sub-division in Khulna, a peon who was criminally prosecuted under section 147, Indian Penal Code and was dismissed. One peon was dismissed at Barisal Sadar for serious neglect of duty and 1 peon was suspended for three months at Perojpur in the district of Bakarganj for submitting a false service return in a criminal case. In Jalpaiguri a process-serving peon was dismissed during the year for taking a bribe and 1 apprentice peon was fined Rs. 5 for misconduct. In Bogra, 1 peon was suspended for misconduct and his case is awaiting final orders. In Pabna 2 peons were suspended, 1 for one year and the other for six months, for submitting false reports. In Malda 2 peons were suspended for two months each for bad work.

Records.

63. The total amount sanctioned by Government during the year 1918-19, for the maintenance of record-rooms attached to the District, the Commissioners' and the Board's offices was Rs. 35,860. The records of these offices are reported to be generally in good condition. The old survey papers of the Dacca Collectorate record-room, which were largely damaged are being repaired or copied as far as possible. In Bogra, some of the valuable documents kept under lock and key that were noticed in the last year's report to have been worn-out and eaten by insects are being copied by a temporary establishment. In Noakhali some of the old documents under double lock as well as under single lock have become worn-out and eaten by insects. Steps are being taken to prevent such injury in future.

The periodical destruction of B and C papers was duly carried out in most of the districts. The quinquennial revision of records was completed during the year in the office of the Collector of Hughli and is in progress in a few other districts. As stated in the previous year's report the record room of the Pabna Collectorate is in need of extension to accommodate the records of the Diara settlements and the scheme of bringing the two record-rooms attached to the 24-Parganas Collectorate under one roof could not be carried out for want of funds. The settlement records of the Dacca and Faridpur districts are still in hired buildings. In Malda, the work of improving the lighting of the record-room was completed during the year.

Libraries.

64. The libraries in all districts and sub-divisions are reported to be generally in good condition. The revision of the catalogue of books was completed during the year in the district libraries of Birbhum, Midnapur, Nadia, Mymensingh and Malda and the subdivisional libraries of Rampur Hât in the district of Birbhum, Baraset in the district of the 24-Parganas, Sadar and Thakurgaon sub-divisions of the Dinajpur district. The work is in progress in some other district and sub-divisional libraries. Difficulty for want of accommodation is still being experienced in the district libraries at Bogra and Pabna.

Treasure Trove Act, VI of 1878

65. During the year action was taken under the Act in regard to the following new cases :—

(*i*) In Birbhum 26 old coins were discovered in village Rudranagar in police-station Murarai. As they were found, after examination, to be of considerable numismatic value and were unclaimed, formal proceedings were taken to acquire them for Government. After acquisition the coins will be distributed among the different museums.

(*ii*) In village Betagari, police-station Nandail, district Mymensingh, a small brass pot was discovered by a boy in a heap of soil. A companion of the boy is said to have taken away the contents of the pot which are reported to have been 100 gold muhars (coins). The matter is under enquiry.

(*iii*) In Rajshahi certain cowherds found at village Chapalia, police-station Gurudaspur, a number of old coins of the Emperor Shah Alum, consisting of 43 rupees, 37 eight-anna pieces and 24 four-anna pieces. The coins not being rare ones it was not considered necessary to acquire them.

(*iv*) In Malda a labourer, while engaged in digging earth from a piece of land in village Nawabganj, police-station Malda, found some current coins amounting to Rs. 17. A woman whose house was adjacent to the place was prosecuted under section 20 of the Act, but was acquitted.

Personnel—

Of the Board.

66. The office of the Member of the Board of Revenue, Bengal, was held by the Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., throughout the year.

Of Commissioners.

67. The following Commissioners held office during the year :—

Burdwan Division.—Mr. D. H. Lees remained in charge throughout the year.

Presidency Division.—The Hon'ble Mr. F. J. Monahan held charge from the 3rd April to the 31st August 1918 and again from the 30th September 1918 to the 23rd February 1919. Mr. J. T. Rankin was in charge from the 1st to the 2nd April 1918, Mr. W. D. R. Prentice from the 1st to the 29th September 1918 and the Hon'ble Mr. F. C. French, C.S.I., from the 4th March 1919 to the end of the year, Babu Phanindra Nath Mukherjee, Senior Personal Assistant to the Commissioner, holding charge from the 24th February to the 3rd March 1919.

Dacca Division.—Mr. F. C. French, C.S.I., remained in charge from the 1st to the 8th April 1918 and again from the 9th October 1918 to the 28th February following, Mr. J. T. Rankin from the 9th April to the 8th October 1918 and Mr. J. N. Gupta, M.B.E., for the rest of the year.

Chittagong Division.—Mr. K. C. De, C.I.E., was in charge throughout the year except from the 9th July to the 8th October 1918, when Mr. A. H. Clayton officiated for him.

Rajshahi Division.—Mr. H. F. Samman held charge from the 1st April to the 8th October 1918, Mr. J. T. Rankin from the 23rd October 1918 to the close of the year and Mr. F. W. Strong remained in charge of the current duties during the intervening period.

Tours and inspections of the Member of the Board.

68. During the year under report the Hon'ble Mr. Stevenson-Moore visited Jalpaiguri, Kalimpong, Dacca, Joydebpur, Boyersingh in the Khulna Sundarbans, Barisal, Patuakhali and the colonization area of the Bakarganj Sundarbans.

At Jalpaiguri he inspected the Deputy Commissioner's office, examined the questions relating to the balancing of tauzi accounts at each kist, and the payment of cesses at tahsil offices and accounting for them in the tauzi ledger ; and discussed with the local officers matters connected with the Mathurapur Wards' Estate and the scheme for the maintenance by patwaris of settlement records in Government estates in Mainaguri tahsil. He visited Kalimpong chiefly in connection with its development as a hill-station and discussed various projects relating thereto. He also visited the local agricultural farm and examined the scheme for establishing two or three out-stations in the Kalimpong Government Estate for demonstration and instructional purposes. At Dacca he discussed with the local officers the proposal for the reorganization of the Khas Mahal Department of the district, and inspected the office of the manager of the Nawab's Estate. He went to Joydebpur where he inspected the buildings and office of the Bhowal Estate and discussed matters connected with the management of the same. His visit to Boyersingh in the Khulna Sundarbans was in connection with the advisability of abandoning the estate as a spill area for flood water. He visited Barisal and Patuakhali, and at the latter place he inspected the water-works and discussed with the Collector the question of taking under the khas management of Government the interests of the talukdars of certain Government estates included in the Marichbunia group in that sub division of the district of Bakarganj. He examined the *bargadagi* system of settlement introduced into Government estate Ilsha Ghagra. During an extensive tour in the Sundarbans he looked into matters relating to the administration of the colonized area and also other matters of local importance specially affecting the health, sanitation and general improvement of the area and education of the people.

69. In the Burdwan Division Mr. Lees spent 131 days on tour, and he visited and inspected all the district offices and four sub-divisional offices in the division. The tours of the Commissioner of the Presidency Division (Mr. Monahan) extended to 62 days, in the course of which he visited and inspected all the district offices and 6 sub-divisional offices and looked into the administration of the municipalities and other public institutions. The total number of days spent on tour by the Commissioner of the Dacca Division was 76, of which Mr. Rankin contributed 42 days, Mr. French 26 and Mr. Gupta the rest. All the district and, with a few exceptions, the sub-divisional head-quarters were visited, some of them more than once. Both Messrs. Rankin and French visited the Bakarganj Sundarbans. In the Chittagong Division Mr. De was on tour for 78 days and Mr. Clayton, who officiated for him, for 12 days. The former officer made a detailed inspection of all the district and sub-divisional offices, including khas mahals and Court of Wards' offices, except the sub-divisional office at Feni (which has since been done). He visited many educational institutions, all the jails and hospitals and some important dispensaries in the division and inspected most of the municipalities and District and Local Boards. He also paid a visit to the Central Co-operative Bank and Home Industrial Association at Brahmanbaria and the relief works near Nabinagar in the Brahmanbaria sub-division of the Tippera district, and went to Rangamati and also into the interior of the Chittagong Hill Tracts. Mr. Clayton attended His Excellency the Governor during his visits to the districts of Noakhali and Tippera and also went to Rangamati to look into matters in connection with the proposed administrative reforms in the Hill Tracts. The total number of days the Commissioner of the Rajshahi Division spent on tour was 153, of which 61 days were contributed by Mr. Samman and the rest by Mr. Rankin. All the district offices except Rangpur were inspected during the year, as well as four sub-divisional offices. Several public institutions were also inspected. Mr. Samman visited Kalimpong with the Hon'ble Member of the Board of Revenue in connection with its development as a hill station. Both Messrs. Samman and Rankin visited the flooded areas in the districts of Rajshahi and Bogra and discussed the situation with the Collectors.

Of Commissioners.

70. The prescribed amount of touring was performed by all the District Officers with a few exceptions. They visited almost all the parts of their respective districts and inspected local institutions and attended to all important matters connected with the administration. They also enquired into the state of crops and all other matters affecting the condition of the people. They thoroughly inspected their own offices at head-quarters and sub-divisional offices including the district and sub-treasuries.

Of District and Sub-divisional Officers.

The tours and inspections of the Sub-divisional Officers were, on the whole, adequate and satisfactory. No serious irregularities, except the following, were brought to light at these inspections :—

While taking stock of the court-fee stamps in the Narail sub-treasury in Jessore, the Sub-Treasury Officer detected a shortage of stamps to the value of Rs. 1,674. The matter was brought to the notice of the Collector by the Sub-divisional Officer and the Collector has submitted a report to the Accountant-General, Bengal.

I have the honour to be,

SIR,

Your most obedient servant,

F. D. ASCOLI,

Secretary.

APPENDICES.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue Branch.

DARJEELING, THE 27TH OCTOBER 1919.

RESOLUTION—No. 2379T.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year ending 31st March 1919.

THE Hon'ble Mr. C. J. Stevenson-Moore, C.V.O., was in charge of the office of the Member of the Board of Revenue throughout the year.

2. **General condition of the year.**—The year under report started not unfavourably. Though the prices of imported necessaries and of cloth were high, the prices of foodstuffs were low and stocks were large, due both to the bumper harvest of the previous year and to the lack of facilities for exports during the war. This, on the other hand, gave cause for complaint. Later on in the year the situation took a turn for the worse. The general causes of this were four-fold. The rise in prices in other countries owing to the war, a rise which had resulted from the reduction in the production of the necessaries of life in the combatant countries and from an inflation of currency, began at the close of the war to have a sympathetic effect on prices in India; the general failure of the monsoon throughout India led to actual famine in other provinces; the particular failure of the monsoon in Bengal produced a short crop of rice; and the outbreaks of influenza took a heavy toll of the people. In consequence of the first three causes, the prices of foodstuffs, including that of rice, rapidly rose. This rise was the more keenly felt by persons on small fixed incomes. Such prices did not, however, rise during the year—which ends on the 31st March—to the heights they subsequently attained in this province, or to those reached in other provinces, whilst they were prevented from rising to the heights obtaining in foreign countries by the restrictions placed on exports to those countries. Moreover, despite exports of rice to other provinces which were in worse straits than Bengal, there was no shortage of rice.

3. In particular areas the material condition of the people was also affected by certain visitations of nature. In the Rajshahi Division such a flood as had not occurred for half a century traversed the districts of Rajshahi, Dinajpur, Bogra and Pabna, causing much damage to crops, homesteads and cattle, particularly in the districts of Rajshahi and Bogra. Relief was, however, promptly rendered. A high and prolonged flood, followed by a long drought, in the subdivision of Brahmanbaria in the district of Tippera damaged the standing crops and delayed the transplantation of winter rice, with the result that relief measures had to be organised towards the end of the year. Floods in the districts of Dacca, Mymensingh and Faridpur affected the jute and rice crops, whilst the earthquake of the 8th July 1918 did a certain amount of damage in the eastern districts of the province. The failure of the crops in Bankura was so widespread that operations had to be started in that district for the relief of the distress which, subsequent to the year under report, developed into famine. Agriculturists' loans to the extent of 6½ lakhs were advanced during the year.

4. The end of the year under report, therefore, appears to have been unusually black, but it must be remembered that there were many districts which did not suffer from the peculiar visitations referred to in the last paragraph, and that persons engaged in trade and the cultivator with surplus stocks benefited by the rise in the price of foodstuffs. Moreover, it requires a minute examination of the report under review to discover the instances, which are few and far between, in which variations have occurred on account of the character of the year in the numerous statistics relating to the administration of land revenue, except in the areas officially declared to

have been suffering from distress. The short collections of road and public works cesses in Jessore, Bogra, Bankura and Rajshahi are attributed to the bad agricultural conditions of these districts, but distress was officially declared in the latter three districts. The failure to attain the fixed percentage of the same collections in Tippera is ascribed in that district alone to the high price of the necessaries of life, an excuse which might have been put forward by every district in the presidency. On the other hand, in the Sundarbans in Bakarganj, although the rice crop was only 75 per cent. of the normal, the tenants in the Government estates paid cent. per cent. of the collections of rent, owing to the high prices they obtained for their rice. Further, during the year industries, with some exceptions, flourished. For instance, coal mines, jute mills and factories had an exceptionally busy year and gave employment to much labour; the local sugar industry in Jessore benefited by the restrictions on the supply of foreign sugar; in Dacca an attempt was made to revive the tanning industry; and ship-building continued in Chittagong.

5. **Land Revenue demand and collections.**—The current demand of the year amounted to Rs. 2,79,27,827, showing an increase of Rs. 70,927 over the previous year, due to new settlements and re-settlements and progressive increase of demands in temporarily-settled and Government estates. The collections amounted to Rs. 2,80,84,829, being 92·7 per cent. of the total and 100·5 per cent. of the current demand, against 91·9 and 97·9 per cent., respectively, in the previous year. The remission of revenue during the year amounted to Rs. 72,101. The total land revenue demand is slightly over one-fifth of the gross rental of the province.

6. **Road and Public Works cesses.**—The current demand on account of road and public works cesses showed an increase of Rs. 77,243, due to valuation and revaluation proceedings. The percentage of total collections on the current demand rose from 97·7 in 1917-18 to 98·7. Twelve districts against seven in the previous year attained the standard of 100 per cent. on the current demand. Valuations or re-valuations, partial or complete, were made in 14 out of the 25 districts in which the Act is in force, and were completed in seven. Revaluations conducted by the Settlement Department were in progress in Rajshahi and Noakhali, and revaluations under the ordinary procedure were in progress in the districts of the 24-Parganas, Midnapore, Mymensingh and Bakarganj. It is remarkable that the increase in the current demand referred to above was mainly due to revaluation proceedings in the district of Rajshahi, conducted on the basis of the record-of-rights by the Settlement Department. That this resulted in the demand in that district being raised from Rs. 2,36,355 to Rs. 3,02,292 is entirely due to the accuracy of that basis.

7. **Revenue and Cess money-orders.**—As compared with the previous year there was a slight increase in the number of money-orders for the remittance of land revenue and cesses and in the amount covered by them, viz., 230,203 and Rs. 20,54,538, respectively, against 226,206 and Rs. 20,07,860 in 1917-18.

8. **Coercive measures.**—The number of estates which defaulted in the payment of land revenue and became liable to sale was 14,718, or 1,445 more than in the previous year. Only 1,319 estates against 1,019 estates in 1917-18 were actually sold. The percentage of sales to defaults is slightly more than in 1917-18, but practically the same as in 1915-16 and in 1916-17. The largest number of defaults were in the districts of Chittagong, Midnapore and Dacca and the sales were proportionately most numerous in the 24-Parganas, Jalpaiguri and Hooghly. The number of certificates filed, including those for cess, was 114,089 against 100,943 in the preceding year, and the number pending at the close of the year was 36,036 against 28,986 of 1917-18. In the majority of cases payments were made on the issue of notices or on attachment of property. Actual sale became necessary only in 4,723 cases, or 4·4 per cent. of 107,036 cases disposed of during the year.

9. **Government estates.**—The total number of estates under direct management, including those of private individuals managed by Government, was 2,387, with an annual demand of Rs. 43,87,096. Rupees 1,76,969

were spent on miscellaneous and sanitary improvements, Rs. 59,257 out of this amount being spent on drainage, embankment and irrigation. The expenditure on roads and communications was Rs. 3,18,756, of which Rs. 76,489 were given by Government and the balance was provided from District Board and other funds. There were 2,404 schools attended by 77,077 pupils in Government estates. The expenditure on education amounted to Rs. 81,451, of which Government contributed Rs. 50,993, the balance being met from local funds.

10. **Waste lands.**—The rules for the grant of waste land leases to large capitalists remained in abeyance in the 24-Parganas and Khulna portions of the Sundarbans. Raiyatwari settlements on the lines of the Bakarganj colonisation scheme were being made in certain Sundarbans lots in the 24-Parganas. The progress of reclamation in the Bakarganj portion of the Sundarbans was satisfactory.

11. **Drainage, Embankment and Irrigation.**—The work of draining the Manikhali basin in the 24-Parganas at an estimated cost of Rs. 1,83,481 was undertaken during the year. Three anti-malarial projects, viz., the Nawi Sunthi project in the 24-Parganas, the Arul bhil project in Jessore and the Jabuna project in the 24-Parganas, Nadia and Jessore, were undertaken by the District Boards. A total contribution of Rs. 4,25,000 has been made by Government towards the cost of these projects. The Banka anti-malarial drainage project in the Burdwan Division and the work of silt clearance of Srichandra khal in the Presidency Division were completed. Two large projects for the improvement of the drainage of the Contai subdivision were sanctioned. A scheme for improving the Amta basin in the district of Howrah under the Sanitary Drainage Act at an estimated cost of 9 lakhs of rupees has been sanctioned. The Damodar reservoir enquiry survey is in progress under a special officer.

12. **Partitions.**—Forty-six cases were instituted during the year and 285 cases were pending at the end of the previous year. Of these 79 cases were disposed of and 252 remained pending.

13. **Working of the Bengal Tenancy Act.**—The Bengal Tenancy Act was amended during the year so as to make it illegal for a landlord to realise more road or public works cess from his tenants than is warranted by the Cess Act. The levy, however, of *abwabs* or illegal cesses by the landlords, and the failure to grant rent receipts still continues to prevail. There was an increase in the number of rent money-orders issued and in the amount covered by them. The percentage of money-orders refused by landlords to money-orders sent fell from 16·7 to 16·3. The Bill relating to the transferability of occupancy holdings generally, which was under consideration, has been dropped, as it does not appear that there is any real demand at present for such legislation.

14. The thanks of the Governor in Council are due to the Board for its efficient administration of the Land Revenue Department.

By order of the Governor in Council,

M. C. McALPIN,
Secy. to the Govt. of Bengal.

No. 8123L.R.

Copy forwarded to the Secretary to the Board of Revenue, Bengal, for the information of the Board.

By order of the Governor in Council,

S. A. LATIF.
Under-Secy. to the Govt. of Bengal.

Calcutta,
The 30th October 1919.
